### General Information

#### Overview

The focus of Psychopathology I is on child and adolescent psychopathology. This unit is intended to provide knowledge in research, theory and practice related to child and adolescent psychopathology and examines the major psychopathologies in this population. Diagnosis and classification, various theories for the aetiology of child and adolescent psychopathology are considered, and the implications for diagnosis, consultation, and treatment are addressed. Students will be expected to develop competence in the application of diagnostic classification systems to child and adolescent presentations and will also be encouraged to critically evaluate such systems and be aware of their limitations in the general child and adolescent population. This unit is part of the sequence of units that culminates in the degree of Master in Clinical Psychology. This unit is intended to provide basic knowledge in research, theory and practice related to child and adolescent psychopathology necessary for working as a Clinical Psychologist.

#### Offerings For Term 1 - 2018

- Rockhampton

#### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

#### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student comments

##### Feedback

Some students commented that they would prefer to have the lecturer present on campus (vs teaching via ISL link).

##### Recommendation

Consider having Psychopathology II course taught by a Rockhampton based lecturer i.e. on campus (vs via ISL).

#### Feedback from Student comments

##### Feedback

Students commented that they enjoyed the PBL format

##### Recommendation

Keep PBL format.

#### Feedback from Student comments

##### Feedback

Some students felt that the reflective diary assessment task for Psychopathology I was too similar to the reflective diary assessment task in Clinic Team I

##### Recommendation

Perhaps consider changing the format/content of the reflective diary for Psychopathology I so that it doesn't overlap too much with Clinic Team I (e.g. perhaps consider using the original format I used in previous years asking students to also reflect on core APAC competencies they have met based on their learning in Psychopathology II.

## Unit Learning Outcomes

### On successful completion of this unit, you will be able to:

1. Describe the diagnostic criteria for common child and adolescent psychological disorders and evaluate the advantages and limitations of existing diagnostic systems.
2. Critically examine the essential features of common child and adolescent disorders as well as the existing evidence on the phenomenology, epidemiology, etiology, risk factors and course of these disorders.
3. Identify and critically evaluate psychological theories and models in relation to the onset and maintenance etiology of child and adolescent disorders.
4. Demonstrate relevant communication skills, and reflective professional and ethical practice consistent with a Clinical Psychologist role.

It is essential that, at the end of the Masters of Clinical Psychology Course, graduates meet the requirements for practising as a clinical psychologist as defined by the Australian Psychological Society.

This unit links with APAC and APS standards and guidelines for accreditation of Master's Course in Clinical Psychology units.

## Textbooks and Resources

### Textbooks

**There are no required textbooks.**

#### Additional Textbook Information

For this course, we will be using a Problem Based Learning Approach. There **is 1 required** textbook, the DSM-5, 5th Edition (2013, APA).

Please note that Morrison's (2014) DSM-5 Made Easy is not a compulsory textbook but may assist you in understanding the DSM-5 and child psychopathology. I will use material from this textbook in my lecture notes.

I have also asked the library to order in an E-book copy of all textbooks.

### IT Resources

## 2 Portfolio: including Outreach assignment, Co-facilitation and weekly reflective diary

**Assessment Type**

Portfolio

**Task Description**

1. Outreach Assignment (20%). The focus is on developing some psychological resource or product that is useful to your child or adolescent clients (and/or parents). Marks are awarded for identifying and addressing a clear issue, for providing a good justification of your product using the literature and for providing a useful comprehensive and professional looking product, creativity, and rationale for the product.
2. Co-facilitation (10%). Your role is to monitor the Moodle site along with the course convenor and respond to questions, help in ensuring questions are not too broad and to assess usefulness of questions/topic areas suggested on Moodle. In PBL, your role is to observe, help with the integration of knowledge, ask questions that stimulate discussion and summarise your observations/integration into your reflective journal by the end of the week that you were co-facilitating.
3. The reflective diary (20%) is aimed at getting you to explore your own personal journey in becoming a clinical psychologist and scientist practitioner. In particular one of the aims to help you make the link between your learning about the weekly case study, and your critical analysis of the case study, the class discussion around it and the presentation by the convenor.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

**What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

**Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

**Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

**What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
