VICE-CHANCELLOR’S WELCOME

WELCOME TO CQUNIVERSITY AUSTRALIA! THANKS FOR TAKING THE TIME TO EXPLORE THE MANY OPTIONS AVAILABLE TO YOU AT CQUNIVERSITY, A UNIVERSITY THAT IS QUICKLY EMERGING AS ONE OF AUSTRALIA’S GREAT UNIVERSITIES.

CQUniversity is a university like no other. We are one of Australia’s most engaged and most comprehensive universities, offering hundreds of programs and courses across many study areas. From short courses to research higher degrees – CQUniversity truly enables anyone to be what they want to be.

For many years CQUniversity has also been Australia’s most accessible and inclusive university and this is something we pride ourselves on. We are home to a diverse student cohort from many backgrounds including school leavers, international students, Indigenous students, students studying by distance education in remote locations, and mums and dads balancing study, work and family commitments – a mix that makes this university unique, vibrant and in touch with the real world.

Along with this, CQUniversity has the largest geographical footprint of any Australian university with more than 20 campuses and study centres across the Nation – from Cairns in the North, Melbourne and Adelaide in the South and Geraldton in the West.

What’s more, whether you choose to study on-campus or by distance education, CQUniversity offers one of the best mixes of classroom, online and workplace-based learning of any other Australian university. In fact, it’s because of this flexibility and choice that upon graduation, CQUniversity students are among some of the most comprehensively skilled graduates, not just in Australia but worldwide – and our full-time undergraduate employment rates are among the highest in the sector.

Whether you’re just about to leave school, hoping to embark on a new career, or wanting to up-skill to take your current career further, CQUniversity is here to help.

The time has never been better to explore your study or training options with such a broad range of programs and courses to choose from at CQUniversity. I have no doubt that you will find a program or course that will suit your needs and set you up for a satisfying, exciting and rewarding career.

We look forward to welcoming you in 2016!

Professor Scott Bowman
Vice-Chancellor and President
CQUniversity Australia

BUSINESS, ACCOUNTING AND LAW

If you are looking to work in business, accounting or justice, then you will be interested in the study options CQU has available. Choose from accounting, business, human resources management, general management, project management, retail studies, supply chain and logistics, tourism and justice. There are study options from certificate and diploma to bachelor and postgraduate levels, allowing you to select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Accounting

Accounting involves analysing, reporting and providing advice on financial dealings for individuals and organisations. Work in the accounts administration and bookkeeping fields may involve the preparation of summaries of financial transactions, receipting and processing invoices, calculation and distribution of wages or salaries, preparation of financial statements and debtors’ listings and reconciliation of accounts. Work in the accounting field may also involve the preparation of financial statements, provision of financial and taxation advice, funds management, appraisal of cash flows and financial risks.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE III IN ACCOUNTS ADMINISTRATION (FNS30315)

If you would like to pursue a career in finance or formalise your existing practical experience this course may be for you. Your studies will focus on developing valuable finance skills that are highly sought after by finance departments. Enhance your employability by gaining formal training in fundamental office procedures such as checking and processing financial data entry, accounts payable and accounts receivable, plus much more. This course is the ideal platform if you choose to increase your skill set and employment prospects by undertaking further studies.

CERTIFICATE IV IN BOOKKEEPING (FNS40215)

The Certificate IV in Bookkeeping is designed to develop your technical knowledge and bookkeeping and accounting skills. This course will develop your skills in effectively establishing and maintaining manual and computerised accounting systems and compiling Business Activity Statements (BAS). Your studies will provide you with a solid foundation to continue your studies at a higher level, allowing you to potentially increase your employability.
CERTIFICATE IV IN ACCOUNTING (FNS40611)
This course enhances your employability within the financial services industry and equips you with a range of valuable skills. Your studies will focus on developing skills enabling you to undertake operational reporting, process financial transactions and carry out business activity and instalment activity statement tasks – skills that are highly desired by employers. This course has a practical focus to ensure you are well prepared to start your career in accounting or move into roles that require accounting support functions.

DIPLOMA OF ACCOUNTING (FNS50210)
This course equips you with the technical skills and knowledge needed to provide professional financial services and enhance your employability. Your training will focus on enabling you to perform management and administrative accounting functions. You will develop skills to effectively use computerised accounting systems, prepare income tax returns and establish business networks. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program. Further study opportunities include the Bachelor of Business or Bachelor of Accounting. You may receive credit within these degrees following completion of the Diploma of Accounting.

BACHELOR OF ACCOUNTING (CQ01)
The Bachelor of Accounting gives you the opportunity to study a degree recognised by professional accounting bodies throughout Australia and allows you to take advantage of the exciting career opportunities that exist in the modern business environment. If you like to analyse, audit, organise and provide solutions for clients, a career in accounting may be for you. You are required to complete a total of 24 courses including six compulsory core courses, 12 accounting technical specialist courses and six elective courses. This program is accredited by the three accounting professional associations in Australia and leads to a recognised professional qualification.

BACHELOR OF BUSINESS (CA01) ACCOUNTING SPECIALISATION
The Bachelor of Business is designed to develop your business skills and give you the opportunity to pursue a specialisation in Accounting. You are required to complete a total of 24 courses including eight compulsory core business courses, eight accounting specialist courses and eight elective courses. This program allows you to combine your accounting studies with other business disciplines such as marketing, human resources management, management, information systems, supply chain management, public relations or property.

BACHELOR OF ARTS (CA10) ACCOUNTING SPECIALISATION
The Bachelor of Arts provides you with a multidisciplinary education by combining an eight course major from the Bachelor of Arts in Accounting with two majors (eight courses each) from humanities and social sciences.

BACHELOR OF ACCOUNTING/BACHELOR OF BUSINESS (CQ91)
Get the best of both worlds with this dual degree. Enhance your employability and tailor your degree to suit your individual needs by studying the Bachelor of Accounting/Bachelor of Business. This four-year degree provides extra depth of study in both accounting and business with 32 courses including 16 business courses and 13 accounting courses, plus three electives.

BACHELOR OF LAWS AND BACHELOR OF ACCOUNTING (CB68)
This double degree will enhance your employability and equip you with the technical skills needed for a career in accounting, law and business. This four-year degree includes 36 courses, of which there are 24 law courses and 12 accounting courses.

GRADUATE CERTIFICATE IN PROFESSIONAL ACCOUNTING (CC38)
If you have a degree in another discipline and are looking to develop your skill set in accounting, then this program is for you. It involves four core courses and is the first stage in a suite of postgraduate accounting programs that will develop your knowledge and skills in accounting. Upon completion of this program you can proceed to the Graduate Diploma of Professional Accounting.
GRADUATE DIPLOMA IN PROFESSIONAL ACCOUNTING (CC35)

If you are a graduate looking to redirect your career into accounting, then this program is for you. It includes eight courses and if you have already completed the Graduate Certificate in Professional Accounting you will receive a credit transfer for those courses.

MASTER OF PROFESSIONAL ACCOUNTING (CC57)

This program enables you, as a graduate from a non-accounting background, to qualify as an accounting professional. This program is accredited by the three accounting professional associations in Australia and leads to a recognised professional qualification. There are 16 courses in this program with credit transfers if you have entered the program via the Graduate Certificate and Graduate Diploma of Professional Accounting.

CERTIFICATE II IN BUSINESS (BSB20115)

Study the Certificate II in Business and equip yourself with entry-level skills in business administration to enhance your employability. Your studies will focus on developing skills to effectively use Microsoft Word and Excel software, and undertake a range of routine tasks such as processing mail and filing. You will develop skills required to perform routine tasks such as processing, maintaining, storing and collecting workplace information. Your training will include teamwork and communication, enabling you to communicate effectively within an office environment when you enter the workforce.

CERTIFICATE II IN BUSINESS (SIMULATED BUSINESS) (BSB20115)

Like the Certificate II in Business this course equips you with practical business administration skills. This course differs from the Certificate II in Business in the way that it is delivered. You’ll benefit from face-to-face teaching techniques combined with learning in a supportive simulated business environment. Your studies will focus on developing skills to effectively use software such as Microsoft Word and Excel, handle mail and undertake filing tasks. With a strong focus on teamwork, this course develops your communication skills within an office environment, allowing you to work effectively when you enter the workforce.

CERTIFICATE III IN BUSINESS (BSB30115)

Take the next step in your business career and equip yourself with advanced office-related skills by studying the Certificate III in Business. You will develop industry-relevant skills and gain knowledge in computing technology, office practices and finance – skills that are highly desired by employers. Graduate work ready and equipped to pursue a business career in a variety of office administrative roles.

CERTIFICATE III IN BUSINESS ADMINISTRATION (BSB30415)

If you are seeking employment in an office or business environment, the Certificate III in Business Administration may be for you. Your studies will focus on developing business administration skills through the use of Microsoft Word, computer applications and software. This may be your ideal gateway to a business administration role. Upon completion you will have the skills required to undertake common business-related tasks such as producing documents, building customer relationships and financial administration duties.

CERTIFICATE III IN BUSINESS ADMINISTRATION (SIMULATED BUSINESS) (BSB30415)

The Certificate III in Business Administration (Simulated Business) develops your business skills and provides insights into the world of business administration, making you more employable within your chosen career. You’ll benefit from face-to-face teaching techniques combined with learning in a supportive simulated business environment. Your training will include the use of business software packages including word processing, layout and database software, enabling you to develop skills desired by employers. On completion you will have a broad range of administrative skills to apply in a variety of work contexts.
BUSINESS, ACCOUNTING AND LAW

CERTIFICATE IV IN BUSINESS (BSB40215)

If you enjoy being an administrator and would like to improve your business skills, as well as advance your career, the Certificate IV in Business may be for you. Learn how to oversee an office, make decisions on administrative matters and provide advice to colleagues and staff under your supervision. Your studies will focus on developing administrative, organisational and technological skills. You will gain skills required to perform routine tasks such as report and business writing and general occupational health and safety duties.

CERTIFICATE IV IN BUSINESS ADMINISTRATION (BSB40515)

Study the Certificate IV in Business Administration and equip yourself with valuable administrative skills to enhance your employability. Your studies will focus on developing a broad skill set across a range of administrative contexts including problem-solving and analysing and evaluating information. You’ll be prepared for office administration and project assistant roles. You may also choose to further your studies and build on your skills with the Diploma of Business.

DIPLOMA OF BUSINESS (BSB50215)

OPTION 1

If you want to further develop your skills across a wide variety of business functions the Diploma of Business may be for you. Your studies will focus on developing the crucial skills needed to work in a senior administrative role including how to effectively manage meetings, conferences, human resources and your professional development needs. You may be eligible to access VET FEE-HELP, allowing you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program. Further study opportunities include the Bachelor of Business or Bachelor of Accounting. You may receive credit within these degrees following completion of the Diploma of Business.

DIPLOMA OF BUSINESS (CG01)

OPTION 2

The Diploma of Business is ideal for you if you are unable to devote the time to study a three year Bachelor of Business. This one-year program involves eight courses including the core courses of accounting, economics, organisational behaviour and marketing as well as four elective courses from the specialisation disciplines of accounting, human resources management, information systems, management, marketing, property, public relations or supply chain management. Courses completed in this program can be transferred into the University’s Bachelor of Business program.

BACHELOR OF BUSINESS (CA01)

The Bachelor of Business offers you the opportunity to concentrate your studies in one or more business specialisations. You can choose to focus your studies on marketing, management, human resources management, public relations, property, accounting or information systems. The program is structured with eight compulsory core business courses that provide the foundation of business knowledge and compliments the eight-course specialisation and eight elective course choices, which can come from any of the discipline areas. This diverse range of study options provides you with the opportunity to develop a broad range of skills relating to the modern business environment.

BACHELOR OF ACCOUNTING/BACHELOR OF BUSINESS (C091)

Get the best of both worlds with this dual degree. Enhance your employability and tailor your degree to suit your individual needs by studying the Bachelor of Accounting/Bachelor of Business. This four-year degree provides extra depth of study in both accounting and business with 32 courses including 16 business courses and 13 accounting courses, plus three electives.

BACHELOR OF BUSINESS/BACHELOR OF PROFESSIONAL COMMUNICATION (CU47)

This dual degree provides you with the opportunity to combine the study of public relations and communication with business specialisations. This four-year program includes six public relations courses, six communications courses with an industry placement, 16 business courses, plus three electives. The ability to combine a professional communications focus with business disciplines such as marketing, human resources management, general management, information systems, supply chain management, accountancy or property shows the versatility of this dual program.
BACHELOR OF ARTS/BACHELOR OF BUSINESS (CB06)

The Bachelor of Arts/Bachelor of Business dual degree program will appeal to you if your career aspirations are best served by combining a multidisciplinary degree program that allows you to pursue studies in the broad discipline areas of humanities and the social sciences with a professional business program. The program contains 32 courses, of which eight are core business courses and an additional eight courses represent a major in one of the business disciplines of marketing, human resources management, general management, information systems, supply chain management, property, public relations or accounting. There is also the opportunity to study two majors from Arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural studies or Sociology.

