SOCL19065 *Rural Communities and Health* Term 2 - 2022

Profile information current as at 07/05/2024 05:40 am

All details in this unit profile for SOCL19065 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will prepare you for rural practice by providing an overview of rural Australia and its socio-cultural environment. Guided by a sociological perspective, you will gain an understanding of contemporary rural Australia and rural communities, and the social structures and cultural factors that influence them. The social determinants of health for rural populations will be examined and compared with those of metropolitan areas. The health inequalities and rural 'disadvantage' will be critically examined and you will investigate the challenges in accessing health care and health professionals, social determinants, risk behaviours and occupational factors. You will learn about the meaning of 'rurality' and the implications of 'rurality' for the health of different social groups. You will be prepared for rural practice through developing an understanding of your role as professionals, and of rural health issues, including the health status of Aboriginal and Torres Strait Islander people. While the focus of this unit is rural Australia, it would be of particular interest to those planning to live and work in rural and remote Australia; including social workers, human services practitioners, community development officers, nurses, paramedics and teachers.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Email & Unit Evaluation

Feedback

Some students enjoyed the unit and felt they had gained a lot of knowledge of rural healthcare and communities to utilise in their future practice.

Recommendation

Continue to support students with relevant readings and assessments that build their professional capacity and performance.

Feedback from Email and Other

Feedback

Some students wanted more individualised responses to their questions.

Recommendation

Provide a learning and supportive environment to students by responding to students individually and supporting their emotional state.

Feedback from Unit Evaluation

Feedback

Some students sought resources & lecture content for the twelve weeks early in the term to undertake an independent self-paced study plan.

Recommendation

Continue to support students' learning through tutorials, online discussion forums, and one-on-one discussions. All lecture notes will be made available at the start of the term for students wishing to work ahead of the weekly schedule.

Feedback from Unit Evaluation

Feedback

Some students found the late addition of another unit's practical session to interfere with the timetabled tutorial time.

Recommendation

Ensure tutorial times for the unit are known by other discipline unit coordinators to prevent timetable clashes.

Feedback from Unit Evaluation

Feedback

Some students found the navigation of Moodle to find content not to be optimal.

Recommendation

Input from Learning & Teaching design support will be used to change the Moodle tile layout and make content more visible and not grouped into folders.

Feedback from Other, in class

Feedback

Some students experienced difficulty with written assessments such as essays and portfolio - prefer quizzes and short answer questions.

Recommendation

Provide students with greater academic learning support through the Academic Learning Centre on grammar, academic writing, referencing, and academic integrity skills.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Use a sociological perspective to explain health and social issues in rural and remote Australia
2. Explore the social determinants of health and how they may impact rural communities in rural and remote areas
3. Distinguish the health and social issues and challenges experienced by Aboriginal and Torres Strait Islander people and other social groups (e.g. new migrants, people living with disabilities) living in rural and remote communities
4. Explain the unique role of the health or social work professional working and living in rural and remote Australia.
