

PSYC14049 Professional Practice of Cognitive Therapies

Term 2 - 2017

Profile information current as at 19/05/2024 05:20 am

All details in this unit profile for PSYC14049 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit focuses on both conceptual and practical implications of cognitive behavioural theories. The student will have opportunity to explore and learn the different approaches and theoretical debates for the use of cognitive behavioural theory in evidence-based practice of psychology.

Details

Career Level: *Undergraduate*

Unit Level: *Level 4*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Academic Course = CC42

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2017

- Distance

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 15%

2. **Practical Assessment**

Weighting: 15%

3. **Practical Assessment**

Weighting: 30%

4. **Examination**

Weighting: 40%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Moodle

Feedback

Lectures need to be broken up into smaller sections. Paying attention for 2 straight hours without breaks is hard....

Recommendation

Lectures were conducted live using the Zoom platform. It may be worthwhile taking a 15 minute break in the middle.

Feedback from Moodle

Feedback

I think it would be good to have a lecture/week on criticisms of CBT. I would have like to briefly focus on the theoretical and practical shortcomings of CBT and how to overcome them.

Recommendation

Throughout the lectures, points were made regarding practical problems that arise such as homework completion, therapeutic rupture, etc. However, a focused lecture on current criticisms of CBT might be incorporated into the lecture schedule .

Feedback from Moodle

Feedback

The unavailability of the core text really threw me out. As a distance learner I absolutely depend on being able to tailor my study load in alignment with my paid workforce work load.

Recommendation

The Moodle page could display alternative sources for the textbook including links to purchase eBook versions.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply a theoretical and practical understanding of the cognitive therapy model
2. Use case information to formulate case conceptualisations and basic treatment plans with appropriate processes and principles of cognitive therapy
3. Apply core principles of ethical and professional practice to therapeutic processes across psychological case studies and themes
4. Use cognitive therapy processes and decision-making strategies in case study presentations

Learning Outcomes Assessed

- Apply a theoretical and practical understanding of the cognitive therapy model
- Apply core principles of ethical and professional practice to therapeutic processes across psychological case studies and themes
- Use cognitive therapy processes and decision-making strategies in case study presentations

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Cross Cultural Competence
- Ethical practice

2 Video recording of a psycho-education session (15% of total grade)

Assessment Type

Practical Assessment

Task Description

You will record and submit a video of a psycho-education session.

- The assignment is an opportunity to demonstrate your professional practice in the delivery of a basic component of cognitive behaviour therapy.
- Specifically, you will provide a psycho-education session to a client on the cognitive behavioural model.
- Competence in psycho-education, and socialising the client to the CBT model, is a fundamental element of the therapeutic process.
- Further details are provided in the Moodle site.

Assessment Due Date

Week 6 Friday (25 Aug 2017) 11:45 pm AEST

You will upload a video file: instructions on Moodle site in the Assessments block.

Return Date to Students

Week 9 Friday (15 Sept 2017)

Weighting

15%

Assessment Criteria

This assignment is marked with reference to the Cognitive Therapy Rating Scale.

Please refer to Appendix C in the textbook and the feedback sheet on the PSYC14049 Moodle site.

3 Written submission (30% of total grade)

Assessment Type

Practical Assessment

Task Description

Part A (25%)

- Watch and review the 10-15 minute video you submitted
- Write a critical reflection of your experience and approach

You will need to address the following key areas:

- How well you performed
- What worked well
- How you would potentially run the session next time
- Use the assessment criteria from the Moodle site to guide you on the development of this task

Part B (75%)

- Two case studies are provided in the Moodle site
- Choose one of these case studies: complete a case history, generate a case conceptualisation, and develop a treatment plan
- Use the assessment criteria from the Moodle site to guide you on the development of this task

General guidelines:

- Submit via the Moodle site and please submit as a Word doc
- Use APA formatting with appropriate headings
- Use appropriate citations and referencing (although this should be minimal)
- Please include a title page. An abstract is not required for this assessment task

Assessment Due Date

Week 8 Friday (8 Sept 2017) 11:45 pm AEST

Submit online.

Return Date to Students

Outline

Complete an invigilated examination.

Date

During the examination period at a CQUniversity examination centre.

Weighting

40%

Length

180 minutes

Exam Conditions

Closed Book.

Materials

No calculators permitted

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