BACHELOR OF AGRIBUSINESS AND FOOD SECURITY (CC11)

The Bachelor of Agribusiness and Food Security provides you with integrated knowledge and skills in science and business. On completion you will be a well-rounded agricultural and horticultural graduate with the skills required to understand agricultural-based enterprises. Gain insight into sustainable food and fibre production, the food production chain and value adding for agricultural products, the economics of primary production industries, water resource management, the use of technology in agriculture, business finance, ensuring the security of food production systems, how plants function and precision livestock management so you can take a leading role in this growth industry.

GRADUATE CERTIFICATE IN BUSINESS ADMINISTRATION (CC51)

If you have a bachelor’s degree in a non-business discipline and are looking to develop skills and knowledge in organisational management this program is for you. Alternatively if you have strong experience in the world of business but no formal qualification this program offers you the chance to get that formal recognition. Or it may have been some time since you graduated with your undergraduate business degree and you want to update your skills in evolving areas of business. This four-course program is the first of three postgraduate business administration programs. You can study one program or all, the choice is yours.

GRADUATE DIPLOMA OF BUSINESS ADMINISTRATION (CC52)

Build on the skills acquired during the Graduate Certificate of Business Administration by completing the Graduate Diploma of Business Administration – an eight-course program that provides you with the opportunity to study contemporary management practices. You will study a range of topics relating to organisational management and develop the creative, analytical and interpersonal skills needed for successful business leadership. Benefit from credits given for courses completed within the CQUniversity Graduate Certificate of Business Administration. The program allows articulation into the Master of Business Administration (MBA) or the Master of Management for Engineers.

MASTER OF BUSINESS ADMINISTRATION (CC58)

The Master of Business Administration (MBA) has recently been redesigned to equip you with critical interpersonal skills and the knowledge base to succeed in today's dynamic, fast-paced and competitive global environment. During the 16-course program you will cover a wide variety of contemporary business content and develop a well-rounded knowledge base in the modern world of business. Credit is given for courses completed within the CQUniversity Graduate Diploma of Business Administration.

GRADUATE CERTIFICATE IN INTERNATIONAL BUSINESS (CC66)

If you are interested in studying international marketing, law, finance and human resource management then this program may be for you. During the program you will explore key areas including global business environments, as well as multinational enterprise and international business practices. This four-course program is the first of three postgraduate international business programs. Choose to study one program or all, it is up to you.

GRADUATE DIPLOMA OF INTERNATIONAL BUSINESS (CC68)

Enhance your international business skills, increase your employability and build on the foundation created with the Graduate Certificate in International Business by completing the eight-course Graduate Diploma of International Business. Credit is given for courses completed within the CQUniversity Graduate Certificate of International Business. The Graduate Diploma of International Business is your perfect pathway into the Master of International Business at CQUniversity should you choose to add additional depth to your knowledge of international business.
MASTERS IN INTERNATIONAL BUSINESS

The 16-course Master of International Business provides you with a wide variety of contemporary international business content so that you can develop a well-rounded knowledge base in the modern world of global business. Credit is given for courses completed within the CQUniversity Graduate Diploma of International Business. During your studies you will cover business strategy, the functional areas of management, human resources management, marketing, law and finance and contextual studies of particular regions and countries.

GRADUATE CERTIFICATE IN SOCIAL INNOVATION

This program will be of interest if you want to develop your capacity for social entrepreneurship, intrapreneurial impact and engendering a positive impact in the world. Social innovation focuses on addressing the root causes of social issues and works for systemic change. The sound grounding in business strategies and social innovation underpinning will equip you with the capacity to be an agent of change in all walks of life. This program is new in 2016.

GRADUATE CERTIFICATE IN STRATEGIC INNOVATION

The Graduate Certificate in Strategic Innovation teaches practical and creative problem-solving techniques and explores the creation of new opportunities through process, disruptive, radical and continuous innovation for social, digital, service and commercial contexts. The program embodies design thinking; embracing logic, imagination, intuition and systemic reasoning to explore possibilities and create desired outcomes for both intrapreneurial and entrepreneurial innovation. This program is new in 2016.

MASTER OF SUSTAINABLE TOURISM MANAGEMENT

The aim of the Master of Sustainable Tourism Management is to provide you with an advanced understanding of the sustainable tourism practices that are in place worldwide. With a specific mission to ensure you collaborate and engage with diverse communities, the program will focus on the economic, environmental and socio-cultural aspects of sustainable tourism management. It is based on social innovation foundations and empowers you to liaise directly with industry. This program is new in 2016.

MASTER OF BUSINESS

Undertake world-class research at CQUniversity with the Master of Business. This is a two-year program that involves supervised research focused on a particular area of interest you have in business (research), management or commerce. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy (PhD) is a four-year program of supervised research focused on a particular area of interest you have in a specific business discipline. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Human Resource Management

Human resource management involves administration services surrounding the recruitment and employment of staff for an organisation. Human resource management may involve the recruitment of staff such as developing position descriptions, interviewing and appointing the preferred candidate, coordinating staff training, performance management, implementing organisational change and providing advice to management and employees on policies and procedures.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN HUMAN RESOURCES

This course may be suitable if you have a desire to enter the Human Resources (HR) industry or are an existing practitioner wanting to expand your level of general HR knowledge. During your studies you will explore a range of HR concepts including HR functions, recruitment and selection, induction of staff and workplace health and safety policies, plus much more. You will study legislative requirements and industrial relations procedures, as well as ways to establish effective workplace relationships and support employees.

Find the latest course and program details online at www.cqu.edu.au.
DIPLOMA OF HUMAN RESOURCES MANAGEMENT (BSB50615)

Whether you are looking to commence work in the field of human resources (HR), or would like to advance your career, this course may be for you. Build on the foundations of the Certificate IV in Human Resources and equip yourself with a range of skills that will prepare you for a management role within HR. Your studies will focus on developing skills enabling you to effectively perform a variety of duties such as recruitment and selection, and developing performance management processes. You will become confident in developing HR policies and procedures, workforce planning and employee relations. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship. Further study opportunities include the Bachelor of Business at CQUniversity. You may receive credit within this degree following completion of the Diploma of Human Resources Management.

BACHELOR OF BUSINESS (CA01)
HUMAN RESOURCES MANAGEMENT SPECIALISATION

The Bachelor of Business will develop your business skills and give you the opportunity to pursue a specialisation in Human Resources Management. You will complete a total of 24 courses including eight compulsory core business courses, eight human resources management specialist courses and eight elective courses. The Human Resources Management specialisation will develop your knowledge and expertise in planning, recruitment and selection, and performance management. The versatility of this program allows you to combine your HR studies with other business disciplines such as accounting, marketing, management, information systems, supply chain management, public relations or property.

BACHELOR OF PROFESSIONAL COMMUNICATION (CG04)
HUMAN RESOURCES MANAGEMENT SPECIALISATION

The Bachelor of Professional Communication is a versatile program that allows you to combine the study of public relations and communications with the business specialisation of Human Resources Management. You will be able to apply knowledge of issues associated with human resource management with your communication skills to work effectively to support people and foster a positive culture within an organisational setting.

BACHELOR OF BUSINESS/BACHELOR OF PROFESSIONAL COMMUNICATION (CU47)

This dual degree provides you with the opportunity to combine the study of public relations and communication with in-depth study of human resources management. This four-year program includes six public relations courses, six communications courses with an industry placement, eight core business courses, eight specific human resource management courses, plus three electives to provide further versatility in discipline studies.

BACHELOR OF ARTS (CA10)
HUMAN RESOURCES MANAGEMENT SPECIALISATION

The Bachelor of Arts is structured so that you have the opportunity to explore the traditional arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural studies or Sociology, as well engage with a professional major such as Human Resource Management. The combination of arts and business majors will enable you to think deeply in the arenas of humanities and social sciences in the context of a career in human resources management.

BACHELOR OF ARTS/BACHELOR OF BUSINESS (CB06)

The Bachelor of Arts/Bachelor of Business program will appeal to you if your career aspirations are best served by combining a multidisciplinary program that allows you to pursue studies in the broad discipline areas of humanities and the social sciences with a professional business program. The four-year program contains 32 courses, of which eight are core business courses and an additional eight courses represent a major in Human Resources Management. There is also the opportunity to study two majors from the Arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology.
GRADUATE CERTIFICATE IN HUMAN RESOURCES MANAGEMENT (CC64)

If you have a bachelor’s degree in an unrelated discipline and are looking to develop your skills in human resource management or it has been some time since you graduated with your undergraduate human resources management degree and you want to update your industry skills, then this program may be for you. Alternatively if you have experience in the world of human resources management but no formal qualification this program offers you the chance to gain formal recognition. You will develop skills and expertise in human resource management, industrial relations and management functions. This four-course program is the first of three postgraduate human resources management programs. You can study this program or continue to the others, the choice is yours.

GRADUATE DIPLOMA OF HUMAN RESOURCES MANAGEMENT (CC67)

If you have previously completed the CQUniversity Graduate Certificate in Human Resources Management and are looking to take the next step in your career the Graduate Diploma of Human Resource Management may be for you. Credit is given for courses completed within the CQUniversity Graduate Certificate of Human Resources Management. During this eight-course program you will build on the foundation created with the Graduate Certificate in Human Resources Management. You can continue your studies in Human Resources Management by progressing to the Master of Human Resource Management at CQUniversity.

MASTER OF HUMAN RESOURCES MANAGEMENT (CC72)

The Master of Human Resources Management is the most advanced study option available to you as a human resources professional. During this 16-course program you will cover all areas of human resource management, enabling you to facilitate critical evaluation of contemporary theories and develop advanced skills and knowledge in the field. The program examines human resources strategy, training, recruitment, performance development, diversity management and managing change. You will also gain credit for courses completed within the CQUniversity Graduate Diploma of Human Resources Management.

Management

The field of management is wide and varied. Management may involve providing advice, statistics and reports relating to key business functions, implementing new systems and processes, consulting and project management, supervising staff and working with stakeholders to achieve objectives and targets. A career in management offers a number of employment opportunities and the ability to advance from an entry-level position to supervisor, manager, consultant or senior executive within business, government or non-profit organisations in the industry of your choice.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN FRONTLINE MANAGEMENT (BSB40812)

If you are moving into a supervisory position or want formal recognition for supervisory skills you have developed in the workplace the Certificate IV in Frontline Management may be for you. Enhance your supervisory skills and knowledge and develop valuable skills in leadership, operational planning and workplace, health and safety. Upon completion you will be able to gain or enhance your career in frontline management.

CERTIFICATE IV IN SMALL BUSINESS MANAGEMENT (BSB40415)

Study the Certificate IV in Small Business Management and equip yourself with the confidence, skills and knowledge required to establish your own small business. Your studies will explore areas including legal and risk management, finance, marketing, small business planning and customer service. This course guides you through everything you need to know to set up a small business. You may be eligible to access to VET FEE-HELP which allows you to study now and pay later. Please visit www.cqu.edu.au/fees to determine eligibility.
DIPLOMA OF MANAGEMENT (BSB51107)
If you are a born leader and would like to develop leadership management skills and apply knowledge, practical skills and experience in leadership and management across a range of enterprise and industry contexts then this course is for you. You will develop skills and knowledge to plan, organise, implement and monitor your workload and the workload of others. Upon completion you will be able to design, apply and evaluate solutions to problems, and identify, analyse and compare information from a range of sources. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

Important note
» This course will be superseded by BSB51915 Diploma of Leadership Management. Please visit www.cqu.edu.au for the latest course information.

DIPLOMA OF PRACTICE MANAGEMENT (BSB52012)
Explore a range of career possibilities in the health industry with the Diploma of Practice Management at CQUniversity. This course will equip you with the knowledge and skills to manage a health centre or general practice. This course is new in 2016.

BACHELOR OF BUSINESS (CA01) MANAGEMENT SPECIALISATION
The Bachelor of Business is designed to develop your business skills and give you the opportunity to pursue a specialisation in Management. You are required to complete a total of 24 courses including eight compulsory core business courses, eight general management specialist courses and eight elective courses. The Management specialisation will develop your knowledge and expertise in areas such as managing organisational change, management theory and practice, quality management and production and operations management. This versatile program allows you to combine your management studies with other business disciplines such as accounting, marketing, human resources management, information systems, supply chain management, public relations or property.

