

# PSYC20061 *Research Evaluation for Psychology Practice*

## Term 2 - 2022

Profile information current as at 02/05/2024 03:09 pm

All details in this unit profile for PSYC20061 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Evidence-based practice is integrated throughout the Master of Professional Psychology and aligns with the scientist-practitioner model. It is essential that you establish and evaluate your professional practice work based on scientific research. This unit will equip you with knowledge and skills related to the conduct of research evaluation in a professional practice context. Building on the research question and research plan you developed in Research and Professional Practice in Psychology (PSYC20056), in this unit you will complete an evaluation report or review which answers an individual question relevant to the professional practice of psychology.

### Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2022

- Online

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

#### [Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### [Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

### Assessment Overview

#### 1. **Self assessment**

Weighting: Pass/Fail

#### 2. **Research Assignment**

Weighting: 100%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

**All University policies are available on the [CQUniversity Policy site](#).**

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Feedback from students via the 'Have your Say' survey.

##### **Feedback**

Some students indicated that they did not understand why the content related to research, and the requirement for a substantive written research evaluation assessment item, was included in the course.

##### **Recommendation**

Include a discussion of requirements specified by the Australian Psychology Accreditation Council (APAC) in orientation and unit information so that students understand unit/course requirements and the relationship to professional competencies.

#### Feedback from Verbal feedback from students and feedback from Unit Coordinator.

##### **Feedback**

Students reported that they found the weekly discussion session class-style, and the ability to book individual sessions with the Unit Coordinator to be very useful.

##### **Recommendation**

Continue to offer weekly discussion sessions and the ability to book individual sessions with the Unit Coordinator throughout the term.

#### Feedback from Feedback to the Unit Coordinator during term.

##### **Feedback**

Students indicated there was a lot of overlap with the rapid review they completed in Term 1, and there was some confusion as to how the two pieces of work were to be differentiated.

##### **Recommendation**

Move completion of the research evaluation plan into Term 1, with focus in Term 2 to be solely on the conduct and development of the evaluation report/review.

## Unit Learning Outcomes

### **On successful completion of this unit, you will be able to:**

1. Communicate research in a manner that is professional, ethical, and culturally appropriate, and critically considers prior literature relevant to the professional practice of psychology.
2. Conduct a substantive individual research evaluation relevant to the practice of psychology, to a standard that would be suitable for publication.

Learning outcomes are related to core competencies specified by the Psychology Board of Australia (PsyBA), program of study criteria as stated by the Australian Psychology Accreditation Council (APAC), and specifications for study at level 9 as indicated by the Australian Qualifications Framework (AQF).

This unit addresses Professional Competencies as specified by the Australian Psychology Accreditation Council (APAC). This unit specifically aligns to the following APAC competencies:

- 3.2 Apply evidence-based and scientific methods to professional practice across the lifespan in empirically valid and culturally responsive ways.
- 3.3 Employ professional communication skills, in a culturally responsive manner, with a range of socially and culturally diverse clients.
- 3.8 Interpret and communicate findings in oral and written formats, including formal psychological reports, using culturally appropriate language.
- 3.10 Demonstrate respect for the skills and contribution of other professionals.
- 3.15 Evaluate the effectiveness of their professional practice, identifying areas for improvement and implementing changes where needed.
- 3.16 Critically evaluate contemporary scientific literature to inform practice.
- 3.17 Investigate a substantive individual research question relevant to the discipline of psychology.

## Alignment of Learning Outcomes, Assessment and Graduate Attributes

## Assessment Tasks

### 1 Progress Report

#### Assessment Type

Self assessment

#### Task Description

Students will be required to provide a self assessment of their progress on their evaluation reports. This should be used as an opportunity to flag any concerns regarding progress with the Unit Coordinator. The progress report template will be available on Moodle.

#### Assessment Due Date

Week 5 Friday (12 Aug 2022) 5:00 pm AEST

#### Return Date to Students

As this is a self-assessment task, formal feedback will not be provided. The Unit Coordinator will follow up individually with each student as needed.

#### Weighting

Pass/Fail

#### Assessment Criteria

As this is a self-assessment task there are no formal assessment criteria. Students must submit this progress report to ensure appropriate progress is being made.

Completion and Submission of the progress report is compulsory, insufficient completion or non-submission will result in

a Fail grade being awarded.

### Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

### Submission

Online

### Submission Instructions

Please submit through the assessment portal on Moodle.

### Learning Outcomes Assessed

- Communicate research in a manner that is professional, ethical, and culturally appropriate, and critically considers prior literature relevant to the professional practice of psychology.

## 2 Evaluation Report

### Assessment Type

Research Assignment

### Task Description

Building on your Research Plan, you are required to develop, conduct, and write a Research Evaluation on your chosen topic area, utilising existing data sources.

Your Research Evaluation Report should be 5000 - 6000 words in length and should include sections typical of a professional psychology evaluation report (i.e. Introduction, Methods/Approach, Results, Discussion/Recommendations). You may like to follow the Author Guidelines from a reputable journal to assist with your format. If author guidelines are chosen, please ensure this is stated at the beginning of the report, and a copy of the guidelines are provided as an Appendix to the submitted evaluation report.

### Assessment Due Date

Review/Exam Week Friday (14 Oct 2022) 5:00 pm AEST

### Return Date to Students

Grades and feedback provided on Friday October 28

### Weighting

100%

### Assessment Criteria

**Process:** 75 marks

#### Title

Identifies the type of report and key variables.

Title is appropriate and representative of topic area

#### Abstract

Provides a succinct summary of the evaluations including, as applicable: background; objectives; data sources; study eligibility criteria, participants/populations, interventions/areas of professional practice; study appraisal and synthesis methods; results; limitations; conclusions and implications of key findings.

#### Introduction

Provides a clear overview of relevant and appropriate literature and research evidence.

Describes the rationale for the review in the context of what is already known about the topic area.

Provides an explicit statement of questions being addressed with reference to relevant details such as participants/population, intervention/area of professional practice, comparisons, outcomes, study design/approach.

#### Methods

Provides a clear statement of the evaluation methodology including method of data/study selection/collection/extraction and any processes for obtaining and confirming data from investigators/repositories.

All variables and study/report characteristics, including any assumptions and simplifications made are clearly defined and outlined.

Describes all data/information sources (e.g., type of data utilised, databases with dates of coverage, contact with study authors to identify additional studies) in detail.

Appropriate detail is included for replication, including detailed search strategy (if appropriate).

Appropriate ethical considerations are identified and discussed.

#### Results

Results are presented clearly and accurately and include all relevant detail.

The analyses/methods chosen link logically and align directly the research question/s being examined.

### **Discussion**

Begins with a summary of the main findings with review of the questions being evaluated, and provides an appropriate interpretation of the results in the context of other evidence.

Recommendations are logical and appropriate given the findings and context; consider their relevance to key groups (e.g., healthcare providers, users/populations, policy makers), .

Discuss limitations of study and implications for future professional practice and/or research.

### **Writing: 25 marks**

Report is logical and coherent throughout, from describing the topic area, framing the question/s, providing a method of analysis and evaluation, and then interpreting findings and making recommendations.

Adherence to APA or specified journal format

### **Referencing Style**

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

### **Submission**

Online

### **Learning Outcomes Assessed**

- Communicate research in a manner that is professional, ethical, and culturally appropriate, and critically considers prior literature relevant to the professional practice of psychology.
- Conduct a substantive individual research evaluation relevant to the practice of psychology, to a standard that would be suitable for publication.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
