General Information

Overview

In this unit you will learn how to apply the models and principles of Multi-Modal Communication for people who cannot rely on speech alone to be heard and understood across the lifespan. You will also learn about Augmentative and Alternative Communication Systems including oral, manual and assistive technologies. You will be required to analyse and evaluate assessment approaches to create therapy techniques and management strategies for children and adults. Theoretical frameworks including the Participation Model, principles of evidence-based practice and interprofessional practice will be integrated throughout the unit.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE comments

Feedback

Utilising real augmentative and alternative communication systems in the tutorials supported students' understanding of multi-modal communication.

Recommendation

It is recommended that students have access to a range of real augmentative and alternative communication systems during the face to face tutorials.

Feedback from SUTE comments

Feedback

Students would prefer the two assessment tasks to be broken into several, smaller assessment tasks.

Recommendation

It is recommended that the unit coordinator review the number and format of the current assessment tasks.
