General Information

Overview

This unit provides students with an introduction to case management, how case work integrates within the framework of case management, and the structured steps in the case management process across a range of practice fields. The history, the policy and political framework and the implementation of case management across a range of practice fields will be critiqued. Students will explore the lived experience of service users and the co-design of care plans using the case management process. It is an individualised service delivery model in which students will develop knowledge and skills in undertaking holistic social assessment, developing care plans, coordinating services for service users, monitoring and evaluating care plans, and transitioning service users to independent and interdependent living.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation

Feedback

I found it a very engaging unit - directly linked to what we will be doing in practice

Recommendation

Continue to maintain focus on direct practice in this unit.

Feedback from Student evaluation

Feedback

I would have like to see additional suggested reading material or video links related to case management phases from weeks 6 - to 12.

Recommendation

The prescribed resources for the second part of the term followed those from previous years. Additional specialist resources will supplement the existing materials.

Feedback from Student evaluation

Feedback

Divide into weekly sections rather than modules. It was confusing and difficult to find information.

Recommendation

The structure of the unit and the Moodle site followed the one established in the previous years. The e-reading list was organised around unit topics rather than what to read at a particular point during the term. Consideration will be given how the unit can be further structured to further support student learning.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Conceptually map the major features, principles, structures, processes and roles of case management practice and systems relevant to diverse contexts
2. Critically analyse the functions of case management in service delivery and its relevance for social work and human services policy and practice
3. Demonstrate case management processes and skills in assessment, developing care plans and coordinating multiple service organisations for complex and high need service users
4. Apply appropriate cross cultural awareness skills and knowledge to case work and case management contexts with indigenous peoples
5. Generate an evidence-informed intervention plan for complex and high need service users.

This unit addresses the AASW Practice Standards Objectives 3, 4, 5, 6 & 7.

Assessment Tasks

1 Does every service user need a case manager?

Assessment Type

Written Assessment

Task Description

Due date: Time 11:59 PM (AEST) Date Friday March 24, 2023

Weighting: 20%

Length: 750 words +/- 10% (excluding references)

Unit Coordinator: Dr Agnieszka Sobolewska

Aim

The aim of this assessment is to allow you to explore the role and functions of a case manager in a social work field of practice that you are interested in.

Instructions

You are writing an essay on the topic: Does every service user need a case manager? If not, why not? And if so, why? Please follow the steps below to complete your assessment task:

1. Choose a field of social work practice that you are interested in (e.g. mental health; disabilities; family and domestic violence; children and families) and identify a support service that provides case management.
2. Examine who are the service users that access case management support and what are their needs. Consider the potential eligibility criteria or who is accepted into the service.
3. Critically analyse the scope of case management practice when working with service users. Consider possible limitations and challenges in supporting the service users, and if or how they can be addressed.

Literature and references

In this assessment use at least six contemporary references to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

Requirements

- Use a conventional and legible size 12 font, such as Times New Roman, with 2.0 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on the top right side of each page in a header.
- Use formal academic language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
- The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

Resources

- You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline specific [library guide](#): the [Nursing and Midwifery Guide](#); [Social Work and Community Services Guide](#).
- We recommend you use EndNote to manage your citations and reference list. More information on how to use EndNote is available at the [CQUniversity Library website](#).
- For information on academic communication please go to the [Academic Learning Centre Moodle site](#). The [Academic Communication section](#) has many helpful resources including information for students with English as a second language.
- Submit a draft before the due date to review your Turnitin Similarity Score before making a final submission. [Instructions are available here](#).

Submission

Submit your assessment via the unit Moodle site in Microsoft Word format only.

Marking Criteria

Refer to the marking rubric on the Moodle site for more detail on how marks will be assigned.

Weighting: 40%

Length: 1500 words +/- 10% (excluding references)

Unit Coordinator: Dr Agnieszka Sobolewska

Aim

In this assessment, you will: a) formulate an initial assessment report; and b) reflect on the process of building the relationship and engaging with the service user. The aim is for you to demonstrate your preparation and knowledge of the initial stages of case management.

Instructions

The case study which is selected on Moodle prior to the residential school provides a description of the service user's circumstances and social environment. During the residential school, you will be undertaking an initial assessment to provide an understanding of the needs, resources and relationships that will assist in working with the service user.

In this assessment, you will be writing up a report synthesising the information that you have gathered from engaging the service user and other stakeholders (e.g. family members, other services) in the assessment process. You are required to apply an appropriate assessment framework in the write up.

You will also reflect on the processes of building the relationship with the service user, (possibly) managing any tensions

in the relations exploring the service user's world, risk, and ethical and legal considerations. You will explain your choice of the assessment framework. You will also explain and justify the key skills required in the initial phase of case management. You will include cross-cultural considerations when working with service users who identify as Aboriginal and Torres Strait Islander peoples. In responding to part b of the assessment, you are required to draw on contemporary social work literature.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
