## General Information

### Overview

The purpose of this unit is to develop an overview of the key issues that are likely to affect the global tourism industry in the 21st Century with a specific focus on sustainability. The unit introduces the tourism system and provides a firm basis for understanding how the global tourism system operates on an international and domestic scale. This knowledge will equip you to understand how the tourism system functions from a number of viewpoints including the individual tourist, the destinations that tourists visit and the private and public sector providers of goods and services that support the tourism industry. You will be encouraged to think critically and engage in debates about how these issues will impact on the tourism system, on specific destinations and on individual tourists. This unit will also enhance your ability to participate in team work designed to produce a specific outcome.

For this assessment task, you are to prepare an annotated bibliography, critically reviewing five academic journal articles that will be made available to you on Moodle. ## 2 Group Work

**Assessment Type**

Group Work

**Task Description**

The global tourism industry is projecting continued growth, with an increasing number of tourists travelling to both established and emerging tourism destinations. The impact of this growing tourism demand on destinations can be positive and negative, and has brought the need for sustainability to a global audience. While tourism can provide economic benefits to destination economies and communities, it can also have unintended negative impacts on the environment, society and culture of tourism destinations. Hence, it is important to assess the long-term sustainability of the tourism sector and tourism destinations globally.

A growing demand for tourism experiences contributes to increased pressure on already popular tourism destinations and their resources. There are a number of destinations currently experiencing a backlash due to over-tourism, including Paris, Barcelona and Venice. In small groups (2-3), you are required to review the case of one tourism destination in this situation, critically analysing the current problems faced by the destination community and propose strategies that may overcome these issues based on your knowledge of the tourism sector, and application of tourism theory and sustainability principles. The case study will be assigned by the Unit Coordinator and made available on the Moodle site.

For distance students, an online Moodle forum will be used as a platform to enhance group formations. If required, there

will be a capacity to complete this assessment individually, subject to prior approval of the Unit Co-ordinator.

The group report should address the following:

- A short introduction to the case study destination
- A succinct history of the destination's tourism industry, examining the factors that have contributed to its current tourism development
- Identify and analyse the contemporary impacts of tourism on the destination, considering economic, environmental and socio-cultural aspects
- Critique strategies implemented and/or propose strategies that may be used to ameliorate the current situation, incorporating sustainability principles and practice

Format of the group report:

- Report title, including student names, student numbers, due date
- Report should be 2000 words in length (excluding references)
- The report can include pictures where appropriate, to support your argument
- References to sources used in the report should be listed at the end in APA format (min. 8 academic references, at least 2 references from the grey literature)

### **Assessment Due Date**

Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