BACHELOR OF PROFESSIONAL COMMUNICATION (CG04) (MANAGEMENT SPECIALISATION)
The Bachelor of Professional Communication is a multidisciplinary program that allows you to combine the study of public relations and communications with the business specialisation of Management. You will be able to apply knowledge of issues associated with management and your newly-acquired communication skills to work effectively to support the development and implementation of business strategy.

BACHELOR OF BUSINESS/BACHELOR OF PROFESSIONAL COMMUNICATION (CU47)
This dual degree provides you with the opportunity to combine the study of public relations and communications with in-depth study of management. This four-year program includes six public relations courses, six communications courses with an industry placement, eight core business courses, eight specific management courses, plus three electives to provide further versatility in discipline studies.

BACHELOR OF ARTS (CA10) MANAGEMENT SPECIALISATION
The Bachelor of Arts is structured so that you have the opportunity to explore traditional arts disciplines and major in Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology, as well engage with a professional major such as Management. The combination of arts and business majors will enable you to think deeply in the arenas of humanities and social sciences in the context of a career in management.

BACHELOR OF ARTS/BACHELOR OF BUSINESS (CB06)
The Bachelor of Arts/Bachelor of Business dual degree program will appeal to you if your career aspirations are best served by combining a multidisciplinary degree program that allows you to pursue studies in the broad discipline areas of humanities and social sciences, with a professional business program. The four-year program contains 32 courses, of which eight are core business courses and an additional eight courses represent a major in Management. There is also the opportunity to study two majors from the arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology.
**BACHELOR OF HOSPITALITY MANAGEMENT (CB69)**

The Bachelor of Hospitality Management is your gateway to a career in this growth industry. This program provides you with the opportunity to widen your career prospects in hospitality management through exposure to studies in business-related disciplines. If you have a TAFE diploma or an Australian Qualifications Framework (AQF) recognised diploma or equivalent then the Bachelor of Hospitality Management has been specifically designed for you. You will develop a broad range of hospitality management skills in the areas of human resource management, management, marketing, tourism, resort and hotel management – skills required for a successful and diverse career in hospitality.

**MASTER OF MANAGEMENT FOR ENGINEERS (CC74)**

If you are an engineer wanting to develop your knowledge and skills in business then the Master of Management for Engineers has been designed for you. This program helps you to identify and apply appropriate solutions to the management of projects particularly in the areas of leadership, people, organisations and operational management, governance, project management, systems theory, strategic integration, innovation and sustainable business development, and accounting. An advantage of studying at CQUniversity is the involvement of professionals from other disciplines such as management, business, marketing and accountancy, who use real-world engineering examples as part of their teaching strategies.

**MARKETING**

Marketing is about identifying and understanding your customer’s needs and purchase decisions. A marketer influences the design of products and determines how to communicate to customers about the merits of their product and how it can satisfy their needs. It involves product development, promotions, pricing strategy and the optimal way of distributing products. There are many career paths in marketing including creative development, sales, digital marketing, data marketers, promotions, research, communications and graphic design.

**BACHELOR OF BUSINESS (CA01) MARKETING SPECIALISATION**

This program is designed to develop your business skills and give you the opportunity to pursue a specialisation in Marketing. You will complete a total of 24 courses including eight compulsory core business courses, eight marketing specialist courses and eight elective courses. The Marketing specialisation will develop your knowledge and expertise in areas such as consumer behaviour, market research, digital marketing, and customer relationship management. This versatile program allows you to combine your marketing studies with other business disciplines such as accounting, human resources management, management, information systems, supply chain management, public relations or property.

**BACHELOR OF PROFESSIONAL COMMUNICATION (CG04) MARKETING SPECIALISATION**

The Bachelor of Professional Communication is a multidisciplinary program that allows you to combine the study of public relations and communications with the business specialisation of Marketing. This combination of marketing and communication may open up a number of career opportunities in the integrated communications marketing field.
BACHELOR OF BUSINESS/BACHELOR OF PROFESSIONAL COMMUNICATION (CU47)

This dual degree provides you with the opportunity to combine the study of public relations and communications with in-depth study of marketing. This four-year program includes six public relations courses, six communications courses with an industry placement, eight core business courses, eight specific marketing courses, plus three electives to provide further versatility in discipline studies.

BACHELOR OF ARTS (CA10)
MARKETING SPECIALISATION

The Bachelor of Arts is structured so that you have the opportunity to explore traditional arts disciplines and major in of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology, as well undertake a professional major such as Marketing. The combination of arts and business majors will enable you to think deeply in the arenas of humanities and social sciences in the context of a career in marketing.

BACHELOR OF ARTS/BACHELOR OF BUSINESS (CB06)

The Bachelor of Arts/Bachelor of Business dual degree program will appeal to you if your career aspirations are best served by combining a multidisciplinary degree program that allows you to pursue studies in the broad discipline areas of humanities and the social sciences, with a professional business program. The four-year program contains 32 courses, of which eight are core business courses and an additional eight courses represent a major in Marketing. There is also the opportunity to study two majors from the arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology.

GRADUATE CERTIFICATE IN MARKETING (CC39)

The Graduate Certificate in Marketing is the ideal program if you want to enhance your existing skills or enter the world of marketing. If you have a bachelor’s degree in an unrelated discipline and are looking to develop your marketing skills and knowledge or it has been some time since you graduated with your undergraduate marketing degree and you want to update your skills in evolving areas of the industry this is the right program for you. Alternatively if you have strong experience in the world of marketing but no formal qualification this program offers you the chance to gain formal recognition. This four-course program is the first of three postgraduate marketing programs. You can study this program or continue to the others, the choice is yours.

GRADUATE DIPLOMA OF MARKETING (CC36)

If you wish to enhance your marketing knowledge and skills then this program may be for you. It is the second in a suite of three marketing programs that will appeal to you if you are wishing to extend your knowledge past the Graduate Certificate in Marketing or hold an undergraduate marketing degree and are looking to update your skills. This eight-course program covers strategic marketing, integrated communications marketing, consumer behaviour, global marketing and services marketing as well as contextual business courses. On completion you may choose to further develop your career prospects by enrolling in the Master of Marketing at CQUniversity.

MASTER OF MARKETING (CC56)

The Master of Marketing is the pinnacle of CQU’s postgraduate marketing programs. Its 16 courses cover strategic marketing, integrated communications marketing, consumer behaviour, global marketing and services marketing, marketing management and planning, and research, as well as contextual business courses. You will gain credit for courses completed within the CQU Graduate Diploma of Marketing.

CERTIFICATE IV IN PROJECT MANAGEMENT PRACTICE (BSB41515)

If you are working in a support role in project fields or would like to acquire knowledge of the fundamentals of project management this course may be for you. This course will equip you with the project management skills that are fast becoming essential for all managers and project support staff. You will explore ways to apply project management techniques, contribute to defining project scope, manage project schedules and costs, ensure quality management and much more.
DIPLOMA OF PROJECT MANAGEMENT (BSB51415)

Build upon your existing project management skills and enhance your employability with the Diploma of Project Management. You will develop the practical skills needed to effectively manage all aspects of a project from start to finish. This course has a strong focus on project integration and leadership, ensuring you are equipped to achieve project objectives. If you have existing project management skills and would like to take the next step and pursue a management role, then this program may be for you. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

GRADUATE CERTIFICATE IN PROJECT MANAGEMENT (CC33)

This program is suitable if you have a bachelor’s degree and are looking to develop your project management credentials. It is also a contextual study pathway if you have vocational education and training (VET) qualifications in project management combined with relevant industry experience or if you have significant industry experience but no formal qualifications. The four-course program includes case studies and practical material to illustrate how the concepts of project management meet industry needs. It also adopts a methodological approach to the application of project processes and highlights the integration of different frameworks to a project.

GRADUATE DIPLOMA OF PROJECT MANAGEMENT (CV81)

This program provides you with the opportunity to extend your understanding of project management by establishing a deep foundational knowledge base of the theoretical principles, as well as the practical application, of project management. The program consists of coursework that explores the principles of project management as based on recognised international standards, guidelines and frameworks. Project management is examined from a technical skills, human skills and systems perspective. This program is new in 2016.

MASTER OF PROJECT MANAGEMENT (CV84)

This program provides an opportunity for you to extend your knowledge through both coursework and research into project management. The conclusion of the program is a research project that can be based on either your workplace or issues that are important to the general project management profession. All the course materials have been aligned to the Project Management Institute (PMI) global standards and core bodies of knowledge. This program is new in 2016.

Property

Property is the greatest single asset of any country. The economic management of property assets is a specialised area of business. There are a wide variety of careers within the property industry including property valuer, property consultant, property manager, asset manager and facilities manager.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF PROPERTY (CF56)

If you are interested in developing your skills and knowledge in property then this program will be of interest to you. You will develop a working knowledge and understanding of property law, contract law, business finance, property economics, property and asset management, construction and property investment and finance.

BACHELOR OF BUSINESS (CA01) PROPERTY SPECIALISATION

The Bachelor of Business is designed to develop your business skills and give you the opportunity to pursue a specialisation in Property. You will complete 24 courses including eight compulsory core business courses, eight property specialist courses and eight elective courses. The Property specialisation will develop your knowledge and expertise in areas such as property law, property valuation, property and asset management and property finance. This versatile program allows you to combine your property studies with other business disciplines such as accounting, marketing, human resources management, general management, information systems management, supply chain management or public relations.
The Bachelor of Professional Communication is a versatile program that allows you to combine the study of public relations and communications with a number of diverse specialisations. There are specialisation options in the business fields of management, marketing or human resources management or digital media production or journalism. The study of public relations is given a strong contextual perspective that will enhance your career prospects as a public relations professional.

The Bachelor of Business is designed to develop your business skills and give you the opportunity to specialise in Public Relations. You will complete 24 courses including eight compulsory core business courses, eight public relations specialist courses and eight elective courses. The Public Relations specialisation will develop your knowledge and expertise in areas such as public relations, media writing and media studies. This versatile program allows you to combine your public relations studies with other business disciplines such as accounting, marketing, human resources management, general management, information systems management, supply chain management or property.

This dual degree provides you with the opportunity to combine the study of public relations and communications with business specialisations. This four-year program includes six public relations courses, six communications courses with an industry placement, 16 business courses and three electives. The ability to combine a professional communications focus with business disciplines such as marketing, human resources management, general management, information systems, supply chain management, accountancy or property shows the versatility of this dual program.

The Bachelor of Arts is structured so that you have the opportunity to explore traditional arts disciplines and major in Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology, as well as a professional major such as Public Relations. The combination of arts and business majors will enable you to think deeply in the arenas of humanities and social sciences in the context of a career in public relations and communications.
Retail

A career in retail will see you planning, coordinating and supporting the operations of retail outlets. Retail outlets include small specialty stores that may be independently owned, fast food restaurants, outlet stores, supermarkets and department stores. Retail involves arrangement of store layout and merchandise displays, provision of customer services, assisting with sales, implementation of security procedures, coordinating and conducting stocktake and managing stock levels.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN RETAIL SERVICES (SIR20212)

If you are working in retail or would like to equip yourself with practical retail skills, embrace the opportunity to study a range of topics and graduate work ready with the Certificate II in Retail Services. You will have the opportunity to study topics including how to operate retail equipment, interact with customers and handle point of sales. This course provides you with a solid retail foundation and has a strong focus on preparing you for a career in retail store settings such as specialty stores, supermarkets, department stores and retail outlets.

CERTIFICATE III IN RETAIL OPERATIONS (SIR30212)

This course enhances your employability within the fast-paced and diverse retail industry. Gain customer focus and communication skills and develop your sales, merchandising and stock management abilities. Completing this course equips you with the knowledge and industry-ready skills needed to pursue employment in various retail store settings such as specialty stores, supermarkets, department stores and retail fast food outlets.

Supply Chain and Logistics

Supply chain and logistics generally involves recording and coordinating workflow and the transport of material between departments or organisations, examining orders and preparing production schedules. You might be responsible for reconciling stock levels with orders, checking purchase requests against inventory records, preparing and processing purchase orders and management of inventory and stock records.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN LOGISTICS (TLI21810)

Are you looking for a course that prepares you to pursue a role in logistics operations support? The Certificate II in Logistics could be the ideal option for you. During your education and training you will focus on gaining the skills needed to manage the flow of goods between organisations and customers – skills that will be beneficial when you enter the transport and logistics industry.

