

STAT20029 *Statistics for Managerial Decisions*

Term 2 - 2018

Profile information current as at 02/10/2022 01:15 pm

All details in this unit profile for STAT20029 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will examine statistics, with particular focus on applications to managerial decision making. It aims to equip students in the field of business and accounting with the statistical tools needed to make informed decisions in uncertain environments. Concepts and practical tools on how to interpret data, trends and patterns as well as estimation of risks and probabilities and, making inferences will be covered. Topics include exploratory data analysis, probability, statistical inference and forecasting. If you have successfully completed the unit STAT20028 you should not enrol in this unit.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2018

- Brisbane
- Distance
- Melbourne
- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Online Quiz(zes)**

Weighting: 20%

2. **Written Assessment**

Weighting: 20%

3. **Examination**

Weighting: 60%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Abridged from student response.

Feedback

Provide more class contact time.

Recommendation

Student should let the tutor know in the tutorial class about his or her difficulties. No additional lecturing time can be provided.

Feedback from Abridged from student response.

Feedback

Unit should have more emphasis on practical learning.

Recommendation

One of the primary aims of this unit is to provide to the students the fundamental concepts. Therefore, the theoretical aspects need to be retained. Hands-on experience is already provided through solving problems in the tutorial class. Some real-world problems will be introduced in the tutorial class in addition to the problems from the textbook.

Feedback from Abridged from student response.

Feedback

Assignments are too long.

Recommendation

The length and complexity of the assignment problems will not be changed. Students should start working early on assignments rather than leaving them to the end.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyze and work with data in a statistical framework
2. Interpret data to gather more information about the process
3. Estimate the probabilities of various scenarios and possibilities using popular tools
4. Make statistical inferences based on sample observations
5. Capture trends and make future projections
6. Compare the implications of alternative strategies in terms of risks and expectations

Schedule

Week 1 - 09 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to Statistics	Study Guide (SG) Module 1; Set Text (ST) Chapter 1	

Week 2 - 16 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Presenting Data	SG 2; ST Chapter 2, KaddStat is optional reading and will never be examined in this unit.	

Week 3 - 23 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Numerical Descriptive Measures	SG 3; ST Chapter 3	Fortnightly Quiz 1

Week 4 - 30 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Probability	SG 4; ST Chapter 4	

Week 5 - 06 Aug 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Discrete Distributions	SG 5; ST Chapter 5	Fortnightly Quiz 2
Vacation Week - 13 Aug 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 6 - 20 Aug 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Continuous Distributions	SG 6; ST Chapter 6	
Week 7 - 27 Aug 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Sampling Distributions	SG 7; ST Chapter 7, Sampling has been covered earlier.	Fortnightly Quiz 3
Week 8 - 03 Sep 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Confidence interval estimation	SG 8; ST Chapter 8 (exclude section 8.4 which is not in syllabus).	
Week 9 - 10 Sep 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Hypothesis Testing	SG 9; ST Chapter 9 (exclude sections 9.6 and 9.7) and Chapter 10 (exclude section 10.5)	Fortnightly Quiz 4
Week 10 - 17 Sep 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Chi-square tests	SG 10; ST Chapter 12	Submit Assignment 2 Written Assessment Due: Week 10 Friday (21 Sept 2018) 11:45 pm AEST
Week 11 - 24 Sep 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Linear regression	SG 11; ST Chapter 13 but exclude 13.6 and 13.7	Fortnightly Quiz 5
Week 12 - 01 Oct 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Time series forecasting and index numbers	SG 12; ST Chapter 15 but exclude 15.4	
Review/Exam Week - 08 Oct 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Exam Week - 15 Oct 2018		
Module/Topic	Chapter	Events and Submissions/Topic

Term Specific Information

To pass the unit (STAT20029) you must obtain:

- at least 24 marks out of 60 in the final exam, **AND**
- at least 50% of the combined total marks for the two assignments and the exam.

Assessment Tasks

1 Online Quiz(zes)

Assessment Type

Online Quiz(zes)

Task Description

You will have to use WileyPLUS website to login and sit the online quiz. Your password and user ID will be provided by the Unit Coordinator before the first quiz. The first quiz will start on Monday of Week 3 and end on Friday of the same week. The other quizzes will be in weeks 5, 7, 9 and 11. You will be allowed only 3 attempts to answer a question and the last answer will be saved and graded. No penalty for multiple attempts.

Number of Quizzes

5

Frequency of Quizzes

Fortnightly

Assessment Due Date

No extension possible. Try submitting earlier to avoid internet congestion at the last moment.

Return Date to Students

The results will be available online after the due date.

Weighting

20%

Assessment Criteria

No part marks available. You get full marks for correct answer and no mark for incorrect answer.

Referencing Style

Submission

Online

Submission Instructions

See the STAT20029 Moodle website for details about the assignment submission.

Learning Outcomes Assessed

- Analyze and work with data in a statistical framework
- Interpret data to gather more information about the process
- Estimate the probabilities of various scenarios and possibilities using popular tools
- Make statistical inferences based on sample observations

Graduate Attributes

- Knowledge
- Cognitive, technical and creative skills

2 Written Assessment

Assessment Type

Written Assessment

Task Description

Solve the assignment 2 questions showing full working in legible writing or typed or combination. The questions will be from topics covered in weeks 1 to 9.

Assessment Due Date

Week 10 Friday (21 Sept 2018) 11:45 pm AEST

Submit online before the deadline to avoid internet congestion at the last moment.

Return Date to Students

Review/Exam Week Wednesday (10 Oct 2018)

Marked assignments will be returned in approximately two weeks after the submission date.

Weighting

20%

Assessment Criteria

Marks will be allocated for procedure, presentation and correct answer.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

Submit online in pdf, doc, docx or rtf format with a total size less than 100 MB. See further details about assignment submission in the STAT20029 Moodle website.

Learning Outcomes Assessed

- Analyze and work with data in a statistical framework
- Interpret data to gather more information about the process
- Estimate the probabilities of various scenarios and possibilities using popular tools
- Make statistical inferences based on sample observations
- Capture trends and make future projections
- Compare the implications of alternative strategies in terms of risks and expectations

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Ethical and Professional Responsibility
- Leadership

Examination

Outline

Complete an invigilated examination.

Date

During the examination period at a CQUniversity examination centre.

Weighting

60%

Length

180 minutes

Minimum mark or grade

You need to score at least 40 percent (24 out of 60) in the final exam to pass this unit.

Exam Conditions

Open Book.

Materials

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).
Calculator - all non-communicable calculators, including scientific, programmable and graphics calculators are authorised

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
