General Information

Overview

This unit provides you with the opportunity to consolidate and apply all of the knowledge, skills and attitudes developed during your learning journey in the course, particularly with regard to human factors, occupational health and hygiene, safety science, and risk management. The unit also develops theoretical and methodological knowledge to allow you to evaluate the evidence that will inform your professional practice. There is a specific emphasis on developing higher order skills and understanding which are representative of the holistic application of core skills that occurs when a professional understands the interaction between disciplinary domains in solving complex problems.