CERTIFICATE II IN WAREHOUSING OPERATIONS (TLI21610)

If you would like to enhance your employability within the warehousing and storage industry then this course may be for you. Gain skills that will enable you to maintain working relationships and health, safety and security within your workplace. Upon completion you will be equipped with the knowledge needed to effectively undertake warehouse duties and functions. You may choose to undertake further study and enrol in the Certificate III in Warehousing Operations to further your education and training in this area.

CERTIFICATE III IN WAREHOUSING OPERATIONS (TLI31610)

If you would like to equip yourself with a range of skills and gain a general qualification that will prepare you to enter the warehousing and storage industry, then the Certificate III in Warehousing Operations could be for you. During the course you will develop skills enabling you to use discretion and judgement when selecting equipment, provide services or develop contingency measures. This course gives you the opportunity to gain a broad range of industry-related skills, enabling you to increase your career potential.
DIPLOMA OF LOGISTICS (TLI50410)

Completing the Diploma of Logistics provides you with the opportunity to develop the advanced skills required for the integrated management of logistics. Acquire underpinning knowledge and gain the essential skills needed to autonomously plan, select appropriate equipment and apply services and techniques for yourself and others. On completion you will be well prepared to participate in the development of strategic initiatives and complex technical operations. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

BACHELOR OF BUSINESS (CA01)
SUPPLY CHAIN MANAGEMENT SPECIALISATION

The Bachelor of Business is designed to develop your business skills and give you the opportunity to specialise in Supply Chain Management. You will complete 24 courses including eight compulsory core business courses, eight supply chain management specialist courses and eight elective courses. The specialisation will develop your procurement and supply knowledge and expertise in areas such as logistics, quality and inventory management. This versatile program allows you to combine your supply chain management studies with other business disciplines such as accounting, marketing, human resources management, general management, information systems management, public relations or property.

BACHELOR OF ARTS (CA10)
SUPPLY CHAIN MANAGEMENT SPECIALISATION

The Bachelor of Arts is structured so that you have the opportunity to explore traditional arts disciplines and major in Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology, as well as a professional major such as Supply Chain Management. The combination of arts and business majors will enable you to think deeply in the arenas of humanities and social sciences in the context of a career in supply chain management and logistics.

BACHELOR OF LOGISTICS (CV70)

The Bachelor of Logistics will prepare you for a professional career in operations, logistics management and supply chains to meet the challenges of a rapidly globalising industry. Through a unique mix of teaching and learning approaches, you will develop skills and acquire knowledge to deal with the interdependence of contemporary global and regional supply chain and logistics issues. You will be ready to apply these skills and manage operations problems in a global marketplace. If you have studied the Diploma of Logistics, you will benefit from a seamless pathway into the Bachelor of Logistics. This program is new in 2016.
BUSINESS, ACCOUNTING AND LAW

CERTIFICATE II IN TOURISM (SIT20112)

This course provides you with the ideal pathway to work in multiple tourism industry facilities, travel agencies, restaurants, theme parks, transportation, plus much more. Your studies will focus on developing skills enabling you to effectively interact with customers, display social and cultural sensitivity and participate in safe work practices. You will also gain valuable insights into sourcing and using information within the tourism and travel industry, which may help boost your employability.

CERTIFICATE III IN TOURISM (SIT30112)

If you are seeking a career where you can combine work with your passion for travel then the Certificate III in Tourism may be for you. Your studies will focus on developing a range of tourism sales, operational and tour delivery skills. This course has a practical focus, ensuring you graduate work ready and are equipped with the skills needed to enter the diverse and dynamic tourism industry.

BACHELOR OF HOTEL AND RESORT MANAGEMENT

This exciting new course complements the existing study options in business and tourism and creates a learning pathway to provide you industry-relevant skills and knowledge.

Important note

» This course is new in 2016 and subject to final approval. Please visit www.cqu.edu.au for the latest information.
» CQUniversity expects to offer an Advanced Diploma of Hospitality which will provide an entry pathway into our new Bachelor of Hotel and Resort Management.

MASTER OF SUSTAINABLE TOURISM MANAGEMENT (CV89)

The aim of the Master of Sustainable Tourism Management is to provide you with an advanced understanding of the sustainable tourism practices that are in place worldwide. With a specific mission to ensure you collaborate and engage with diverse communities, the program will focus on the economic, environmental and socio-cultural aspect of sustainable tourism management. It is based on social innovation foundations and empowers you to liaise directly with industry. This program is new in 2016.

Tourism

Tourism is the collective range of activities, services and areas that provide an experience for travellers. This includes transport, accommodation, food and hospitality, facilities and services. The tourism industry is people-oriented and may involve general office administration duties, the provision of customer service to a range of stakeholders, and development and implementation of strategies and initiatives that encourage community involvement.

Find the latest course and program details online at www.cqu.edu.au.
BACHELOR OF LAWS (CG98)

The Bachelor of Laws program at CQUniversity is a three-year full-time or four-year part-time undergraduate degree. The program covers all the areas of law required to satisfy professional accreditation and enables you to proceed to practice as a legal practitioner after completing the required professional training.

BACHELOR OF LAWS AND BACHELOR OF ACCOUNTING (CB68)

This double degree will enhance your employability and equip you with the technical skills needed for a career in accounting, law and business. This four-year degree includes 36 courses, of which there are 24 law courses and 12 accounting courses.

BACHELOR OF LAWS AND BACHELOR OF ARTS (CB94)

This double degree offers a multidisciplinary approach by combining studies in law, humanities and the social sciences. This four-year degree includes 36 courses, of which there are 24 law courses and 12 arts courses from the areas of Aboriginal and Torres Strait Islander studies, writing, geography and environmental studies, history, liberal arts, literacy and cultural studies or sociology.

Justice studies is a broad topic that covers a number of fields including law and ethics. Justice may involve the study of laws, management practices, justice systems, regulatory powers, rules and regulations, crime analysis, punishments and victimology. You may also explore processes and methods to communicate effectively with clients on justice-related matters.

Law degree will provide you with the qualifications to pursue a number of careers in the field of law, including solicitor, barrister, government legal officer, judicial officer, law academic, company director, in-house counsel, diplomat and politician. Our Bachelor of Laws program may also be undertaken by industry professionals looking to increase their knowledge of law within their own profession. Many law graduates work in areas not directly related to the law but are working in occupations and industries where the knowledge and skills of a law degree are highly sought after and valued.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN JUSTICE STUDIES (39292QLD)

Studying the Certificate IV in Justice Studies may be your gateway to a career in the criminal justice system including police, courts and corrections. You will gain valuable knowledge of organisations, management practices and legal fields. You will develop knowledge and skills in research, analysis and presentation of information relevant to the criminal justice system. Your studies will strongly focus on communication, enabling you to communicate effectively with clients on justice-related issues once you enter the workforce.

DIPLOMA OF JUSTICE STUDIES (39293QLD)

You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

Find the latest course and program details online at www.cqu.edu.au.

BUSINESS, ACCOUNTING AND LAW
CREATIVE, PERFORMING AND VISUAL ARTS

Our creative, performing and visual arts programs and courses offer you practical real-world experience so you can follow your creative and artistic passion. CQU has study opportunities in creative industries, music, theatre, graphic design and visual arts. There are study options at certificate, diploma, undergraduate or postgraduate level, which allows you to select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Creative Industries

Creative industries is a term used to describe a broad range of roles and tasks, that are often conducted in highly collaborative work environments, which include but are not limited to theatre, music, creative writing, editing, publishing, film, television, animation, multimedia and the visual arts.

Find the latest course and program details online at www.cqu.edu.au.

GRADUATE CERTIFICATE IN CREATIVE INDUSTRIES (CB82)

Whether you are currently in the creative industries field and looking to specialise or advance your skills and qualifications, or wanting to enter this exciting and varied field, the Graduate Certificate in Creative Industries can be tailored to suit your individual needs. You will complete three courses focused on projects of your choice, beginning with project development, then creative and performing arts project one and creative and performing arts project two.

The Creative Practice specialisation offers you the option to develop and create a specialised discipline-specific or interdisciplinary project in the area of creative and performing arts.

BACHELOR OF DIGITAL MEDIA (CC24)

The Bachelor of Digital Media will prepare you for a professional career within the high-demand and highly collaborative digital media industries. At the core of the program you will learn practical skills and relevant theory that can be applied to a variety of fields associated with design, technology and media. The flexible structure of the program allows you to focus on your interests and pursue minors in Graphic Design, Interactive Media, Video and Animation, Journalism or a combination of these areas.

BACHELOR OF ARTS (CA10)

WRITING SPECIALISATION

The Bachelor of Arts (Writing specialisation) is a study option if you are interested in creative industries. You will learn to identify the differing requirements of media and creative writing and develop writing skills that will enable you to apply different techniques as required for different writing purposes. You also have the opportunity to combine your writing studies with majors from humanities and social sciences.
Music and Theatre

Music and theatre are two exciting performing arts study options at CQUniversity. A career in music may see you become a professional musician, recording or sound engineer, artist or composer. Many professional musicians also share their passion for performing with music teaching careers. A career in theatre may see you in a wide range of roles such as a director, designer, theatre technician or theatre manager.

CQUniversity is home to the Central Queensland Conservatorium (CQCM), a purpose-built facility at CQUniversity Mackay Ooralea. This facility cements our commitment to being a major performing arts training centre that attracts students from all states of Australia and overseas.

The Conservatorium has established industry partnerships with many of Australia’s most experienced professional performers, theatre directors and agents, as well as links with international artists, producers, directors and performing arts organisations, which further contributes to its current national and international status.

If you are looking for a role either on the stage or behind the scenes, the Bachelor of Theatre, with specialisations in Drama, Music Theatre, Theatre Studies or Technical Theatre can help you launch your career. Our carefully designed and performance-integrated structure will see you complete core studies in the first year followed by the specialisation of your choice in the remaining years. On completion you will be a highly skilled and motivated creative performer who is job ready.

Graphic Design

Studying graphic design will introduce you to the production of visual communication such as layouts for print and digital media, and image design that may be used for corporate programs, advertising, publications or exhibitions. Graphic design may also extend to the coordination and management of all production stages such as brief management, layout and design, quoting and printing.

Find the latest course and program details online at www.cqu.edu.au.

Diploma of Music (CC41)

If you are looking to enter the music industry or prepare for further tertiary study in music, the Diploma of Music provides you with the opportunity to develop fundamental musical knowledge and performance. On successful completion of the Diploma of Music you may be able to articulate into the second year of the Bachelor of Music.

BACHELOR OF THEATRE (SPECIALISATION) (CG72)

BACHELOR OF GRAPHIC DESIGN (CUV50311)

The Diploma of Graphic Design equips you with the skills and knowledge you need for a career in the graphic design, printing or multimedia industries. Develop advanced skills in design, typography, technical and digital illustration, layout design, finished art, reproduction processes and digital media production techniques. You’ll also cover topics such as design methods for brochures, logos, stationery, posters, packaging websites, CD/DVD covers, newsletters and annual reports. You may be eligible to access VET FEE-HELP, allowing you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.
BACHELOR OF DIGITAL MEDIA (CC24) GRAPHIC DESIGN MINOR

The Bachelor of Digital Media will prepare you for a professional career within the high-demand and highly collaborative digital media industry. At the core of the program you will learn practical skills and relevant theory that can be applied to a variety of fields associated with design, technology and media. The flexible structure of the program allows you to pursue a minor in Graphic Design, which will both qualify you as a graphic designer, and, if you choose, allow you to pursue other areas of interest such as interactive media, journalism or video and animation.

CERTIFICATE II IN VISUAL ARTS (CUV20111)

Visual arts explores the conception, creation and response to a visual representation, impression or idea. Visual arts can involve key concepts such as painting, drawing, printmaking, photography, sculpture, ceramics, glassworks and more.

CERTIFICATE III IN VISUAL ARTS (CUV30111)

The Certificate III in Visual Arts provides you with the opportunity to explore a wide variety of art techniques and methods. The course is designed to enhance your individual skills and knowledge in drawing, two and three dimensional forms, ceramics, digital images, glassworks, painting, photographic images, prints, sculpture, textile, fibre glass, plus much more. The Certificate III in Visual Arts allows you to further develop your interest in visual art.

CERTIFICATE IV IN VISUAL ARTS (CUV40111)

The Certificate IV in Visual Arts will provide you with the opportunity to refine your creative talent. This qualification will prepare you for skilled work at a pre-professional level, where you can continue developing your own artistic voice. The course aims to develop your level of creative skill by bringing together technical proficiency and critical awareness in a broad range of areas.

