Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student focus group

Feedback

Students reported that they liked the practical application of theoretical knowledge, and appreciated the level of support from supervisors.

Recommendation

Continue with practical application, and encourage students to take on new learning opportunities in the on-campus clinic.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Conduct effective evidence based practice interventions across a diverse range of client presentations.
2. Describe client presentations across a number of theoretical paradigms.
3. Integrate advanced assessment practices into clinical assessments.
4. Reflect on the process of ethical decision making and its application in clinical practice.
5. Administer effective clinical services that are responsive to areas of cultural and life span diversity.

2 Written Assessment - Reflective Practice Journal

Assessment Type

Written Assessment

Task Description

The reflective practice journal is not simply a record or critique of 'what happened' each week, but rather the opportunity to explore your own developing identity as a Clinical Psychologist and the relationship between your unit experiences and that changing sense of a professional self. Whilst this is primarily a personal journal, the content should also reflect the professional readings that are shaping your development. Whilst there are no specific rules around word limits, it is expected that you would write 200-250 words per week across the term.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
