

PSYC13022 Learning & Behaviour Modification

Term 2 - 2021

Profile information current as at 19/05/2022 10:51 pm

All details in this unit profile for PSYC13022 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will provide you with an understanding of the environmental and cultural factors that control and modify behaviour. Theories of behaviour including Classical, Operant and Social/Observational Learning approaches are examined and discussed in relation to both animal and human research. Theories of behaviour modification will also be considered within the health context. There is a focus on applying theory to real-world situations and critically evaluating published research relevant to each topic. The latter half of the unit takes the theoretical approaches covered in the first 8 weeks and applies them to modifying behaviour within real-world situations such as intimate partner violence, drug use/abuse, and psychological disorders (e.g., Eating Disorders).

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Emails, Forum posts, Have your say student evaluation.

Feedback

Students appreciated the differing due dates for the Focus Questions so that they could choose which assessments to submit depending on their workload.

Recommendation

Continue to offer staggered due dates for the Focus Questions.

Feedback from Emails, Have your say student evaluation.

Feedback

Students appreciated the applied and real-life examples given to illustrate the concepts being taught.

Recommendation

Continue to use applied and real-life examples to illustrate the concepts and ideas being taught.

Feedback from Have your say student evaluation.

Feedback

Some students felt that the time provided for the online test was too short.

Recommendation

Review the number of questions in the online test.

Feedback from Have your say student evaluation.

Feedback

Some students felt that the instructions for the essay were too long.

Recommendation

Review the amount of information given on the requirements of the essay, as well as producing a checklist.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Explain the major principles and theories of learning
2. Apply the major principles and theories of learning to explain behaviour within 'real world' contexts
3. Employ advanced communication skills to demonstrate depth of understanding of learning and behaviour modification.

2 Written Assessment - Focus Questions

Assessment Type

Written Assessment

Task Description

This assessment task requires you to respond to two focus questions by the beginning of Week 11. Focus question responses are to be between 800 - 1000 words in length. Five focus questions will be provided and each of these will open on the Unit's moodle site every fortnight. You **MUST** complete the first focus question and then you are able to choose which one of the remaining four you wish to respond to.

Failure to submit TWO focus questions (that obtain a mark of at least 50% on average) will result in a FAIL grade for the unit.

Please note: Each focus question will be available for two weeks. At the end of that time the focus question will be closed and no further responses will be accepted.

Assessment Due Date

Monday 9am (AEST) in the fortnight following opening of the relevant focus question.

Return Date to Students

Within a week of each focus question closing marks will be available.

Weighting

20%

Minimum mark or grade

A minimum of 50% on average across the two submissions

Assessment Criteria

Each post will be assigned a mark out of 30 (which will then be converted to a percentage).

An Information Sheet with full assessment criteria will be available on the Unit's moodle page and you are required to read this in conjunction with the following:

Content:

- Please ensure that the focus question is addressed in its entirety, for example, focus questions are likely to involve defining a particular concept/theory and then discussing its utility/presence in either an applied or experimental setting.
- Spelling mistakes and sentence/paragraph structural errors will result in lost marks (e.g., paragraphs should be a minimum of 2-3 sentences long).

- Plagiarism will be taken very seriously - take care to reference wherever you make a statement based on your reading.
- Please bear in mind that this is a 3rd year unit and simple re-presentation of information from located sources will not result in high marks - you are required to critically evaluate and discuss the information and concepts you present.

Presentation and Technical Requirements:

Word count

- 800 - 1,000 words. One word over the maximum or under the minimum **will** result in an inability to earn full marks.
- Word count is determined by selecting the text from the first word to the last full stop of the *body of the answer* - in-text citations are included in the word count but the Title and Reference list is not.

References:

- A minimum of THREE references need to be used to inform your post - one of these can be the unit textbook (but you do not have to use it) but two must be journal articles or similar, peer-reviewed, sources.
- Wikipedia, online psychology dictionaries/encyclopedias and first year textbooks **are not** suitable references.
- A reference list must be included at the end of your response and references must be included in text - **if there is no reference list OR no in-text citations the post will be given a mark of zero.**
- APA 7th edition must be followed.
- Quotes must be kept to a minimum (and must be accompanied by a page or paragraph number as per APA guideline) - use of more than one direct quote will result in an inability to earn full marks.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
