

SAFE28002 Psychosocial Hazard Management

Term 1 - 2024

Profile information current as at 02/05/2024 09:32 pm

All details in this unit profile for SAFE28002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit covers topics related to occupational health and wellbeing in organisations, emphasising the principles of good work design and the integration of occupational health and safety, health promotion, wellness, work design and productivity. Topics include common occupational health hazards such as manual tasks and sedentary work behaviours, as well as psychosocial hazards such as workplace bullying, occupational violence, shift work and fatigue, which lead to occupational stress.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2024

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Group Discussion**

Weighting: 20%

2. **Case Study**

Weighting: 30%

3. **Written Assessment**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Evaluate the inter-relationships between the workplace, work systems, work environment and people and their impact on the health and wellbeing of individuals
2. Apply knowledge of occupational health and wellbeing and psychosocial hazards to the analysis of the design of work and work systems and effectively interpret and communicate findings to organisational stakeholders
3. Assess the risk of injury and/or illness from work-related psychosocial hazards and examine factors that impede workplace performance and sustainability
4. Evaluate and recommend appropriate changes in work design to optimise occupational health and wellbeing, improve organisational performance and sustainability, and demonstrate respect for human dignity and diversity through an understanding of the impact of health and psychosocial factors at the workplace.

Term Specific Information

There is no required textbook for this unit. All prescribed readings will be provided via the Moodle site. Students are required to conduct assessments within a deidentified workplace. If you are not currently working within an organisation please contact the unit coordinator for an alternative assessment arrangement.

Assessment Tasks

1 Psychosocial Hazard Identification

Assessment Type

Group Discussion

Task Description

This task will be completed in the Moodle site in the Assessment 1 Discussion Forum section and does not require you to upload anything for marking. Marking will be completed from your discussion in the Moodle site.

You are required to undertake the following: -

(a) In reference to the Safe Work Australia Report on Work-Related Mental Health Disorders Profile (provided via the Moodle site), you are to present a hypothesis (a supposition made on the basis of limited evidence as a starting point for further investigation) about at least three (3) psychosocial hazards which you think may be present at your workplace. You do not need to identify your workplace.

(b) Discuss how these hazards and their associated risks to workers may manifest and what impact this may have on workplace health, safety and wellbeing.

Assessment Due Date

Week 5 Friday (5 Apr 2024) 11:45 pm AEST

Return Date to Students

Week 7 Friday (26 Apr 2024)

Weighting

20%

Assessment Criteria

The following marking criteria will be used, and a marking matrix will be provided in the Moodle site: -

(a) In reference to the Safe Work Australia Report on Work-Related Mental Health Disorders Profile (provided via the Moodle site), you are to hypothesise and discuss at least three (3) psychosocial hazards which you think may be present at your workplace (6%),

(b) Discuss how these hazards and their associated risks to workers may manifest and what impact this may have on workplace health, safety and wellbeing (14%).

Referencing Style

- [Harvard \(author-date\)](#)
- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Learning Outcomes Assessed

- Evaluate the inter-relationships between the workplace, work systems, work environment and people and their

impact on the health and wellbeing of individuals

- Apply knowledge of occupational health and wellbeing and psychosocial hazards to the analysis of the design of work and work systems and effectively interpret and communicate findings to organisational stakeholders

2 Psychosocial Risk Assessment

Assessment Type

Case Study

Task Description

This assessment builds on your assessment 1 and will see you assessing psychosocial risks within a workplace. You are therefore going to use your [deidentified] workplace for the following case study: -

Step 1. Apply the Safe Work Australia Psychosocial Risk Assessment Tool within your workplace,

Step 2. Outline and discuss any psychosocial hazards and associated risks you identified through the use of the tool which may impede workplace health, safety and wellbeing.

Step 3. Review and discuss what existing policies and procedures and/or other systems your workplace currently has in place to prevent and/or manage psychosocial hazards, noting any gaps you perceive in the organisational wide prevention or management systems for psychosocial hazards.

