Task Description

Suraya, who is 19 years old, lives with her Pakistani family. The parents came to Australia as refugees by boat. The father, Abdul 45, is currently working as a taxi driver. He has a degree in engineering from Pakistan but is unable to get a job in engineering in Australia and was unemployed for a number of years. He is unhappy with his situation. The mother, Amina 39, doesn't work outside the home. She doesn't speak English. She misses her extended family. They have three other children, Tariq 14, Meena 11, and Shoba 9. Suraya and her siblings were born in Australia. The family spends most of their free time together at home with the exception of Suraya who is often with her Australian friends. She is studying at a regional university near her home. Her studies and socializing with her friends often leaves her absent from family dinners and conversation. Amina has concerns about Suraya's lack of interest in learning to be a caregiver and assuming responsibilities for the family. Amina often tries to teach Suraya how to cook and maintain the household but Suraya is resistant. The parents struggle to understand their perception of Suraya's emerging independence from the family and have frequent conversations with Suraya of their disapproval of her current lifestyle. Suraya is unhappy and wants to leave home. She contacts Multicultural Development Association (MDA) to seek advice about what to do.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
