# PSYC22006 Clinic Team IV

## Term 2 - 2022

Profile information current as at 18/05/2022 06:51 am

All details in this unit profile for PSYC22006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Clinic Team IV builds on Clinic Team III (PSYC22005) to provide you with advanced practice skills required for the professional competencies in clinical psychology specified by the Australian Psychology Accreditation Council (APAC) and to prepare you for the Registrar Program to gain an Area of Practice Endorsement in Clinical Psychology with the Psychology Board of Australia. This includes the culturally-sensitive, evidence-based practice of clinical psychology, both autonomously and as a member of a multidisciplinary team. During your clinical practicum in a community-based setting, you will continue to develop your knowledge and skills to formulate and share case conceptualisations and intervention plans.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student feedback

**Feedback**

Students felt less engaged in the unit due to all classes and the Residential School being held online.

**Recommendation**

In 2022, classes will return to being on campus where this is feasible and class learning activities will be revised to be more engaging where classes are held online.

#### Feedback from Student feedback

**Feedback**

Students thought some of the lecture topics could be condensed to allow more time for discussion.

**Recommendation**

The list of lecture topics and learning activities for this unit will be reviewed and updated where possible to increase student engagement and discussion time.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Perform clinical psychology assessment, diagnosis, intervention, and associated activities in a community-based clinical setting
2. Apply ethical decision making in clinical psychological practice
3. Communicate effectively and professionally with clients, specialist and nonspecialist audiences
4. Critically reflect on knowledge, skills, and ability to independently provide professional clinical psychology services in a community-based setting.

The Learning Outcomes link with the Master of Clinical Psychology course Learning Outcomes: 1 ( Apply culturally-sensitive advanced knowledge of psychological theories of the aetiology, presentation, and progression of psychological disorders across the lifespan and relevant international taxonomies of classification of psychological disorders), 2 (Apply advanced knowledge of psychological developmental and biopsychosocial models of health), 3 (Conduct culturally responsive assessment of psychological disorders), and 4 (Implement culturally-responsive, evidence-based, clinical psychology interventions). The Learning Outcomes are designed to meet the Australian Psychology Accreditation Council (APAC) standards for Clinical Psychology courses, in particular, Clinical Psychology guidelines 4.2.1, 4.2.2, and 4.2.3.
