## General Information

### Overview

Psychology Research Project A (PSYC14051) is the first of two units which will introduce you to the process of undertaking research in the discipline of psychology. Over the two units, you will independently undertake a scholarly investigation, under the supervision of a qualified supervisor within the psychology discipline. The purpose of the Psychology Research Project A unit is to provide you with the experience of proposing and planning an independent research project. The research question examined will be developed in consultation with your supervisor and will have either theoretical or applied significance in the psychology discipline. In Psychology Research Project A you will complete a research project proposal and an ethics application for that proposed project. Successful completion of this unit requires that Psychology Research Project A (PSYC14051) and Psychology Research Project B (PSYC14052) are undertaken in two consecutive University terms (e.g., Term 1 and Term 2, or Term 2 and Term 3).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Unit evaluations, student progress reports

##### **Feedback**

Supervisor and coordinator support has been highly commended.

##### **Recommendation**

Continue to mentor supervisors and coordinators to ensure the quality of support remains high.

#### Feedback from Student feedback at residential school and in emails

##### **Feedback**

More support is needed for qualitative research methods and analyses.

##### **Recommendation**

Provide some sessions on qualitative research methods in residential school or throughout the term.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Develop a research proposal for a psychology-based research project
2. Complete a CQUniversity Human Research ethics application (or an Animal Research ethics application where appropriate) for a psychology-based research project.

The purpose of the two-term long Psychology Research Project (A & B) is to provide you with training in developing, conducting, and communicating research across theoretical and applied domains. This requires you to undertake an investigation of a research question in psychology and to report the investigation in written scholarly form. The research question will be of theoretical or applied significance to an area of psychology and the investigation and subsequent dissertation will be carried out under the principal supervision of a member of the psychology staff.

The thesis is an individual research project where the expectation is that you, with advice from your supervisor(s), will be responsible for, and participate in, all steps of the investigation and reporting.

Successful completion of this unit requires that Psychology Research Project A and Psychology Research Project B are undertaken in two consecutive University terms (e.g., Term 1 and Term 2, or Term 2 and Term 3).

Learning outcomes of this unit fulfil the level 2 pre-professional core competencies required by the updated Australian Psychology Accreditation Council (APAC) guidelines, specifically 2.5: Investigate a substantive individual research question relevant to the discipline of psychology. The unit also meets the study criteria as specified by the Psychology Board of Australia (PsyBA) as appropriate for study at level 8 as stated by the Australian Qualifications Framework (AQF).
