

PSYC20056 Research and Professional Practice in Psychology 1 Term 1 - 2023

Profile information current as at 27/04/2024 02:48 am

All details in this unit profile for PSYC20056 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Research and Professional Practice in Psychology 1 is the first of two professional practice units designed to provide you with the opportunity to develop the required skills and knowledge necessary for progression in the general psychology registration pathway (5 + 1). This unit incorporates a practicum designed to simulate 'real-world' aspects of working as a psychologist within a safe learning environment. Opportunities for multidisciplinary collaboration, critical analysis, reflective-practice, and ethical decision making will be provided. Class content draws upon case studies and evidence-based theoretical formulation frameworks, and will examine requirements for initial and ongoing registration, and legal and ethical aspects of psychological practice and research. You will also begin to research an area of applied practice in psychology and develop a research plan for an evaluation project to be completed in Term 2.

Pre-requisites or Co-requisites

Students must be enrolled in the Master of Professional Psychology

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2023

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Unit comments

Feedback

Students felt that the contents of the Inter-Professional Education (IPE) task aligned more with the "PSYC20055 Assessment: child and adolescent" unit.

Recommendation

The IPE task is a requirement for Australian Psychology Accreditation Council (APAC) accreditation. Students complete this assessment in their first year (both full-time and part-time students). After review by the teaching team it was noted that including this assessment task in PSYC20055 does not allow part-time students to complete this assessment in their first year, as this unit is taught in the second year for part-time students. However, additional materials such as resources and videos will be added to the IPE Moodle site to support students in this task.

Feedback from SUTE Unit comments

Feedback

Starting the Practicum Review and simulated roleplaying is difficult for part-time students as they don't have any units with therapeutic techniques in their first year.

Recommendation

From 2023, students will demonstrate and develop competency in micro-counselling skills prior to their practicum review. Students will thus learn techniques and skills to scaffold their learning.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Evaluate and apply relevant legislation and ethical principles related to psychological practice, including those endorsed by the Psychology Board of Australia
2. Critically evaluate the contemporary scientific literature to develop an appropriate plan for evidence-based practice, including research
3. Articulate and apply models and approaches for the professional and ethical practice of psychology
4. Communicate effectively with a range of client, specialist, and nonspecialist audiences.

Learning outcomes are drawn from specifications for study at level 9 as indicated by the Australian Qualifications Framework (AQF), program of study criteria as stated by the Psychology Board of Australia (PsychBA), and the following core competencies stated by the Australian Psychology Accreditation Council (APAC):

- 3.1 Demonstrate successful (prior or concurrent) achievement of pre-professional competencies,
- 3.10 Demonstrate respect for the skills and contribution of other professionals,
- 3.11 Work effectively with a range of professional and support staff in the workplace and communicate and collaborate effectively, within the bounds of ethical and legal requirements,
- 3.12 Operate within the boundaries of their professional competence, consult with peers or other relevant sources where appropriate, and refer on to relevant other practitioners where appropriate,
- 3.13 Rigorously apply professional practice policies and procedures, including as they relate to referral management and record-keeping, across a range of workplace settings and with recognition of different organisational cultures and practices,
- 3.14 Engage in self-reflective professional practice, taking account of the impact of their own values and beliefs, and taking appropriate actions as a result,
- 3.15 Evaluate the effectiveness of their professional practice, identifying areas for improvement and implementing changes where needed, and
- 3.16 Critically evaluate contemporary scientific literature to inform practice (APAC, 2019, p.13-14).

Term Specific Information

This is a non-graded (Pass/Fail) unit and therefore, in accordance with CQUniversity's Assessment Policy and Procedure (Higher Education Coursework), all assessment tasks must be passed in order to pass this unit. The minimum pass rate for each assessment task is 70% for this unit. Students who have made a reasonable attempt to complete an assessment task initially will have one opportunity to re-attempt a failed assessment task. The mark achieved for the re-attempted assessment task will be recorded as the final mark.

Assessment Tasks

3 Inter Professional Education

Assessment Type

Written Assessment

Task Description

Inter-professional Education (IPE) involves the collaboration between different health professions to learn about, from, and with, other disciplines, to enhance treatment and improve health outcomes for patient/client care. The IPE process will involve collaboration across the disciplines of Psychology, Occupational Therapy, and Speech Pathology, to provide assessment and intervention recommendations for a mutual patient/client.

