## Term 2 - 2018

Profile information current as at 15/05/2024 07:12 am

All details in this unit profile for PSYC22006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

### General Information

#### Overview

This unit is part of the sequence of units that culminates in the degree of Master in Clinical Psychology. As a follow-up to the Clinic Team III unit, this unit is intended to provide advanced, supervised practice skills necessary for working as a Clinical Psychologist.

#### Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

#### Pre-requisites or Co-requisites

Prerequisite: PSYC22005 Clinic Team III

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

#### Offerings For Term 2 - 2018

- Rockhampton

#### Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

#### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student feedback during lectures.

**Feedback**

Students would like feedback on reflective diaries.

**Recommendation**

We will trial submitting reflective diaries online weekly so the feedback can be given throughout the term.

#### Feedback from Students during lectures.

**Feedback**

Students would like more practice on the VIVA exam.

**Recommendation**

Content contained in the VIVA will be reinforced throughout the term.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Utilise professional levels of communication to work effectively within an external psychology agency.
2. Apply high level theoretical knowledge within an applied area of psychological practice to plan and implement effective evidence based interventions.
3. Understand and contribute to the process of ethical decision making and its application within community based psychology practice.
4. Describe, implement and reflect on, professional practice procedures as relevant to community based clinical psychology practice.
5. Develop case conceptualisations utilising appropriate theoretical models.

Module/Topic	Chapter	Events and Submissions/Topic
Viva Exam - Client case vignette and role-play followed by an oral presentation of psychological formulation, assessment, diagnostic considerations, treatment plan, and professional recommendations.	Whilst there are no specific readings for this exam, it is expected that the student has a sound knowledge of the ICD-10/DSM5 diagnostic frameworks; the APS code of ethics; how to write a case formulation that follows a specific model; which psychometric testing is appropriate; how to write a treatment plan that is evidence-based; and how to conduct a risk assessment.	This is an oral exam. Two assessors will be assigned to students by the head of the master's program. Oral only feedback will be provided to students immediately after the viva presentation. It is a pass or fail grade, with one opportunity to complete a re-sit if required at the discretion of the assessors.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### **What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### **Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### **Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### **What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