DIPLOMA OF VISUAL ARTS (CUV50111)

A Diploma of Visual Arts will provide you with the opportunity to develop skills and techniques relevant to employment within the visual arts or other creative industries. You will experience a wide range of studio-based studies and cover competencies in visual culture and professional practice. In addition, you will gain technical skills and aesthetic awareness, combined with a sound knowledge of contemporary art issues. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.
Whether you are looking to enter the education and training sector or are a passionate educator wanting to advance your qualifications, CQUniversity has a range of programs designed to suit you. Choose from childcare, early childhood, primary, secondary or tertiary education or training.

Studying humanities at CQUniversity will broaden your knowledge and understanding of the human experience in the context of culture, indigenous studies, environment, history, language and literature. There is the option to study an arts, professional communication, journalism, sociology or information services program.

There are study options from certificate and diploma to bachelor and postgraduate, so you can select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

---

### Childcare

Childcare studies focus on a range of childcare arrangements and settings and explore the planning and development of activities designed to improve the physical, emotional and intellectual development of children. Elements of childcare include the development and behaviour of children, nutrition, learning and socialisation.

Find the latest course and program details online at www.cqu.edu.au.

---

### CERTIFICATE III IN EARLY CHILDHOOD EDUCATION AND CARE (CHC30113)

This course will equip you with the essential skills required for a role in a range of early childhood education settings. During the course you will learn how to work within organisational policies and procedures. Develop an understanding of how to use individual children’s profiles to plan activities and provide care and education to children, as well as the skills needed to facilitate children’s leisure and play. Upon completion, you will be qualified to work within the requirements of the Education and Care Services National Regulations, as well as the National Quality Standard.

### DIPLOMA OF EARLY CHILDHOOD EDUCATION AND CARE (CHC50113)

The Diploma of Early Childhood Education and Care provides you with the essential skills and qualification required for a career in one of the fastest growing sectors in Australia. On completion, you will be equipped to work as a qualified childcare worker. You will learn how to plan, implement and manage early childhood programs in accordance with quality assurance, licensing and duty of care requirements. As a graduate of this course you may choose to undertake additional study and enrol in a Bachelor of Education, where you will gain credit for your Diploma of Early Childhood Education and Care. You may be eligible to access VET FEE-HELP which allows you to study now and pay later.
Education Support

Education support explores a variety of support services available within the education sector. This involves areas such as assistance with the implementation of educational programs or activities, working effectively with students and colleagues, and supporting the development of student literacy, numeracy and language skills.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE III IN EDUCATION SUPPORT (CHC30213)

This course will give you a head-start if you want to work as a teacher’s aide or education support worker. You will gain a basic working knowledge of the role of educational support workers and be equipped with the skills required to support students from Preparatory level to Year 12. During your studies you will learn how to support children and contribute to their education. You will also cover the competencies needed to deliver training in an industry area and learn how to conduct competency-based assessments in a range of contexts.

Teaching

Current and future educators have a desire to make a difference in the lives of the students they teach and to share their passion for learning. Teaching is an important and respected profession within our community that offers a rewarding and challenging career. Teaching options include early childhood, primary (Year 1 to 7) and secondary (Year 7 to 12).

DIPLOMA OF JUNIOR SECONDARY TEACHING (CC10)

The Diploma of Junior Secondary Teaching is suitable if you are a primary school teacher looking to transition into junior secondary teaching, or a secondary teacher either looking to improve your discipline content knowledge within a current teaching area, or wanting to gain discipline knowledge in order to add a new teaching area. You will benefit from a unique model of supported on-site school and distance education involving expert school-based teaching staff on-site and university staff online. You will study two core courses and five courses in your chosen major of either English and History or Mathematics and Science.

BACHELOR OF EDUCATION (EARLY CHILDHOOD) (CC14)

The Bachelor of Education (Early Childhood) will qualify you for provisional registration as a teacher throughout Australia. A mix of theory and practice will see you job ready upon graduation. Benefit from 125 days of planned teaching practice in schools and other learning sites and an additional 20 days diploma practicum, 10 of which must be spent with children in the birth to 2 years group. A unique feature of this program is the opportunity for you to gain a nationally recognised Diploma of Early Childhood Education and Care within the early stages of the program, meaning you will be qualified as an Early Childhood Educator.
BACHELOR OF EDUCATION (PRIMARY) (CC12)

Qualify for provisional registration as a teacher throughout Australia by completing the Bachelor of Education (Primary). Through a combination of theory and practice, this program provides you with the skills required to teach primary students to Year 6, and Years 7 to 9 in junior secondary schools. The structure of the program will see you undertake frequent and meaningful work experience in the form of 125 days of planned teaching practice in schools and other learning sites. This program offers the Diploma of Early Childhood Education and Care as an optional interim award, which will qualify you to practise as an early childhood educator for the remainder of your studies and beyond.

BACHELOR OF EDUCATION (SECONDARY) (CC13)

Successful completion of this program makes you eligible for registration as a secondary teacher with secondary schools in two teaching areas. The program includes 125 days of planned teaching practice in secondary schools with a period of familiarisation time in an educational setting to prepare you for 10 weeks of full-time professional practice. Choose from the discipline areas of accounting, biology (including Year 7 to 10 science), business, chemistry (including Year 7 to 10 science), English, geography, health and physical education (HPE) (including Year 7 to 10 HPE and Year 11 to 12 physical education), history, home economics and hospitality, industrial technology and design and mathematics.

GRADUATE DIPLOMA OF LEARNING AND TEACHING (CV09)

If you have a bachelor degree in an unrelated discipline and would like to pursue a passion for teaching, then this program provides you with a career path to become a secondary school teacher. As a graduate you will have the essential professional knowledge and skills required for secondary school teaching. These new skills will complement your previous university-level studies, enabling you to teach in two distinct teaching areas and providing you with eligibility to apply for provisional registration with the Queensland College of Teachers. You will complete eight core courses including a graduate internship to ensure you have the right mix of theory and practical training.

MASTER OF TEACHING (MAJOR) (CC45)

PRIMARY SPECIALISATION

If you wish to pursue a career as a primary school teacher then the Master of Teaching (Primary) could be for you. You must have a bachelor’s degree in a non-education related field and suitable depth of discipline knowledge in a designated learning area. This postgraduate pre-service teacher education program meets professional registration requirements of the Queensland College of Teachers. After graduating you will be qualified to teach from Year 1 to 6.

GRADUATE CERTIFICATE IN RELIGIOUS EDUCATION (CV76)

This qualification is necessary if you wish to teach in Catholic schools in Australia. You must already be a registered teacher to participate in this program. The program comprises four courses that develop your professional knowledge, practice and identity as an educator in religion and religious practices and with significant partners of Christian faith communities in Catholic schools. This program is new in 2016.

GRADUATE DIPLOMA OF LEARNING AND TEACHING (CV09)

If you have a bachelor degree in an unrelated discipline and would like to pursue a passion for teaching, then this program provides you with a career path to become a secondary school teacher. As a graduate you will have the essential professional knowledge and skills required for secondary school teaching. These new skills will complement your previous university-level studies, enabling you to teach in two distinct teaching areas and providing you with eligibility to apply for provisional registration with the Queensland College of Teachers. You will complete eight core courses including a graduate internship to ensure you have the right mix of theory and practical training.

MASTER OF TEACHING (MAJOR) (CC45)

PRIMARY SPECIALISATION

If you wish to pursue a career as a primary school teacher then the Master of Teaching (Primary) could be for you. You must have a bachelor’s degree in a non-education related field and suitable depth of discipline knowledge in a designated learning area. This postgraduate pre-service teacher education program meets professional registration requirements of the Queensland College of Teachers. After graduating you will be qualified to teach from Year 1 to 6.

GRADUATE CERTIFICATE IN TERTIARY EDUCATION (CG68)

Take your role as a tertiary educator to new heights with this work-based professional development program. Through a focus on reflective practice and innovation you will enhance your learning and teaching practices and further develop your capacity for scholarship and research through project engagement that spans four courses and incorporates a balance of theory and practice.

MASTER OF EDUCATION (CA73)

Undertake world-class research at CQUniversity with the Master of Education. This is a two-year program that involves supervised research focused on a particular area of interest you have in education. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.
EDUCATION AND HUMANITIES

CERTIFICATE IV IN TRAINING AND ASSESSMENT (TAE40110)

This course is suitable if you are new to the vocational education and training industry or in a training role and would like to gain a formal qualification. The Certificate IV in Training and Assessment provides you with the skills required to plan, design, conduct, assess and review training and assessment. You will gain a solid foundation and have the opportunity to build on or pursue employment opportunities in a range of roles such as vocational education teacher or industry trainer.

Training

Business and Management

Training involves the planning, development, implementation and evaluation of training needs, packages and programs. Explore concepts such as instructing individuals, groups and organisations in a range of areas, supporting clients with their learning needs through training frameworks, analysing training needs through research and information gathering and employee induction and development sessions.

Find the latest course and program details online at www.cqu.edu.au.

DOCTOR OF EDUCATION (CQ16)

The Doctor of Education is a four-year doctoral program of supervised research and tasks designed for professional educators. The program comprises structured research tasks, proposal development and a thesis component.

DOCTOR OF PHILOSOPHY (CD61)

The Doctor of Philosophy is a four-year program of supervised research focused on a particular area of interest you have in education and teaching. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

HUMANITIES

Arts

If you are interested in developing a knowledge and understanding of the human experience as well as critical thinking, analysis and communication skills, then studying an arts degree will provide you with a broad and flexible place to start.

Find the latest course and program details online at www.cqu.edu.au.

DIPLOMA OF ARTS (CF36)

The Diploma of Arts provides you with a multidisciplinary education in a combination of humanities and social sciences disciplines and professional specialisations. You will complete four arts-specific discipline courses and four courses chosen from a number of different professional areas. The arts discipline choices can be made from Aboriginal and Torres Strait Islander studies, writing, geography and environmental studies, history, literary and cultural studies. Professional discipline study options are chosen from business, journalism, language and digital media. Successful completion of this program means guaranteed entry into the Bachelor of Arts with credit for completion of the Diploma of Arts.

BACHELOR OF ARTS (CA10)

Complete this program and gain a multidisciplinary education in a combination of humanities and social sciences disciplines and professional specialisations. Study the way humans recognise, record and debate human practices, meanings and values and develop a contemporary understanding of the human condition and how society operates. You will study two arts specialisations selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology. Professional discipline study options involve eight courses, which can be chosen from business, journalism, language, digital media and psychology disciplines.
BACHELOR OF ARTS/BACHELOR OF BUSINESS (CB06)

The Bachelor of Arts/Bachelor of Business program will appeal if you want a multidisciplinary degree that allows you to pursue studies in the areas of humanities, social sciences and professional business. The four-year program contains 32 courses, of which eight are core business courses and eight courses represent a major in Marketing, Human Resources Management, General Management, Information Systems, Supply Chain Management, Property, Public Relations or Accounting. There is also the opportunity to study two majors from the Arts disciplines of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology.

BACHELOR OF LAWS AND BACHELOR OF ARTS (CB94)

This double degree offers a multidisciplinary approach by combining studies in law, humanities and the social sciences. The four-year degree includes 36 courses, of which there are 24 law courses and 12 arts courses from the areas of Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literacy and Cultural Studies or Sociology.

BACHELOR OF ARTS (HONOURS) (CA44)

An honours degree provides you with the opportunity to continue undergraduate studies at a higher level, specialising in a particular area of interest. The purpose of the Bachelor of Arts (Honours) is to prepare talented students for future postgraduate study in a particular area and applications at master’s or doctoral level. This program aims to develop advanced knowledge in specialist areas and skills required for fundamental research and/or industrial applications.

MASTER OF ARTS (CA45)

Undertake world-class research at CQUiversity with the Master of Arts. This is a two-year program that involves supervised research focused on a particular area of interest you have. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DOCTOR OF PHILOSOPHY (CD61)

The Doctor of Philosophy (PhD) is a four-year program of supervised research focused on a particular area of interest you have in a humanities discipline. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.

