## Assessment Tasks

### 1 Understanding the Cultural Self

**Assessment Type**

Written Assessment

**Task Description**

Due date: Time 11:59 PM (AEST) Date Wednesday April 5 2023 (Week 5)

Weighting: 20%

Length: 750 words +/- 10%

Unit Coordinator: Dr Agnieszka Sobolewska

**Aim**

The aim of this assessment is to enhance your ability to reflect on personal and professional values as they impact your practice in cross-cultural contexts.

Social work practice is required to be culturally safe and sensitive (AASW, 2020). AASW Code of Ethics (2020, p. 12) states that 'social workers have a responsibility to acknowledge the significance of culture in their practice, recognising the impact their own social locations, views and biases can have on their practice and on culturally different service users and colleagues'. In other words, culturally safe and sensitive practice starts with awareness of our own social locations and how they influence our perceptions, biases and values. The aim of this assessment is for you to explore your own identity and values; as well as how these relate to social work values and cross-cultural practice.

**Instructions**

You are writing about yourself and writing in first person. You are to critically reflect on how the various aspects of yourself construct your identity and how you present to the world.

Please follow the steps below to complete your assessment task:

1. Consider aspects such as your age, gender, nationality/ethnicity, religion, family of origin, etc.
2. Consider how these aspects of your identity relate to your values.
3. Reflect how your values relate to professional social work values.
4. Examine the ways that your identity and values may influence your social work practice with people from culturally and linguistically diverse backgrounds.

As in this assessment you are sharing personal information; please share what you would be comfortable discussing in a professional setting.

### Literature and references

In this assessment use at least 6 contemporary references (<10 years) to support your discussion. You may also use seminal scholarly literature where relevant. Suitable references include peer-reviewed journal articles as well as textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing or the Australian Association of Social Workers.

### Requirements

- Use a conventional and legible size 12 font, such as Times New Roman, with 2.0 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
- Include page numbers on the top right side of each page in a header.
- You will write in the first-person as it is your reflection on your 'self'.
- Use formal language.
- Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
- The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

### Resources

- You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
- We recommend that you access your discipline specific [library guide](#): the [Nursing and Midwifery Guide](#); [Social Work and Community Services Guide](#).

### Assessment Type

Case Study

### Task Description

Due date: 11:59 (AEST) Friday May 5 2023 (Week 8)

Weighting: 40%

Length: 1800 words +/- 10%

Unit Coordinator: Dr Agnieszka Sobolewska

### Aim

The aim of this assessment is to identify the issues that the person in the case study is experiencing, as well as locate them within the person's family and cultural frame. You will identify and critique the knowledge, theoretical concepts, skills, and values which would inform your practice with this person and their family.

### Case study

Aasha (44 years old) contacts your agency and you will work with her in the capacity of a social worker. She lives with her four children: daughter Jamilah (20 years old) and three sons: Muhammad (25 years old), Aaden (17 years old) and Waris (14 years old). Muhammad's wife and their 8-month baby also live in the house.

The family is originally from Somalia. Aasha and her four children arrived under a humanitarian program eight years ago. Her husband and the children's father passed away 11 years ago. Aasha fled the country to neighbouring Kenya where she lived with the children in a refugee camp for two years.

Aasha feels stressed and has problems with sleeping. Aasha has been getting less shifts at work in the last few months. The restaurant where she works in the kitchen has been struggling. Though her conversational English is good, she does not feel confident with her English or looking for new work. She also doesn't want to be a burden on her older children by

asking for help. Muhammad always works long hours and Jamilah is busy with her uni work. The family also financially helps other relatives who are in Kenya whenever they can and would like to sponsor the remaining family members to come to Australia.

Aasha also worries about her sons. Aaden is in year 11 and doesn't have much interest in school. He hangs out with his friends a lot, and gets into fights though he says that he is the one that gets picked on because he looks different. He recently got home angry after being stopped and interrogated by police for just hanging out in the park with friends. Waris started high school. The school has a basketball team and because he's tall, he was asked to play. He likes the sport and is making friends with his team mates. However, he gets annoyed and becomes withdrawn when kids ask him where he's from. He has spent most of his life in Australia and doesn't remember much of his life before coming here. He finds school work hard and Jamilah helps him out but she has to focus on her studies. The oldest son Muhammad is the breadwinner in the family, working long hours as a labourer. Due to his time at work, Aasha believes that he is not paying enough attention his new family.

### **Instructions**

You are writing a report as a social worker in which you are examining the cross-cultural issues and the theoretical approaches that would guide your practice. You will also examine the skills and values required when working with the person and their family.

Please follow the steps below to complete your assessment task. Focus your discussion on the case study.

1. Provide a clear introduction to the case which includes psychosocial factors impacting the person.
2. Identify and explain the cross-cultural issues using knowledge of cross-cultural practice within social work.
3. Choose one or two theoretical approaches and explain how you would apply them in the cross-cultural practice.
4. Critique the skills you will need to use (or develop) to work effectively with this person and family.
5. Examine the values that will challenge you in cross-cultural practice.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
