General Information

Overview

In this unit you will learn practical skills and develop your knowledge relevant to the professional practice of psychology as an evidence-based scientific discipline and how these skills can be applied across multiple contexts. You will develop an understanding of how social, historical, professional and cultural factors influence the science and practice of psychology. This will include knowledge of psychometric theory applied to diverse assessment scenarios, and demonstration of culturally responsive interpersonal and interviewing skills. You will learn about the application of relevant legal frameworks and codes of ethical practice relevant to the discipline of psychology and the importance of these frameworks for working in professional practice and allied health settings.

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from In Class

Feedback

Students suggested that releasing Learning Material in advance would better support students who work full-time to manage their learning.

Recommendation

Weekly learning content will be released in advance.

Feedback from Student Evaluations

Feedback

Students reported that the written instructions provided for assessments were not clear however stated that the clarification of assessments provided in tutorials when requested was clear.

Recommendation

Assessment Information documents will be updated in order to provide additional clarity.

Feedback from Student Evaluations

Feedback

In relation to Assessment 3 (online Quiz) students reported that they struggled with the time limit.

Recommendation

The teaching team will review the assessment time limit, and the suitability of the quiz items to ensure appropriate time is provided.
