

SKIL40016 *Positive Learning for University*

Term 2 - 2019

Profile information current as at 26/04/2024 06:45 pm

All details in this unit profile for SKIL40016 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Positive Learning for University introduces you to a variety of concepts through the framework of Positive Psychology. Techniques will be taught to: enhance clarity and identify personal meaning and values; increase optimism through changes in thinking; consider how gratitude and mindfulness improve personal well-being; identify personal strengths; provide opportunities to develop positive relationships; improve communication skills; and integrate healthy living to ensure a healthy environment for study. Through a mixture of theory, practical activities and reflection, you will demonstrate how personal attitudes and ways of thinking affect your learning, and you will consider solutions to the challenges that may be encountered in higher education. Additionally, in order to navigate an online world, you will be introduced to a number of technology platforms that will further support your learning and assist you to demonstrate understanding of concepts using technology.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Assessment Tasks

1 Quiz - Introduction to Positive Psychology

Assessment Type

Online Quiz(zes)

Task Description

After reading Module 1 and the additional reading "The new science of happiness" (both accessible through Moodle), you will be required to complete a quiz to demonstrate your understanding of the principles behind Positive Psychology and what research has found to support this theory.

This quiz is an open book test which means you may have these resources on hand to assist you when responding to the questions. The quiz is located on Moodle in the 'Assessment' block on the left-hand side. You will be given 2 hours to complete this quiz and you only have one attempt to complete the 20 questions.

Do not attempt this quiz until you have:

- 1) Completed reading both Module 1 and the additional reading "The new science of happiness"
- 2) Ensured you have a steady internet connection
- 3) Allowed the full two hours to complete the quiz (if required)

4 Final Assessment Task

Assessment Type

Practical and Written Assessment

Task Description

In order to demonstrate your understanding of the theory of Positive Psychology, you have 3 options to choose from for the final assessment task. These three options have specific criteria that align to each one. Please read through the descriptions below and then go to the Assessment Overview Tab on Moodle for more explicit details.

Educational Campaign: As you reflect on the past term, you will notice that there have been many theories and strategies presented to you in order to assist you in becoming a more positive student and person. Your task is to choose a concept that has been covered this term and develop an **Educational Campaign** to further expand on this subject.

Motivational Video: This task requires you to create an inspirational video that aligns to one of the modules. Within this **inspirational/motivational video**, each of the key elements within that Module needs to be presented in a positive and encouraging manner using technology to present the key message.

Random Acts of Kindness: This summative task consists of an applied element alongside a reflection of current research. **Random Acts of Kindness** is an approach taught within the realm of positive psychology and is instrumental in creating well-being and a sense of satisfaction for those doing the act of kindness. This task requires you to dedicate some time to completing some **Random Acts of Kindness** and then reflect upon this experience. In addition, you will read some current research findings on the benefits of altruism.

Full details on each of these are available on Moodle. Once you have chosen the task, please email the Unit Coordinator with your decision.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
