### General Information

#### Overview

Organisations are encountered on a daily basis and impact on the lives of the people and communities human service workers work with. There are a range of variations and types of human service organisations located within the social, political and cultural context that provide a vehicle for the implementation of policy and provision of human services by the welfare state. With social work practice predominantly taking place in and shaped by organisational context, developing an effective organisational practice is critical to the achievement of the aims and values of the social work profession. In this unit you will develop knowledge of different organisational theoretical models to facilitate your ability to analyse and creatively consider organisational and system change and development, and apply strategies to promote social and welfare work values of social justice and realise the equality of opportunity in the provision of services to clients.

## Assessment Tasks

### 1 Organisational theory and practice

#### Assessment Type

Written Assessment

#### Task Description

This assessment is designed to develop students' theoretical understanding of organisational practice and highlight the knowledge and skills required for organisational practice in human services.

#### Product

According to Jones and May (1992) 'social and welfare work as practised in Australia is an organisational as well as a professional activity'. They argue that organisations are central in determining and influencing almost every aspect of professional practice.

In essay format with reference to the first two chapters of Jones and May (1992) and course readings students are required to compare and contrast two of the theoretical perspectives presented regarding organisational analysis and explore this statement with reference to social work practice. Your paper needs to include;

- A description of how organisational contexts influence social work practice. This description should consider the influence of social, political, policy and cultural contexts on human services.
- A description of each theoretical perspective.
- The similarities and differences between the two perspectives.
- The relevancy and appropriateness of each perspective to human service practice and social work values and ethics.
- The appropriateness of each perspective to human services working with Aboriginal and Torres Strait Islander peoples and people from culturally and linguistically diverse backgrounds.
- The limitations and usefulness of each perspective and any considerations or strategies social workers might then employ as a result of these.

While the Jones and May (1992) chapters are central to this paper, you are required to demonstrate broader reading and research on this topic. Appropriate referencing (Harvard) is required.

#### Word Limit

2000 words (excluding references and appendices). You must remain within 10% of the word limit (maximum 1% of the mark will be deducted for every 100 words over or below).

#### Assessment Due Date

Week 7 Friday (27 Apr 2018) 11:45 pm AEST

Upload to moodle

#### Return Date to Students

Week 9 Monday (7 May 2018)

Return via moodle two business weeks post submission

#### Weighting

40%

#### Assessment Criteria

- Applies knowledge of organisational contexts and its influence on social work practice in discussion.
- Applies knowledge of organisational concepts and theories in discussion. Compares and contrasts two organisational theories and describes the relevancy and appropriateness of these to human service practice, social work values and ethics, and working with Aboriginal and Torres Strait Islander peoples and people from culturally and linguistically diverse backgrounds.
- Explains and compares the limitations and usefulness of each theory and the strategies and or considerations social workers would need to employ as a result of these.
- Well written and structured essay within the word limit with correct grammar, spelling (Macquarie), punctuation and referencing (Harvard) is evident.

## 2 Organisational Presentation

### Assessment Type

Presentation

### Task Description

This assessment is designed to develop students' knowledge of human service organisations' processes and structures.

### Role of Student

You are a social work student researching and analysing a human service organisation in your community that employs social workers. Drawing on your developing understanding of organisational theory and practice this term, present a 7-9 minute presentation on a human service organisation of your choice based on your personal/professional areas of interest from the list below.

- Aboriginal & Torres Strait Islander support
- Migrant & Refugee support
- Domestic Violence
- Disability
- Child & Family support
- Community Development
- Mental Health

It must be a non-government organisation; however funding could be provided by government or non-government sources. Your presentation needs to provide an overview of the organisation and its key aspects drawing on topics and readings studied this term in organisational practice for human services, together with your own research and reading of the chosen organisation. This might include researching and analysing the organisation's website and publications, followed by a short structured interview with a social worker in the organisation. **Please note:** An interview with a social worker is only a suggestion and not an assessment requirement, acknowledging student and organisational contexts that might make this impracticable. Prior to directly contacting an organisation students are required to carefully read the *Student Preparation for Organisational Contact* document located on the course Moodle site.

### Product - Presentation in Zoom

Your organisational presentation should include:

- A background of the organisation, the organisation's philosophy, mission statements, values, goals, structure, environment, technology, culture, and theory informing the organisation. Your presentation will form the background and introduction of your Assessment 3 - Organisational Analysis.
- The role of social workers in the organisation and how it aligns with professional values and ethics.
- As a conclusion include a brief reflection of your research to date and the aspects of the organisation and or role of social workers that were surprising and or a particular interest to you.
- An engaging and professional PowerPoint as visual aide to the presentation. You are required to submit your PowerPoint presentation to Moodle the day before your presentation.

## Presentation

- Presentations will take place in week 9. Students are required to register for a presentation session time on Moodle. Session dates and times will be made available on Moodle in week 3. There will be a maximum number of presentations allocated to each session time. Students are expected to remain for the duration of all student presentations in the session time. Presentations will be recorded for marking purposes only.
- Students are able to work in pairs or groups of three for this assessment task and prepare a joint presentation and PowerPoint submission. In choosing this option students are responsible for organising and coordinating the student partnership and notifying the course coordinator by email. Students are advised to carefully read suggestions for working in groups located on Moodle. **Please note:** Assessment 3 is an individual student submission.
- Presentations will be 7-9 minutes in duration. All presentations must remain within this time range or penalties will apply (maximum 1% of the mark will be deducted for every minute below or over the time range).
- Students are required to submit their PowerPoint presentation on Moodle by 5 pm AEST the day before their presentation.
- Further instructions on this assessment task including presenting in Zoom will be provided by the course coordinator on Moodle and in an Assessment 2 Q & A Zoom session.

## Assessment Due Date

Week 9 Monday (7 May 2018) 11:45 pm AEST

Presentations will take place in week 9. Students register their presentation session time on Moodle. Students will upload their PowerPoint presentation on Moodle by 5 pm AEST the day before their presentation in Zoom.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
