PSYC22005 *Clinical Practice 3*

Term 1 - 2027

Profile information current as at 07/09/2026 09:30 pm

All details in this unit profile for PSYC22005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Clinical Practice 3 builds on the prerequisite unit Clinical Practice 2 to provide you with advanced practice skills required for the professional competencies in clinical psychology specified by the Australian Psychology Accreditation Council (APAC) and to prepare you for the Registrar Program to gain an Area of Practice Endorsement in Clinical Psychology with the Psychology Board of Australia. This includes the culturally-sensitive, evidence-based practice of clinical psychology, both autonomously and as a member of a multidisciplinary team. During your clinical practicum in a community-based setting, you will continue to develop your knowledge and skills to formulate and share case conceptualisations and intervention plans.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from In-class feedback.

Feedback

Students indicated that they found the discussion in group supervision extended their understanding of how to apply evidence-based knowledge to practice.

Recommendation

Continue to have discussions about the application of evidence-based knowledge to practice in group supervision.

Feedback from Direct feedback from students and supervisors

Feedback

Students and supervisors found that having a structured guidance document outlining observable behaviours and skills for each competency domain helpful in supporting clearer articulation and assessment of student development at mid- and end-placement reviews.

Recommendation

Continue using the structured guidance document within the placement review process, with ongoing refinement based on student and supervisor feedback and the changes resulting from the Psychology Board of Australia's Professional Competencies for Psychologists.
