2 Leadership Framework for Human Services (2000 words)

Assessment Type

Written Assessment

Task Description

In this assessment you are required to demonstrate your knowledge of leadership theories; develop a leadership approach; and critically analyse and evaluate its strengths and limitations. You are required to identify an example from your field placement experience and demonstrate the application of your leadership approach to the situation. You may have observed the situation or been directly involved in the situation. Your response is hypothetical and is based on how you might respond using leadership theories and approaches from the insights you have gained during the unit. It is important to note that your knowledge and skills are emerging and that your proposed leadership approach may be something that you are working towards rather than are able to do, i.e. manage conflict.

Examples:

A client was discharged from a mental health care unit due to bed pressures rather than the mental health care needs of the client. The client was suicidal and did not have housing or support in the community.

You undertake an intake assessment with a social work supervisor while on placement at child protection. The supervisor is aggressive towards the clients and threatens to remove the children if the parents do not stop taking drugs. The supervisor does this in front of the children.

In this assessment you are required to:

- Select a Reflective-Pluralist leadership theory or approach and a Rational-Objective leadership theory or approach and discuss the differences and similarities. Critically analyse and compare these theories/approaches and evaluate the usefulness and relevancy of each to your field placement scenario. Consider the potentials and limitations of these theories in relation to the field placement scenario.
- Critically evaluate the appropriateness of each theory or approach when working with Aboriginal and Torres Strait Islander Australians.
- Apply knowledge of social work values and ethics in your leadership approach and provide examples of how you would do this.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