DOCTOR OF PROFESSIONAL STUDIES (CU56)

The Doctor of Professional Studies is a research-integrated, workplace-engaged degree for the 21st century. It will provide you with a program of supervised research and study that focuses on creativity, innovation and enterprise, allowing you to generate and apply new knowledge and skills in a range of professions and occupations. You will already have a solid education background but now find yourself dealing with more complex issues and demands.
EDUCATION AND HUMANITIES

BACHELOR OF PROFESSIONAL COMMUNICATION (CG04) JOURNALISM SPECIALISATION

The Bachelor of Professional Communication is a multidisciplinary program that allows you to combine the study of public relations and communications with journalism. The Journalism specialisation involves eight courses and will prepare you for a career in journalism and media relations. Be introduced to journalism within the broader contextual framework of media industries and engage in debates about journalistic practice. You will also cover news and narrative writing for a range of journalism genres, and the associated requirements for research, analysis, and conduct within legal and ethical frameworks associated with journalistic practice.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF DIGITAL MEDIA (CC24) JOURNALISM MINOR

The Bachelor of Digital Media prepares you for a professional career in the digital media industries by providing practical skills and relevant theory that can be applied in a variety of fields associated with design, technology and media. The flexible structure allows you to focus on your individual strengths and interests by pursuing a three-course Journalism minor combined with elective courses that can be taken from any CQUndergraduate program.

Professional Communications

Effective communication is integral to organisational success. The ability to convey appropriate and contextual messages across different media channels to achieve specific outcomes is an essential skill in the digital and information age. Organisations depend on public relations and communications professionals to devise and implement strategies for effective creation and maintenance of an appropriate public profile, employee relations, reputation and crisis management.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF PROFESSIONAL COMMUNICATION (CG04)

This dual degree provides you with the opportunity to combine the study of public relations and communications with in-depth study of business. This four-year program of 32 courses includes six public relations courses, six communications courses, an industry placement, eight core business courses, eight discipline-specific business courses and electives to provide further versatility in discipline studies.

BACHELOR OF ARTS (CA10) JOURNALISM SPECIALISATION

Equip yourself with a multidisciplinary education in a combination of humanities and social sciences disciplines and a professional specialisation in journalism by completing the Bachelor of Arts. You will explore disciplines that study the way humans recognise, record and debate human practices, meanings and values. This will aid you in developing a contemporary understanding of the human condition and how society operates. Study two arts majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology and eight courses from the professional discipline of journalism.

Journalism

If you are interested in telling the news and current affairs to the general public then journalism is the career for you. Journalism involves creating content and disseminating information across news platforms. Journalists need strong communication skills, as well as technical proficiency in the digital age and a depth of general knowledge and understanding about a wide variety of topics. CQU has a number of options to studying journalism that will match your area of interest and ability.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF PROFESSIONAL COMMUNICATION (CG04)

The Bachelor of Professional Communication is a multidisciplinary program that allows you to combine the study of public relations and communications with either a Business, Journalism or Digital Media Production specialisation. Business specialisation options exist in Human Resources Management, Marketing or Management.
MASTER OF COMMUNICATION (CU37)

The Master of Communication is a research higher degree program. It involves supervised research and study in either communication, communication technologies or journalism and leads to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

Sociology

Sociology is among the original social sciences and specifically concerned with how and why contemporary societies are organised the way they are. It is the study of how human behaviour is influenced by cultural and social interactions.

Find the latest course and program details online at www.cqu.edu.au.

ADVANCED DIPLOMA OF APPLIED SOCIOLOGY (CC17)

Study the Advanced Diploma of Applied Sociology and discover the diverse world of sociology. It is only social science that embraces the whole range of human activities. This unique program is designed to ensure you graduate with the underpinning sociological knowledge relating to social, public and civic policy. Following the Advanced Diploma of Applied Sociology you have the option to continue your studies and complete the Bachelor of Applied Sociology. This pathway allows you to gain credits for the first two years of study and may further increase your employment prospects.

BACHELOR OF APPLIED SOCIOLOGY (CC16)

The Bachelor of Applied Sociology combines core social sciences transferable skills and has an emphasis on employability. In terms of title, structure and practical focus, there is no equivalent program offered in Australia. The topic matter of the discipline is varied, enabling you to explore a range of perspectives and methodologies used to understand social interactions and societal issues. The program consists of a combination of core and elective courses, which provides you with the opportunity to develop core social sciences skills while also allowing the freedom to pursue areas of particular interest.

BACHELOR OF ARTS (CA10)

SOCIOLOGY SPECIALISATION

The Bachelor of Arts provides you with a multidisciplinary education in a combination of humanities and social sciences disciplines and a professional specialisation. Explore disciplines that focus on the way humans recognise, record and debate human practices, meanings and values and develop a contemporary understanding of the human condition and how society operates. You will be required to study two arts majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology, and eight courses from the disciplines of business, journalism, language, digital media and psychology.

MASTER OF COMMUNICATION (CU37)

The Master of Communication is a research higher degree program. It involves supervised research and study in either communication, communication technologies or journalism and leads to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

Sociology

Sociology is among the original social sciences and specifically concerned with how and why contemporary societies are organised the way they are. It is the study of how human behaviour is influenced by cultural and social interactions.

Find the latest course and program details online at www.cqu.edu.au.

ADVANCED DIPLOMA OF APPLIED SOCIOLOGY (CC17)

Study the Advanced Diploma of Applied Sociology and discover the diverse world of sociology. It is only social science that embraces the whole range of human activities. This unique program is designed to ensure you graduate with the underpinning sociological knowledge relating to social, public and civic policy. Following the Advanced Diploma of Applied Sociology you have the option to continue your studies and complete the Bachelor of Applied Sociology. This pathway allows you to gain credits for the first two years of study and may further increase your employment prospects.

BACHELOR OF APPLIED SOCIOLOGY (CC16)

The Bachelor of Applied Sociology combines core social sciences transferable skills and has an emphasis on employability. In terms of title, structure and practical focus, there is no equivalent program offered in Australia. The topic matter of the discipline is varied, enabling you to explore a range of perspectives and methodologies used to understand social interactions and societal issues. The program consists of a combination of core and elective courses, which provides you with the opportunity to develop core social sciences skills while also allowing the freedom to pursue areas of particular interest.

BACHELOR OF ARTS (CA10)

SOCIOLOGY SPECIALISATION

The Bachelor of Arts provides you with a multidisciplinary education in a combination of humanities and social sciences disciplines and a professional specialisation. Explore disciplines that focus on the way humans recognise, record and debate human practices, meanings and values and develop a contemporary understanding of the human condition and how society operates. You will be required to study two arts majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology, and eight courses from the disciplines of business, journalism, language, digital media and psychology.
Studying the built environment involves the examination of man-made objects and at CQUniversity this includes the disciplines of building design, building surveying and construction management.

CQUniversity has an engineering study option to suit those intending to qualify as a professional engineer as well as the practitioner who wants applied knowledge. CQUniversity is a leading provider of postgraduate asset and maintenance management education.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Building Design

Building designers design buildings that can range from a family home to a multi-storey commercial complex according to their experience and licence classification. As a building designer you will prepare working drawings and assemble other documents required for necessary approvals and construction. You will also be ready to provide advice and assistance with town planning and other regulations relevant to projects.

Find the latest course and program details online at www.cqu.edu.au.

ASSOCIATE DEGREE OF BUILDING DESIGN (CC01)

If you have a keen interest in the building and construction industry and like planning and designing then the Associate Degree of Building Design may be for you. By studying this program you will equip yourself with the skills required to plan and design buildings, ranging from residential homes to medium-rise commercial buildings. This includes restoration, renovation, unit development and extension work. Upon completion, you may choose to continue your building design studies by enrolling in the Bachelor of Building Design. You will receive credit for study undertaken in the Associate Degree of Building Design.

BACHELOR OF BUILDING DESIGN (CU65)

Equip yourself with the skills needed to provide creative, practical and sustainable construction designs for clients by studying the Bachelor of Building Design. This program will provide you with an understanding of construction, structures, building materials and services, sustainability, professional practice and communication, ultimately preparing you to become a confident and capable building industry professional. The Bachelor of Building Design is accredited by the National Alliance of Building Designers. Further information is available from the Queensland Building and Construction Commission.
Building Surveying

A career in building surveying will appeal to you if you are interested in interpreting and applying building legislation, technical codes and construction standards. As a building surveyor you may conduct building inspections to ensure compliance with building regulations and public safety.

Find the latest course and program details online at www.cqu.edu.au.

Construction Management

By studying construction management you will learn about coordinating building construction. This includes the development of large projects such as hotels, offices, schools, hospitals, residential developments and more. Construction management explores a range of methods and procedures, supply of labour and material, managing contractors and subcontractors, building regulations and building operations.

Find the latest course and program details online at www.cqu.edu.au.

ASSOCIATE DEGREE OF BUILDING SURVEYING (CB99)

As a graduate of the Associate Degree of Building Surveying you will be capable of assessing building documentation for code and standards compliance and inspecting staged works for domestic and residential buildings. The Associate Degree of Building Surveying is regularly reviewed by the Australian Institute of Building Surveyors.

BACHELOR OF BUILDING SURVEYING AND CERTIFICATION (HONOURS) (CC61)

Your education and training will prepare you to become a building surveyor and enable you to certify buildings of all classes in the residential and commercial sectors. You can assess building documentation for codes and standards compliance and inspect staged works on all classes of buildings, as defined by the Building Code of Australia (BCA). The Australian Institute of Building Surveyors regularly reviews this program for industry compliance.

CERTIFICATE IV IN BUILDING AND CONSTRUCTION (BUILDING) (CPC40110)

The Certificate IV in Building and Construction prepares you for a career in building and construction management. During this course you have the opportunity to develop the skills and knowledge needed for a career as a builder or manager of small to medium-sized building businesses. Please note that builder licensing varies across states and territories and additional requirements to attainment of this qualification may be required. You may be eligible to access to VET FEE-HELP which allows you to study now and pay later. Please visit www.cqu.edu.au/fees to determine eligibility.

BACHELOR OF CONSTRUCTION MANAGEMENT (HONOURS) (CC62)

This program has a strong focus on construction management and planning, services, building maintenance, and materials and structures ensuring you graduate work ready and capable of managing and coordinating complex construction projects. Upon completion of the Bachelor of Construction Management you will satisfy the academic requirements for membership with the Australian Institute of Building.
ENGINEERING

Engineering

Engineering is about turning ideas into reality and finding innovative scientific and technical solutions to a variety of challenges. The work of an engineer is diverse and may include design, development, maintenance or project management.

CQU offers a variety of engineering degrees incorporating different discipline fields. Discipline choices are available in a range of engineering areas.

Civil engineering involves structures and systems such as roads, water supply, bridges, buildings and tunnels. Electrical engineering is concerned with electricity generation and distribution, communication systems, control systems and electronic equipment. If you are interested in machines that have moving parts such as trucks, trains, ships, planes and manufacturing equipment then mechanical engineering could be an ideal career path for you. Mechatronics engineering combines mechanical, electrical and computer engineering to create systems that include both movement and intelligence. Mining engineering covers the extraction and processing of minerals and the earth’s resources such as coal, gas, precious stones and metals. Alternatively, a career in engineering geology where you will investigate and provide geologic and geotechnical recommendations, analysis and design may be of interest to you.

Whatever your engineering interest are, at CQU we have a program for you.

Find the latest course and program details online at www.cqu.edu.au.

DIPLOMA OF INSTRUMENTATION AND CONTROL ENGINEERING (UEE51011)

The Diploma of Instrumentation and Control Engineering provides you with the skills and knowledge to install, set up, test, develop, select, commission, maintain and diagnose faults/malfunctions of equipment and systems for the measurement, recording, monitoring and control of physical/chemical phenomenon and related process control systems. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

DIPLOMA OF ENGINEERING – TECHNICAL (MEM50212)

The Diploma of Engineering qualification will provide you with theoretical and semi-technical skills and knowledge. It is most relevant to you if you are presently or intending to be employed in mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. This course emphasises the transfer of theoretical concepts to practical real world applications. You will study engineering safety, mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies. You may be eligible to access VET-FEE HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

ASSOCIATE DEGREE OF ENGINEERING (CC02)

The Associate Degree of Engineering allows you to develop the skills required to become an engineering associate and gain knowledge of engineering principles relevant to the testing, inspection, drawing, adaptation, commissioning, management or operation of on-site equipment, plant and systems. There is the opportunity to tailor your studies to your areas of interest by selecting from specialisations in Civil, Electrical, Mechanical, Mining Engineering or Engineering Geology. Upon completion of the Associate Degree of Engineering you will satisfy the academic requirements for membership with Engineers Australia as an Engineering Associate.
BACHELOR OF ENGINEERING TECHNOLOGY (CG21)

As a Bachelor of Engineering Technology student, you will develop technical knowledge and skills in civil, electrical or mechanical engineering, enabling you to become an engineering technologist. You can specialise in Civil (Structural), Civil (Municipal/Transportation), Mechanical (Process), Mechanical (Energy), Mechanical (Design), Electrical (Electrical Power) or Electrical (Control). This program may be used as a pathway into the Bachelor of Engineering (Honours). You will study many of the same courses as Bachelor of Engineering students but in a narrower discipline area. This program is accredited by Engineers Australia.

