General Information

Overview

This unit will provide you with the opportunity to develop the theoretical knowledge and skills necessary to practice within a Cognitive Behavioural Therapy (CBT) framework. You will explore the various cognitive and experiential components of CBT, and demonstrate your ability to critically reflect upon the needs of the client and the practitioner through CBT case conceptualisation/formulation. You will use technical, cognitive, and communication skills to engage in effective CBT practice, and investigate client needs, across a variety of client presentations (e.g. cultural diversity, across the lifespan, differing diagnoses).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Unit comments

Feedback

Students commented that the unit coordinator's knowledge and enthusiasm increased their learning in this unit.

Recommendation

Staff teaching into the unit will continue to expand their knowledge and bring enthusiasm to their teaching.

Feedback from SUTE unit comments

Feedback

The feedback for the video assessments was not available, prior to their subsequent submission as students had to submit three video assessments whereby each assessment build upon the feedback of the previous assessment.

Recommendation

The teaching team will continue to provide feedback for the students for each assessments. This feedback will be returned to students prior to their subsequent assessment.