You will work collaboratively as part of a multi-disciplinary team through a dedicated Moodle site to develop:

1. An assessment plan for your client
2. An intervention plan for your client

After each multi-disciplinary team meeting, you will also write a 250-word reflection using the provided checklist for team meeting observations as a guide. You will submit one (1) reflection for the assessment plan meeting and one (1) reflection for the intervention plan meeting; two (2) reflections in total.

In both reflections, you will critically reflect on your observations within the multi-disciplinary team meeting, and consider how you might adjust your future practice, based on your experience and learnings.

5 Practicum Portfolio

Assessment Type

Portfolio

Task Description

As part of the Master of Professional Psychology course, you are required to complete a psychology practicum. This psychology practicum will be completed across two units, this unit (PSYC20056 Research and Professional Practice 1), and the partner unit (PSYC29002 Professional Practice 2). The psychology practicum must be 300 hours of psychological practice comprising at least 90 hours of simulated direct client contact, client-related activities, and individual and group supervision. The practicum portfolio assessment for this unit comprises the main elements of the first component of your psychology practicum.

You will be required to maintain your practicum portfolio in a OneDrive folder that is accessible to your individual supervisor and the Head of Course. This folder must include all your recorded simulated practice (roleplays), and required, completed documentation, such as roleplay records, supervision records, logbook, and your practicum review (once completed). Only the material inside your OneDrive practicum portfolio can be counted towards completion of your psychology practicum and therefore towards completion of your practicum hours.

You will review your progress towards and obtain feedback about your competency development with your individual supervisor throughout the term, including in a collaborative mid-term review. At the end of the term, you will conduct a practicum review using the practicum review document provided. The practicum review document must indicate that you have achieved sufficient competencies to pass the first component of the practicum. The review must also include a log of the materials comprising your practicum portfolio contained within OneDrive and include the OneDrive link. The practicum review must be signed by yourself and your individual supervisor before being uploaded to Moodle.

Assessment Due Date

Review/Exam Week Friday (9 June 2023) 11:59 pm AEST

Return Date to Students

Exam Week Friday (16 June 2023)

Weighting

Pass/Fail

Minimum mark or grade

Pass: Minimum grade of 70% for the practicum review and completed portfolio documentation consistent with the materials listed in the practicum review document.

Assessment Criteria

To pass this assessment item you will be required to maintain the OneDrive practicum portfolio throughout the term for review at your individual supervision sessions and by the Head of Course. Only the material inside your OneDrive practicum portfolio can be counted towards completion of your psychology practicum, and this material must match the information in the supervision records, logbook, and practicum review document submitted through Moodle.

The criteria are set out in the practicum review document and cover the competency areas which define the critical capabilities and attributes deemed necessary to ensure that graduates are equipped to practice psychology safely and effectively subsequent to graduation. It is expected that across the entire Master of Professional Psychology course, students will demonstrate incremental development across these competency areas. In addition to these core competencies, the student and individual supervisor are asked to reflect on the student's response to supervision and course-wide learnings.

Your practicum review will be assessed according to the following criteria. More detail will be provided in the psychology practicum handbook and the practicum review document.

Professional, Legal, and Ethical Duties

- Written and verbal communication
- Psychological documentation
- Relationship-building
- Ethical disclosures and considerations
- Evidence-based practice
- Reflectivity
- Adherence to professional standards

Psychological Assessment

- Observation and history-taking skills
- Formulation
- Practice across the lifespan
- Diagnosis and differential diagnosis
- Cultural competency Risk assessment
- Professional reasoning

Psychological Intervention

- Micro-counselling skills
- Goal-setting skills
- Intervention techniques
- Intervention and session planning
- Integration of key models and guidelines
- Safe practice
- Practice across the lifespan
- Cultural competency
- Risk assessment

Practicum Components

- Progress within individual and group supervision
- Feedback
- Reflectivity and reflective practice
- Competent simulated practice
- Completion of adequate progress towards psychological practicum completion

Referencing Style

Submission

Online

Submission Instructions

Upload the practicum review document through the assessment portal on Moodle. Ensure the practicum review document is signed by yourself and your individual supervisor and includes the link to the OneDrive folder containing your practicum portfolio and a list of the materials comprising your practicum portfolio.

Learning Outcomes Assessed

- Critically evaluate the contemporary scientific literature to develop an appropriate plan for evidence-based practice, including research
- Articulate and apply models and approaches for the professional and ethical practice of psychology
- Communicate effectively with a range of client, specialist, and nonspecialist audiences.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