BACHELOR OF ENGINEERING (HONOURS) (CC31)

If you want to become a qualified engineer you will need to study the Bachelor of Engineering (Honours). Consisting of a common first year, after which you select your specialisation in Civil, Electrical, Mechanical, Mechatronic or Mining Engineering, the program also incorporates project-based learning. This provides you with the opportunity to learn in both formal and informal environments such as workshops, classes and project studios. Teamwork and problem-solving skills are learnt alongside technical content in real-world engineering contexts. This program is accredited by Engineers Australia and upon graduation you will satisfy the requirements for membership of Engineers Australia.

BACHELOR OF ENGINEERING (HONOURS) AND DIPLOMA OF PROFESSIONAL PRACTICE (CO-OP ENGINEERING) (CC32)

The Bachelor of Engineering and Diploma of Professional Practice (Co-op Engineering) allows you to gain hands-on experience in a professional industry environment and be paid while you learn. It features 48 weeks of paid work placement as well as project-based learning, allowing you to graduate with relevant and recent industry experience. You can choose Civil, Electrical, Mechanical or Mechatronic Engineering as your specialisation after a common first year of engineering studies. This degree will satisfy the academic requirements for membership of Engineers Australia as a Professional Engineer.

GRADUATE CERTIFICATE IN ENGINEERING (CV86)

If you are a three or four-year qualified engineer from Australia, the Graduate Certificate in Engineering provides you with an opportunity to develop further skills and knowledge either in your current engineering discipline or in related discipline areas. You will study four courses chosen from topics including sustainability, mining, project management and rail, as well as a range of civil, electrical and mechanical engineering courses. You may also choose to continue your study towards a Graduate Diploma of Engineering or Master of Engineering. This program is new in 2016.

GRADUATE DIPLOMA OF ENGINEERING (CV87)

Continue your professional development as a qualified engineer from Australia with the Graduate Diploma of Engineering. This eight-course program will provide you with an opportunity to develop additional skills and knowledge either in your current engineering discipline or in related discipline areas. You may also choose to continue your study towards a Master of Engineering. This program is new in 2016.

MASTER OF ENGINEERING (CV82)

This Master of Engineering provides a pathway for three or four-year qualified engineering graduates both from Australia and overseas to achieve Engineers Australia Stage 1 Competency Standards for Professional Engineers. This program incorporates the courses from the Graduate Certificate and Graduate Diploma of Engineering in addition to completion of a major research project that will demonstrate your ability to work as a professional engineer. This program is new in 2016.

MASTER OF MANAGEMENT FOR ENGINEERS (CC74)

If you are an engineer wanting to develop your knowledge and skills in business then this program has been designed specifically for you. This program helps you to identify and apply appropriate solutions to the management of projects, particularly in the areas of leadership, people, organisations and operational management, governance, project management, systems theory, strategic integration, innovation and sustainable business development, and accounting. An advantage of studying at CQU is the involvement of professionals from other disciplines such as management, business, marketing and accountancy, who use real-world engineering examples as part of their teaching strategies.
MASTER OF ENGINEERING (CA63)

Undertake world-class research at CQUniversity with the Master of Engineering. This is a two-year program that involves supervised research focused on a particular area of interest you have in the engineering field. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DOCTOR OF PHILOSOPHY (CD62)

The Doctor of Philosophy (PhD) is a four-year program of supervised research focused on a particular area of interest you have in an engineering discipline. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Maintenance and Asset Management

If you currently work in asset and maintenance management then CQUniversity’s suite of programs in this area will be of interest to you. These programs are relevant only to people working within the industry as they are designed to integrate your experience as a maintenance practitioner and build on that foundation by introducing theories and concepts that will develop your professional skills, knowledge and abilities, as well as enhance your career opportunities.

Find the latest course and program details online at www.cqu.edu.au.

GRADUATE DIPLOMA OF ASSET AND MAINTENANCE MANAGEMENT (CC20)

The Graduate Diploma of Asset and Maintenance Management builds on the foundation of systems, strategies and resource allocation that was introduced in the Graduate Certificate of Asset and Maintenance Management. During this second of three programs in the suite, you have the opportunity to learn about leading in a maintenance environment. Customise your program with a choice of courses in areas including maintenance audits, condition monitoring, reliability, shutdowns and materials management. Credit is given for this program towards the master’s program in this suite, so you can choose to enhance your employability by undertaking further education and training.

MASTER OF MAINTENANCE MANAGEMENT (CU91)

The Master of Maintenance Management provides you, as a graduate of the Diploma of Asset and Maintenance Management, with the opportunity to apply the knowledge you have gained to a relevant and contextual research project. You will investigate and resolve a significant real-life issue affecting the maintenance of an organisation.

GRADUATE CERTIFICATE OF ASSET AND MAINTENANCE MANAGEMENT (CC19)

Enhance your career prospects by completing the Graduate Certificate of Asset and Maintenance Management – a program that allows you to learn about maintenance systems and strategies, and resource allocation in just four courses. This program is innovative and practical in its approach, providing you with the ability to excel in the field of maintenance, reliability and engineering management. Upon completion you have the opportunity to receive credit towards the graduate diploma and master programs in this suite if you choose to further enhance your employability and undertake additional education and training.
ENGLISH, STUDY AND WORK PREPARATION

If you are looking to develop your English language and literacy skills or gain communication and numeracy work skills, then you will be interested in the study options available at CQUUniversity.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

English Language

There are numerous study options available in written and spoken English that will improve your communication skills.

Find the latest course and program details online at www.cqu.edu.au.

COURSE IN PRELIMINARY WRITTEN AND SPOKEN ENGLISH (10361NAT)

If you have just started learning English language and literacy or have minimal exposure to English then this course may be for you. You will develop your language and literacy skills, allowing you to effectively engage in work, the community and further studies. Develop the basic listening, speaking, reading and writing skills required for everyday transactional needs as you learn from a curriculum used throughout Australia.

CERTIFICATE I IN SPOKEN AND WRITTEN ENGLISH (10362NAT)

Take that next step towards using and understanding English in everyday situations by completing the Certificate I in Spoken and Written English. If you have just started learning English language and literacy then this course may be for you. You will have the opportunity to develop general English language, literacy and optional numeracy skills, enabling you to use and better understand English in everyday situations. During this beginner course you will develop basic skills for everyday transactional needs, listening, speaking, reading and writing.

CERTIFICATE II IN SPOKEN AND WRITTEN ENGLISH (10363NAT)

The Certificate II in Spoken and Written English provides you with general knowledge and skills in English language and literacy, making you more versatile and better prepared to use and understand English in everyday situations. During the course you will develop vital skills in a variety of areas ranging from basic everyday transactional needs, listening, speaking, reading and writing, through to the skills required to effectively engage in work, the community and further studies.
CERTIFICATE III IN SPOKEN AND WRITTEN ENGLISH (10364NAT)

Develop your existing English language and literacy skills and enhance your employability by completing CQUniversity’s Certificate III in Spoken and Written English. If you are considering undertaking further education and training or gaining employment then this course may be for you. During the course you will acquire solid English language and literacy skills, enabling you to participate in a range of community contexts.

ELICOS (CE95)

CQUniversity provides courses for international and local students in general English, International English Language Testing Systems (IELTS) Preparation and English for Academic Purpose (EAP). English classes are suitable if you are a beginner or a migrant wanting to improve your English skills. Higher-level general English classes are a good starting point for IELTS Preparation and EAP. EAP classes are suitable if you want to learn English and focus on referencing, essay writing, presentations, information literacy and note taking.

START UNI NOW (SUN) (CG41)

Start Uni Now (SUN) is a study option if you are a high school student in Year 11 or 12 and wish to study a university course as part of your Queensland Certificate of Education. This program allows you to develop skills and knowledge, enabling you to transition comfortably from high school to university. You will complete university courses from within your degree of choice and as such become familiar with many university systems and practices and accustomed to the university environment. You will receive credit for the course you have successfully completed and in most cases gain direct entry into the program that your SUN course were studied from.

TERTIARY EDUCATION PROGRAM (TEP) (CT02)

The Tertiary Entry Program (TEP) embraces your Aboriginal and Torres Strait Islander background to prepare you for successful participation in undergraduate and postgraduate university degree programs. When you successfully complete the full program you will gain a Tertiary Entry Ranking (TER), which gives you access to undergraduate programs at Australian universities. Throughout the program you will participate in learning experiences that are personally and culturally affirming. We value the skills, knowledge and experience you bring when you come to study at CQUniversity. Office of Indigenous Engagement staff members are available to assist you with all aspects of your studies.

SKILLS FOR TERTIARY EDUCATION PREPARATORY STUDIES (STEPS) (CZ01)

Skills for Tertiary Education Preparatory Studies (STEPS) is a pre-university preparatory program that prepares you for further study. STEPS is a viable option if you are 18 or over in the year of enrolment, and are an Australian or New Zealand citizen or hold permanent resident or humanitarian visas. STEPS is designed to instil in you the skills and confidence necessary to embark on tertiary study and covers academic communication, mathematics, computing, science, independent learning skills, study skills and library and information literacy skills.

Study Preparation

There are study options available that develop the skills and confidence necessary to embark on tertiary study.

Find the latest course and program details online at www.cqu.edu.au.
There are numerous study options available to acquire communication and numeracy skills that may enhance your employability.

Find the latest course and program details online at www.cqu.edu.au.

**COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – COMMUNICATION (INTERMEDIATE) (39281QLD)**

Choose to complete the Course in Core Skills for Employment and Training – Communication (Intermediate) at CQUniversity and equip yourself with the underpinning communication and numeracy skills required to enhance your future career prospects.

**CERTIFICATE I IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – COMMUNICATION (39282QLD)**

The Certificate I in Core Skills for Employment and Training – Communication will help you progress into further training or pursue employment opportunities. During the course you will develop skills in and an underpinning knowledge of communication and numeracy, allowing you to improve your future prospects.

**COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – COMMUNICATION (BASIC) (39280QLD)**

If you would like to improve your communication and numeracy skills then the Course in Core Skills for Employment and Training – Communication (Basic) at CQUniversity may be for you. During your education and training you will focus on developing communication and numeracy skills and acquiring the underpinning knowledge required to progress into further training and gain employment.

**COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – COMMUNICATION (PRELIMINARY) (39279QLD)**

Completing the Course in Core Skills for Employment and Training – Communication (Preliminary) provides you with a range of underpinning communication and numeracy skills, enabling you to progress into further training or gain employment. During this course you will focus primarily on general learning and acquiring language and numeracy skills, which may make you more versatile.

**COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – COMMUNICATION NUMERACY (PRELIMINARY) (39285QLD)**

During this course you will develop a range of communication and numeracy skills. This underpinning knowledge may help you progress into further training or pursue employment opportunities. Completing the Course in Core Skills for Employment and Training Numeracy (Preliminary) equips you with the knowledge and skills needed to improve your future learning and employment prospects.

**COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING NUMERACY (BASIC) (39286QLD)**

Progress into further training or enhance your employment opportunities by completing the Course in Core Skills for Employment and Training Numeracy (Basic). During the course you will develop essential communication and numeracy skills and knowledge, ensuring you are well prepared to pursue future career opportunities.

**CERTIFICATE I IN CORE SKILLS FOR EMPLOYMENT AND TRAINING – NUMERACY (39288QLD)**

Completing the Certificate I in Core Skills for Employment and Training – Numeracy may be your stepping stone to further training or employment opportunities. During your education and training you will benefit from this well-rounded course, which has been designed to help you achieve your potential and equip you with core communication and numeracy skills that are highly valued by employers.
COURSE IN CORE SKILLS FOR EMPLOYMENT AND TRAINING NUMERACY (INTERMEDIATE) (39287QLD)

Equip yourself with the underpinning communication and numeracy skills needed to progress into further training and employment opportunities by completing the Course in Core Skills for Employment and Training Numeracy (Intermediate). During this intermediate-level course you will develop essential skills to ensure you are well prepared and work ready upon completion.
Chiropractic

Chiropractic is a health care discipline that promotes wellbeing by diagnosing and treating problems related to the nervous system and the skeletal system, in particular the spine and pelvis. To qualify as a registered chiropractor it is necessary to complete a five-year university degree. CQUniversity offers a three-year Bachelor of Science (Chiropractic) followed by a two-year Master of Clinical Chiropractic.

