

PSYC20045 *Applied Positive Psychology Project B*

Term 2 - 2022

Profile information current as at 19/04/2024 04:40 pm

All details in this unit profile for PSYC20045 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Applied Positive Psychology Project B is the second of two integrated units. In these units, you will plan, design and undertake a research project - either a systematic review (Option 1) or research study (Option 2) - in a positive psychology/wellbeing and/or resilience-related field. Stage 2 of the process will occur in this unit and involves undertaking, under the supervision of a qualified Academic supervisor, the systematic review or research study that you developed in Stage 1 (PSYC20044: Applied Positive Psychology Project A) of the two integrated units. In this unit, you will either: • Conduct your systematic review (Option 1) or • Implement your research study (Option 2), which will involve either collecting and assessing new quantitative, qualitative or mixed-methods data, or utilising an existing dataset. At the completion of your project, you will submit your systematic review or research study in journal article format.

Assessment Overview

1. **Written Assessment**

Weighting: 100%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback (evaluations and email).

Feedback

Students felt that they were supported by their research project supervisors.

Recommendation

Students will continue to work with at least one project supervisor with oversight from the Unit Coordinator.

Feedback from Student feedback (evaluations).

Feedback

Some students would like more interaction with fellow students in live workshops.

Recommendation

The teaching team will implement activities to increase student interaction in live workshops, such as more group activities and discussions.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply research knowledge and skills applicable to working as a positive psychology practitioner and researcher
2. Competently apply a qualitative, quantitative, mixed-method design or review approach to conducting and evaluating a research project
3. Apply high-level written communication and research skills to produce a systematic review or research study written report.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
