

ZOOL13015 *Environmental Physiology of Animals*

Term 1 - 2017

Profile information current as at 26/04/2024 07:13 am

All details in this unit profile for ZOOL13015 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

Corrections

General Information

Overview

Students will gain an understanding of the physiological adaptations of animals that enable them to inhabit a range of environments and how animals can respond to environmental challenges such as climate change. Students will also conduct independent literature research and examine a range of procedures and technologies used to research the environmental physiology of animals.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

BIOL11100

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2017

- Distance
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are:

Click here to see your [Residential School Timetable](#).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Written Assessment**

Weighting: 40%

2. **Practical Assessment**

Weighting: 10%

3. **Examination**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Personal observation, course evaluations

Feedback

Lectures are overlong and difficult to relate to Learning outcomes

Recommendation

I will revisit the learning outcomes and content for this course. For 2017, I will try to pre-record the lectures in smaller sessions (30 minutes max) and then run Collaborate tutorials.

Action

Shorter summary lectures were pre-recorded this year and students felt that they were an improvement. Evening tutorials were offered but they were poorly attended.

Feedback from Course Evaluations, student emails, personal reflection

Feedback

Students (again) felt that the research presentations were worthwhile and interesting. One student disagreed, noting that it was time they could have spent elsewhere. My personal opinion is that a couple of the sessions were over long.

Recommendation

I will make the research sessions more succinct and timetable one per day rather than a whole day.

Action

In 2017 there was only a single research presentation. Students enjoyed the session and were engaged, asking lots of questions afterwards.

Feedback from Personal observation, course evaluations

Feedback

Some equipment is still not working well and results in pracs not being successful.

Recommendation

I will work with the laboratory staff to ensure pracs are viable.

Action

Pracs ran better this year with less issues with equipment.

Feedback from Self reflection

Feedback

Students struggled with the Literature Review despite support provided and offers of scaffolding. However, I am loathe to make the 'stepwise' development of the literature review compulsory as by third year, students need to take responsibility for their own time management.

Recommendation

I will offer a Collaborate tutorial on writing literature reviews.

Action

A tutorial was held about Literature reviews but it was poorly attended.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe the functioning and control of physiological systems in a range of animals.
2. Explain the physiological responses of animals to a range of environmental challenges.
3. Present, analyse and interpret physiological data.
4. Demonstrate a range of practical skills relevant to the study of environmental physiology.

Schedule

Week 1 - 06 Mar 2017

Module/Topic	Chapter	Events and Submissions/Topic
Basic Principles	Chapter 1, 2, 3; Moyes & Schulte	

Week 2 - 13 Mar 2017

Module/Topic	Chapter	Events and Submissions/Topic
Energy and Nutrition	Chapter 14; Moyes & Schulte	Identify which group of animals you will be researching for your literature review and notify your course coordinator by email.

Week 3 - 20 Mar 2017

Module/Topic	Chapter	Events and Submissions/Topic

Osmoregulation and excretion Chapter 13; Moyes & Schulte

Week 4 - 27 Mar 2017

Module/Topic	Chapter	Events and Submissions/Topic
Respiration and circulation	Chapter 9 & 11; Moyes & Schulte	Compulsory Residential School: 27 - 29 March

Week 5 - 03 Apr 2017

Module/Topic	Chapter	Events and Submissions/Topic
Thermoregulation	Chapter 15; Moyes & Schulte	Literature review: Send an annotated list of at least 15 relevant articles to your course coordinator.

Vacation Week - 10 Apr 2017

Module/Topic	Chapter	Events and Submissions/Topic
---------------------	----------------	-------------------------------------

Week 6 - 17 Apr 2017

Module/Topic	Chapter	Events and Submissions/Topic
Sensory Systems and Locomotion	Chapter 5, 6, 7; Moyes & Schulte	Send an outline of your literature review to the course coordinator for feedback.

Week 7 - 24 Apr 2017

Module/Topic	Chapter	Events and Submissions/Topic
Hormones, Pheromones and Reproduction	Chapter 4 & 16; Moyes & Schulte	

Week 8 - 01 May 2017

Module/Topic	Chapter	Events and Submissions/Topic
Marine life		

Week 9 - 08 May 2017

Module/Topic	Chapter	Events and Submissions/Topic
Estuaries		Submit your first draft of your literature review to Turnitin for checking.

Week 10 - 15 May 2017

Module/Topic	Chapter	Events and Submissions/Topic
Freshwater and extreme aquatic habitats		

Week 11 - 22 May 2017

Module/Topic	Chapter	Events and Submissions/Topic
Terrestrial ecosystems		

Week 12 - 29 May 2017

Module/Topic	Chapter	Events and Submissions/Topic
Extreme terrestrial habitats and Review		Literature Review Due: Week 12 Monday (29 May 2017) 9:00 am AEST

Review/Exam Week - 05 Jun 2017

Module/Topic	Chapter	Events and Submissions/Topic
Revision. Exams start 8/6/17		

Exam Week - 12 Jun 2017

Module/Topic	Chapter	Events and Submissions/Topic
---------------------	----------------	-------------------------------------

Assessment Tasks

1 Literature Review

Assessment Type

Written Assessment

Task Description

You are required to write a 4,000 to 5,000 word literature review on the following topic:

Choose a group of Australian animals from the list below and discuss their physiological and behavioural adaptations to the environment and, hence, comment on their potential to adapt to climate change.

1. Micro bats
2. Megapodes
3. Bettongs
4. Tree Kangaroos

More information will be available on the Moodle site.

Assessment Due Date

Week 12 Monday (29 May 2017) 9:00 am AEST

Return Date to Students

Exam Week Friday (16 June 2017)

Weighting

40%

Minimum mark or grade

45%

Assessment Criteria

Marks will be awarded for writing skills, content, research and referencing. Marks will not be allocated for sections that are plagiarised or copied, in line with CQU Policy. A detailed marking scheme is available on the Moodle site.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Learning Outcomes Assessed

- Describe the functioning and control of physiological systems in a range of animals.
- Explain the physiological responses of animals to a range of environmental challenges.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence

2 Practical Assessment

Assessment Type

Practical Assessment

Task Description

Submission of Laboratory Log Book, including experimental data, calculations and answers to questions. Exact details will be provided on the Moodle site and discussed at the residential school.

Assessment Due Date

On completion of the residential school

Return Date to Students

Week 6 Friday (21 Apr 2017)

Weighting

10%

Minimum mark or grade

45%

Assessment Criteria

Marks will be awarded for completeness and presentation of data, accuracy of calculations and answers to questions. Detailed marking criteria will be provided on the Moodle site.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Offline

Submission Instructions

Your log book will be submitted at the end of the residential school.

Learning Outcomes Assessed

- Describe the functioning and control of physiological systems in a range of animals.
- Explain the physiological responses of animals to a range of environmental challenges.
- Present, analyse and interpret physiological data.
- Demonstrate a range of practical skills relevant to the study of environmental physiology.

Graduate Attributes

- Communication
- Problem Solving
- Information Literacy
- Team Work
- Information Technology Competence
- Ethical practice

Examination

Outline

Complete an invigilated examination.

Date

During the examination period at a CQUniversity examination centre.

Weighting

50%

Length

150 minutes

Minimum mark or grade

45

Exam Conditions

Closed Book.

Materials

No calculators permitted

Dictionary - non-electronic, concise, direct translation only (dictionary must not contain any notes or comments).

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