Word limit - no more than 1500 words.

Assessment Due Date

Week 8 Friday (3 May 2024) 11:45 pm AEST

Return Date to Students

Week 10 Friday (17 May 2024)

Weighting

30%

Assessment Criteria

The following assessment criteria will be used, and a detailed marking matrix will be provided in the Moodle site.

- (a) Application of the Safe Work Australia Psychosocial Risk Assessment Tool to your workplace (6%);
- (b) Outline and discuss of any psychosocial hazards and associated risks you identified through the use of the tool which may impede workplace health, safety and wellbeing (12%)
- (c) Review and discussion what existing policies and procedures and/or other systems the workplace currently has in place to prevent and/or manage psychosocial hazards, noting any gaps you perceive in the organisational wide prevention or management systems for psychosocial hazards (12%).

Referencing Style

Online

Learning Outcomes Assessed

- Evaluate the inter-relationships between the workplace, work systems, work environment and people and their impact on the health and wellbeing of individuals
- Apply knowledge of occupational health and wellbeing and psychosocial hazards to the analysis of the design of work and work systems and effectively interpret and communicate findings to organisational stakeholders
- Assess the risk of injury and/or illness from work-related psychosocial hazards and examine factors that impede workplace performance and sustainability
- Evaluate and recommend appropriate changes in work design to optimise occupational health and wellbeing, improve organisational performance and sustainability, and demonstrate respect for human dignity and diversity through an understanding of the impact of health and psychosocial factors at the workplace.

3 Psychosocial Hazard Management Presentation

Assessment Type

Written Assessment

Task Description

Your Assessment 3 task is to submit a recorded PowerPoint presentation and an associated written slide deck which covers the following criteria: -

- (a) Present your evidence informed findings from the application of the Safe Work Australia Psychosocial Risk Assessment Tool that you did in assessment 2. Evaluate and outline any psychosocial hazards and associated risks you identified which may impede workplace health, safety and wellness in your workplace.
- (b) Present your recommendations for the implementation of further workplace changes and any further management strategies based on your findings which are aimed at reducing the psychosocial hazards and enhancing the management of these risks in your workplace.

In your presentation you should include a discussion on the value of good work design and consider actions across the spectrum of prevention, early intervention, and the management of psychological injuries. Your argument for change needs to be persuasive and evidence informed.

Submission - A 10-15-minute recorded presentation (Zoom or other platform) and associated PowerPoint slide deck (up to 20 slides).

As a class cohort there may be an opportunity to share your final presentation with your fellow students, this option will be discussed with the class during the term.

Assessment Due Date

Week 12 Friday (31 May 2024) 11:45 pm AEST

Return Date to Students

Review/Exam Week Friday (7 June 2024)

Weighting

50%

Assessment Criteria

The following assessment criteria will be used, and a detailed marking matrix will be provided in the Moodle site.

- (a) Present your evidence informed findings from your application of the Safe Work Australia Psychosocial Risk Assessment Tool in assessment 2, for your workplace. Evaluate and outline any psychosocial hazards and associated risks you identified which may impede workplace health, safety and wellness (15%),
- (b) Then present recommendations for the implementation of further workplace changes and any further management strategies based on your findings which are aimed at reducing the psychosocial hazards and associated risks in your workplace. Your recommendations should include a discussion on the value of good work design and consider actions across the spectrum of prevention, early intervention, and the management of psychological injuries. Your argument for change needs to be persuasive and evidence informed (35%).

Learning Outcomes Assessed

- Assess the risk of injury and/or illness from work-related psychosocial hazards and examine factors that impede workplace performance and sustainability
- Evaluate and recommend appropriate changes in work design to optimise occupational health and wellbeing, improve organisational performance and sustainability, and demonstrate respect for human dignity and diversity through an understanding of the impact of health and psychosocial factors at the workplace.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
