PSYC20044 *Applied Wellbeing Project A*

Term 1 - 2026

Profile information current as at 05/12/2024 05:17 am

All details in this unit profile for PSYC20044 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Applied Wellbeing Project A is the first of two integrated units. In these units, you will plan and design a research project - a research study, a systematic review, or a scoping review - in an applied positive psychology/wellbeing-related field. For students in the Master of Workplace Wellbeing, the project must be situated within a workplace context. Under the supervision of a qualified Academic supervisor, you will develop a research project proposal. This will involve undertaking (i) a preliminary literature review to identify and support your proposal; and (ii) developing a project plan, including proposed Methods, Data Collection and Analysis sections. As part of the unit, you will also complete a relevant ethics application for a proposed project. In the unit Applied Wellbeing Project B (PSYC20045), which is Stage 2 of the process, following proposal approval, you will undertake your research study, systematic review, or scoping review.
