

SAFE20023 Safety Science Thesis 2

Term 2 - 2019

Profile information current as at 17/05/2024 12:43 pm

All details in this unit profile for SAFE20023 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit is the second of two in the Safety Science Thesis suite of units. During this unit you will learn about the process of conducting safety science research by executing your research plan (post ethics approval) from Thesis 1, that is, data collection and analysis, writing and presenting your research findings to a wider audience. You will also be able to engage with your peer researchers as they progress through their research journey.

Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: *12*

Student Contribution Band: *8*

Fraction of Full-Time Student Load: *0.25*

Pre-requisites or Co-requisites

Prerequisite: SAFE20022

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2019

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 12-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Written Assessment**

Weighting: Pass/Fail

2. **Presentation and Written Assessment**

Weighting: Pass/Fail

Assessment Grading

This is a pass/fail (non-graded) unit. To pass the unit, you must pass all of the individual assessment tasks shown in the table above.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Staff observation

Feedback

The use of a supervision contract between the student and the supervision team may help to clarify expectations on both sides with regard to workload and time allocated for the research project.

Recommendation

Recommend supervision contracts to students and supervision teams in this unit in future offerings, and consider options for incorporating a supervision contract into an assessment item.

Feedback from Staff observation and student feedback

Feedback

Research projects and ethics requirements in particular can represent a new paradigm for many students, who may benefit from additional guidance earlier in the term and/or in the preceding unit (SAFE20022).

Recommendation

Project milestones, especially the submission of ethics applications, should be emphasised earlier on in the preceding unit (SAFE20022), to ensure that students have ethical clearance and are ready to commence their research projects in SAFE20023 as soon as the term begins.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Undertake and write an extensive literature review on a topic of safety science.
2. Conduct research (supported by ethics committee approval) that uses appropriate research methods and data analysis techniques to address research questions.
3. Discuss the implications of the research project for theory and practice in safety science.
4. Demonstrate an in-depth knowledge of a topic in safety science.

This is the second unit of two research thesis units and is designed to complete the foundational work that students carried out in Thesis 1. The two Thesis units are designed to introduce students to the process of conducting research, enabling them to carry out an independent research study. In Thesis 2 the students will continue to work with their allocated supervisor who will support them in the conduct of their research, the undertaking of an extensive literature review and assist in the preparation of a final piece of work which can deliver the student's research findings to a wider audience. Students will also be able to continue to discuss the unit content and their research progress with their fellow peer researchers through Moodle site discussion groups.

Schedule

Week 1 - 15 Jul 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss any ethics clarifications and project plan execution

Week 2 - 22 Jul 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss any ethics clarifications and project plan execution

Week 3 - 29 Jul 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress

Week 4 - 05 Aug 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress

Week 5 - 12 Aug 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Unit Milestone: Meeting with supervision team to discuss project progress and literature review

Vacation Week - 19 Aug 2019

Module/Topic	Chapter	Events and Submissions/Topic
Vacation Week		

Week 6 - 26 Aug 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and literature review

Week 7 - 02 Sep 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and literature review

Week 8 - 09 Sep 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and literature review
		Comprehensive Literature Review Due: Week 8 Friday (13 Sept 2019) 11:59 pm AEST

Week 9 - 16 Sep 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress

Week 10 - 23 Sep 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and final paper

Week 11 - 30 Sep 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and final paper

Week 12 - 07 Oct 2019

Module/Topic	Chapter	Events and Submissions/Topic
		Unit Milestone: Meeting with supervision team to discuss project progress and final paper
		Final Research Paper Due: Week 12 Friday (11 October 2019) 11:59 pm AEST

Review/Exam Week - 14 Oct 2019

Module/Topic	Chapter	Events and Submissions/Topic

Unit Milestone: Presentation of research outcomes to *Future Paradigms in Transport, Emergency and Safety Sciences Conference* on 15th-17th October 2019 in Rockhampton QLD.

Exam Week - 21 Oct 2019

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Term Specific Information

Future Paradigms in Transport, Emergency and Safety Sciences Conference will be held on 15th-17th October 2019 in Rockhampton QLD.

Assessment Tasks

1 Comprehensive Literature Review

Assessment Type

Written Assessment

Task Description

In Thesis 1, you explored the literature in your relevant industry/discipline in order to justify your research project. Now you will interrogate the literature to expand and update your knowledge further, in preparation for your final research paper. This requires you to critically analyse and apply the key themes throughout the literature body to your topic. This is important for understanding how your final research paper will be situated within the body of knowledge. As a guide, submissions of approximately 4000 words are more likely to be successful.

