General Information

Overview

As a follow-up to the previously completed Clinic Team II unit, this unit is intended to provide advanced, supervised practice skills necessary for working as a Clinical Psychologist. This unit facilitates the further development of professional skills such as the ability to work both autonomously and as a member of a multidisciplinary team. Clinic Team III will provide you with the opportunity to continue to develop your knowledge, skills, and volume of learning with regard to clinical psychological practice. You will be provided with the opportunity to learn in a community based setting, and to plan, develop and share a case conceptualisation.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Feedback during lectures

Feedback

Students requested more practice with case conceptualisations

Recommendation

Recommend that student weekly case study presentations could include discussions of case conceptualisations.

Feedback from Feedback from students during lectures

Feedback

Students requested a formal agenda to each lecture that includes both learning material and discussion of external placement issues.

Recommendation

Recommend implementing a structured approach to the lecture with sections on new learning material, followed by discussions of external placements, and then weekly presentations of case studies.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Communicate effectively and professionally with clients, specialist and non-specialist audiences
2. Apply theoretical knowledge into areas of applied psychological practice through the development and delivery of evidence based interventions
3. Incorporate the process of ethical decision making and its application within psychological practice
4. Demonstrate practical and theoretical skills to plan, justify case formulation and intervention strategies both individually and in group collaborative teams
5. Drawing on evidence based practices, develop case conceptualisations illustrating a body of knowledge that includes theory, diagnoses, and intervention
6. Reflect critically on knowledge, skills, and ability to adapt to a multidisciplinary approach.

Assessment Tasks

1 Reflective journal

Assessment Type

Learning logs / diaries / Journal / log books

Task Description

Reflective journals to be uploaded weekly.

Reflections need to be no more than one page on average and should reflect personal and clinical learning from the lecture and/or from discussions of their clinical placements during the Clinic team III and demonstrate the nexus of

learning between placement activities, clinic team classes and professional reading.

The journal should be utilised to reflect at a non-superficial level, the experiences and conversations during class that have stimulated your thinking and self reflection about your practice and development as psychologist.

Assessment Due Date

Week 12 Thursday (31 May 2018) 5:00 pm AEST

Reflections to be uploaded weekly with final submission in week 12

Return Date to Students

Exam Week Thursday (14 June 2018)

Feedback will be provided weekly from Unit Coordinator to the student. Final grades will be given at the end of the exam period.

Weighting

40%

Assessment Criteria

To pass this assessment, a reflective piece needs to be uploaded every week, not at the end of term. The reflective journal constitutes 40% of the final grade

The reflections need to discuss the experiences and conversations during class and during your placements, that have stimulated your thinking, growth and self reflection about your practice and development as psychologist.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
