SCIE13011 *Marine Science*

Term 2 - 2027

Profile information current as at 07/09/2026 09:28 pm

All details in this unit profile for SCIE13011 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Australia's marine and coastal environments represent some of the most pristine and biodiverse conditions in the world, spanning warm tropical conditions in the north through to cold sub-Antarctic waters in the south. A high degree of endemism among the local marine flora and fauna helps to identify Australia's unique evolutionary history and build our international reputation as a marine diversity hot spot, but it also presents challenges to the sustainable use and enjoyment of marine and coastal environments. In this unit, you will dive deep into the biology and ecology of key marine ecosystems and their inhabitants around Australia, including coral reefs, seagrass meadows, kelp forests, mangrove forests, sand flats, and open oceans. This knowledge will be contextualized by understanding how oceanographic and climate conditions shape marine environments and the resources available. Throughout the unit, you will engage with cutting-edge research through a series of guest lectures and first-hand experience during a residential school.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Completion of 72 credit points.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2027

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important](#)

that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.
This information will be available on Monday 17 May 2027