Assessment Due Date

Week 8 Friday (13 Sept 2019) 11:59 pm AEST

Return Date to Students

Feedback will be provided in Moodle and during scheduled meetings with the supervision team and unit coordinator

Weighting

Pass/Fail

Assessment Criteria

Your literature review will be assessed on the following criteria:

- Review explores a significant portion of the available body of literature with regard to the chosen topic
- Critical analysis is substantive and literature is not simply introduced and described
- Review follows a narrative which situates the research project within the relevant milieu
- Key themes are applied constructively to the research project
- Submission is formatted appropriately for a literature review
- Submission demonstrates Masters-level academic writing skills
- All sources are referenced properly in line with the current version of Harvard referencing style.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Upload your submission for this assignment as a Word document or PDF to the appropriate assessment page on Moodle.

Learning Outcomes Assessed

- Undertake and write an extensive literature review on a topic of safety science.
- Demonstrate an in-depth knowledge of a topic in safety science.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility
- Leadership

2 Research Outcomes

Assessment Type

Presentation and Written Assessment

Task Description

Part A - Research Paper

After you have obtained Ethics Approval, you will execute your research plan from Thesis 1. You will then write up the final results and outcomes of your project in the form of a research paper for potential publication in a peer-reviewed journal.

Your final paper will be reviewed by the Unit Coordinator, your supervision team and an additional reviewer. They will determine whether your submission is of a pass standard, and will provide additional feedback to assist in preparing your paper for publication.

The word count should be appropriate for a journal article submission in your area of interest. You should discuss target journal options with your supervision team, as it will be useful for you to familiarise yourself with those journals' submission requirements.

Part B - Conference Presentation

You will create and deliver a presentation on your research project, detailing your journey from original concept to project execution, and explain your results in context. You will present in person or via Zoom to an audience of staff and students at the annual *Future Paradigms in Transport, Emergency and Safety Sciences Conference* on 15th-17th October 2019 in Rockhampton, QLD.

Presentations should be aided by a visual component (typically Powerpoint slides) and should be approximately 20 minutes in length. Upload your slides to Moodle when you have completed your presentation.

Please note, as part of the assessment process, CQU may record your presentation.

Assessment Due Date

The final research paper is due in Week 12. The presentation will be delivered to the Future Paradigms in Transport, Emergency and Safety Sciences Conference on 15th-17th October 2019.

Return Date to Students

Feedback will be provided to students two academic weeks following the due date.

Weighting

Pass/Fail

Assessment Criteria

Part A - Research Paper

Your paper will be assessed on the following criteria:

- Introduction to the topic is given which highlights crucial findings from the literature but which does not simply comprise sections of text copied from previous assessments
- Clear statement of research aims and objectives, and whether they were met
- Each step of the executed research process is clearly explained, including methods and materials
- Results are presented in a suitable format (tables, graphs, etc)
- Results are thoroughly discussed with reference to existing studies, theories and/or practices in the relevant discipline
- Implications of the project and/or emergent recommendations are identified and discussed
- Any relevant survey measures, data collection tools or questionnaires are included as an appendix
- Submission is formatted appropriately for a research paper
- Submission demonstrates Masters-level academic writing skills
- All sources are referenced properly in line with the current version of Harvard referencing style or the style mandated by the target journal.

Part B - Conference Presentation

Your presentation will be assessed on the following criteria:

- Background/context of the topic given to promote audience understanding, including the gap identified in the extant literature
- Research aims and objectives clearly identified
- Method briefly discussed, including brief justification for its selection
- Key results explained concisely and discussed in context of the relevant discipline
- Implications of the project and/or emergent recommendations are highlighted
- A summative statement is provided for whether aims and objectives of the project were met
- Presentation is well-structured and uses appropriately formatted visual aids
- Appropriate use of supporting sources that are consistent with the current version of Harvard referencing style or the style utilised in your written paper

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Oral and PowerPoint presentation to be delivered via Zoom. Research Paper and presentation slides to be uploaded to Moodle.

Learning Outcomes Assessed

- Conduct research (supported by ethics committee approval) that uses appropriate research methods and data analysis techniques to address research questions.
- Discuss the implications of the research project for theory and practice in safety science.
- Demonstrate an in-depth knowledge of a topic in safety science.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility
- Leadership

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
