General Information

Overview

In this unit you will examine statistics, with particular focus on applications to managerial decision making. You will use statistics techniques to make informed decisions in uncertain environments within the fields of business and accounting. You will analyse and interpret data, trends and patterns as well as make inferences and use probability theory to estimate risks. Other important topics of this unit include probability and forecasting.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Students' verbal feedback

Feedback

Students enjoyed doing practice questions in the tutorial class.

Recommendation

Continue to run this exercise in the tutorial class.

Feedback from Unit Coordinator's self reflection

Feedback

There are too many lecture slides to be covered in each lecture class.

Recommendation

Review and reduce the number of slides while ensuring that key concepts and relevant information are still covered in the lecture.