Find the latest course and program details online at www.cqu.edu.au.

If you are looking to work in the health industry, then you will be interested in the study options that CQUniversity has available. At CQUniversity, our health courses cover a diverse range of areas including allied health, community services, and transport and safety science. There are a wide array of program options, allowing you to select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

BACHELOR OF SCIENCE (CHIROPRACTIC) (CB77)

This program aims to develop clinical skills in the diagnosis and management of patients presenting for care. You will develop a range of spinal and patient assessment procedures and basic therapeutic approaches to common musculoskeletal presentations. You will learn to manage patients from a wellness perspective and will cover the history, philosophy, principles and theories of chiropractic and relevant chiropractic psychomotor skills, as well as gain knowledge of basic science. Completion of the program will qualify you as a chiropractic assistant. Full registration as a chiropractor requires completion of the Master of Clinical Chiropractic.

MASTER OF CLINICAL CHIROPRACTIC (CC71)

Have you previously completed CQUniversity’s Bachelor of Science (Chiropractic) and are now seeking to meet the five-year industry accreditation requirement for professional registration as a chiropractor? The two-year Master of Clinical Chiropractic is the ideal option for you. While the CQUniversity Bachelor of Science (Chiropractic) is specifically sequenced for optimal articulation, other accredited bachelor programs will also be considered. As a graduate of the Master of Clinical Chiropractic you will develop knowledge, skills, values and behaviours necessary to become a primary care chiropractic practitioner capable of delivering patient-centred care.
CQU has study options that allow you to pursue a career as a radiographer or a medical sonographer. Radiographers use sophisticated technical equipment to produce high-quality medical images that are used to diagnose injury or illness. A medical sonographer uses ultrasonic equipment to produce diagnostic images, scans, videos, or three dimensional or four dimensional volumes of anatomy and diagnostic data.

Find the latest course and program details online at www.cqu.edu.au.

**BACHELOR OF MEDICAL IMAGING (CG92)**
CQU's Bachelor of Medical Imaging will prepare you to work as a radiographer and enable you to provide safe and accurate imaging examinations in a wide range of clinical environments. You will be trained in a new state-of-the-art, purpose-built environment and use the latest technology to ensure you graduate work ready. By focusing on developing key competencies, you will become confident in digital technology, community engagement and remote and rural innovation. By completing extensive work placements you will gain practical experience and be able to apply your skills and knowledge in a real-world setting. This program is approved by the Medical Radiation Practice Board of Australia.

**BACHELOR OF MEDICAL SONOGRAPHY AND GRADUATE DIPLOMA OF MEDICAL SONOGRAPHY (CG91)**
The Bachelor of Medical Sonography and Graduate Diploma of Medical Sonography is a unique four-year combined bachelor’s degree and postgraduate diploma program designed to develop your clinical skills. Your training incorporates extensive clinical experience, allowing you to apply your skills and knowledge in a real-life environment. The program is taught in state-of-the-art, purpose-built environments using the latest digital technology and simulated learning clinics to ensure you graduate work ready. On completion you will be recognised as a high-calibre practitioner and accredited sonographer. You will be ready to perform all the major types of ultrasound examinations.

**BACHELOR OF ECHOCARDIOGRAPHY (CARDIAC PHYSIOLOGY)/GRADUATE DIPLOMA OF ECHOCARDIOGRAPHY (CV69)**
An Echocardiographer (or cardiac sonographer) is a health professional who uses a range of diagnostic tools, including ultrasonic equipment, to produce diagnostic images, video loops, laboratory data and three dimensional and four dimensional volumes of cardiovascular anatomy. You will undertake a four-year full-time program of study, comprising a three-year undergraduate Bachelor of Echocardiography (Cardiac Physiology) and a one-year Graduate Diploma of Echocardiography. You will be able to apply your knowledge of cardiac physiology, measurement science and practical echocardiographic scanning skills in the diagnostic setting. This program is new in 2016.

**BACHELOR OF CARDIAC PHYSIOLOGY (CV68)**
This three-year full-time degree leads to a career in the field of cardiac physiology and clinical measurement science. A cardiac technologist and measurement scientist is a health professional who uses a range of diagnostic means to produce images and laboratory data demonstrating cardiovascular anatomy and function. This program is new in 2016.

**MASTER OF MEDICAL ULTRASOUND (CV83)**
The Master of Medical Ultrasound provides the opportunity for qualified medical sonographers or echocardiographers to undertake professional development in the form of a coursework master’s in medical ultrasound. This program is a natural top-up qualification to the Graduate Diploma of Medical Sonography or Graduate Diploma of Echocardiography, enabling you to study areas of advanced practice and/or specialisations. This practice includes advanced communication, business and research, together with such specialisations as advanced musculoskeletal scans, paediatric ultrasound and foetal hearts. This program is new in 2016.
Fitness and Sports Science

Study fitness and explore key concepts in the assessment of needs and individual capabilities, provision of training and advice on exercise and nutrition, preparation of routines and exercise programs and fitness activity instruction. Fitness can lead to specialist areas such as specialist exercise trainer, personal trainer or group trainer.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN COMMUNITY ACTIVITIES (SIS20113)

The Certificate II in Community Activities will provide you with skills and knowledge in customer contact functions and activities such as conducting recreation activities, facilities maintenance and operations. Enhance your employability in roles such as activity assistant or customer service assistant at recreational facilities or leisure and aquatic centres, and more.

CERTIFICATE III IN FITNESS (SIS30313)

Study the Certificate III in Fitness and become a fully qualified and effective gym instructor. You will develop the skills required to become confident in a range of exercise instructions and activities, allowing you to graduate work ready. Your training will focus on providing you with foundational knowledge so you are equipped to pursue employment opportunities at a fitness centre or gym. You will enjoy a rewarding career that comes from motivating people to become fit and healthy.

CERTIFICATE IV IN FITNESS (SIS40210)

Open the doors to a rewarding and diverse career as a personal trainer by completing the Certificate IV in Fitness. While studying this practical course you will develop a broad range of skills, enabling you to become an effective professional within the fitness industry. Your training will equip you to work independently in a range of fitness settings such as gyms and community facilities. You will gain the skills needed to become confident in assisting clients to achieve their fitness goals.

DIPLOMA OF FITNESS (SIS50213)

The Diploma of Fitness prepares you for a rewarding career as an exercise specialist, motivating people to achieve their fitness goals. This course will focus on developing skills, enabling you to effectively implement, evaluate and modify a range of exercises for people with specific health and exercise needs. You will develop the skills needed to provide exercise training to clients that have specific needs such as older clients and children with chronic health conditions. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

BACHELOR OF EXERCISE AND SPORT SCIENCES (CG85)

Study the Bachelor of Exercise and Sport Sciences and discover the diverse world of human movement – a field that applies to human fitness, elite performance, family and community health, lifestyle management, occupational health and safety and personal health. The program will equip you with practical skills and give you the opportunity to explore exercise physiology, biomechanics, motor control, exercise and sport psychology and anatomy. You will have the flexibility to pursue an area of interest, with your choice of a minor from Exercise and Sport Science Australia (ESSA) Accreditation, Physical Education, Occupational Health and Safety, Sport Management or Liberal Studies.

MASTER OF HUMAN MOVEMENT SCIENCE (CU90)

Undertake world-class research at CQUniversity with the Master of Human Movement Science. This is a two-year program that involves supervised research focused on a particular area of interest you have in exercise and sports science. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.
Health Science

Health Science is a multidisciplinary approach to health care and provides a broad foundation of knowledge to allow flexibility in career and postgraduate study choices.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF HEALTH SCIENCE (ALLIED HEALTH) (CB66)

Prepare yourself for a diverse and rewarding career within emerging health roles by studying the health science. This is a practical program designed to develop well-rounded skills and provide you with a foundation learning opportunity. Your studies will focus on human body systems, the role of allied health practitioners and health care in contemporary society. Completion of this program is the ideal pathway for progression into specialised postgraduate or graduate entry programs in areas such as physiotherapy, occupational therapy, podiatry, speech pathology or public health.

MASTER OF HEALTH SCIENCE (CQ17)

Undertake world-class research at CQUniversity with the Master of Health Science. This is a two-year program that involves supervised research focused on a particular area of interest you have in health science. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DOCTOR OF PHILOSOPHY (CD62)

The Doctor of Philosophy (PhD) is a four-year program of supervised research focused on a particular area of interest you have in health science. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Medical Science

A career as a medical scientist will provide a variety of professional applications. You may use your scientific and analytical skills to conduct laboratory tests, research or consultations that provide information for diagnosing, treating and preventing disease.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF MEDICAL SCIENCE (SPECIALISATION) (CG93)

CLINICAL INVESTIGATION SPECIALISATION

Develop your ability to apply knowledge of clinical investigation to clinical practice in a health professional role by completing the Bachelor of Medical Science. The program has a common first year with subsequent years being devoted specifically to specialisation options. Clinical investigation involves diagnosing disease and fine-tuning therapeutic management of already established disease by performing physiological tests such as electrocardiography (ECG) and 24 hour halter monitoring. Upon completion, you will be ready to pursue a role as a medical scientist in clinical measurement laboratories.

BACHELOR OF MEDICAL SCIENCE (SPECIALISATION) (CG93)

NUTRITION SPECIALISATION

The Bachelor of Medical Science will develop your ability to apply knowledge of nutrition to clinical practice in a health professional role. The program has a common first year and subsequent years will be devoted specifically to Nutrition. Nutrition is an important and diverse field in today’s society. Choosing to study the Nutrition specialisation will enable you to work with individuals or communities to promote healthy lifestyle choices and prevent diet-related disease, and provide a pathway for progression into postgraduate study of food, nutrition or dietetics.
Nursing and Midwifery

Nursing involves the assistance and provision of care in hospitals, aged care facilities, community facilities and other settings. The study of nursing may explore a range of topics such as health assessments and patient health, observation, measurement and recording of patient conditions, attending to patients, assisting with emergency situations, wound care and rehabilitation activities. CQUniversity has a nursing study option for both career entry as well as career development.

Find the latest course and program details online at www.cqu.edu.au.

Bachelor of Medical Science (Specialisation) (CG93)
Pathology Specialisation

Completing the Bachelor of Medical Science will prepare you to apply knowledge of pathology to clinical practice in a health professional role. You will complete a common first year and subsequent years will be devoted specifically to Pathology. Upon completion of the Pathology specialisation you will be prepared to become a generalist working in all fields of pathology will be equipped to examine bodily samples to assist in making a diagnosis regarding a patient’s medical condition plus much more. This specialisation has interim Australian Institute of Medical Scientists (AIMS) accreditation.

Bachelor of Nursing (CQ23)

The Bachelor of Nursing provides you with the theoretical, practical and research knowledge required to become a competent and effective Registered Nurse. On completion of the Bachelor of Nursing you will be eligible to apply for registration as a Registered Nurse (Division 1) General with the Nursing and Midwifery Board of Australia. Your education and training will incorporate a combination of online interactive learning, face-to-face teaching and clinical placements to ensure you graduate highly employable and work ready. You will have access to fully equipped laboratories replicating a real hospital ward, develop a broad range of skills and learn from a team of experienced educators.

Graduate Diploma of Mental Health Nursing (CC69)

If you are a Registered Nurse looking to develop your career then this program will be of interest to you. The Graduate Diploma of Mental Health Nursing will prepare you at the professional level of clinical practice to apply advanced knowledge and skills in mental health nursing across a range of mental health practice settings. Upon completion of this eight-course program and 200 hours of clinical supervision, you will be eligible to apply to the Australian College of Mental Health Nurses to become a credentialed Mental Health Nurse.

Graduate Diploma of Midwifery (CG33)

Specifically designed as an educational pathway for registered nurses, the Graduate Diploma of Midwifery will enable you to apply for registration as a midwife with the Australian Health Practitioner Regulation Agency (AHPRA). The program provides you with an opportunity to gain a postgraduate midwifery qualification, which will provide you with necessary skills and knowledge in the areas of antenatal, childbirth and postnatal care. Unique in its curriculum design, the Graduate Diploma of Midwifery uses innovative teaching strategies that meet Australian national standards. As a CQUniversity midwifery student, you will benefit from a mix of practical experience and theoretical knowledge.

Diploma of Nursing (Enrolled-Division 2 Nursing) (HLT51612)

Completion of the Diploma of Nursing (Enrolled-Division 2 Nursing) enables you to apply to the Nursing and Midwifery Board of Australia in accordance with the Australian Health Practitioner Regulation Agency (AHPRA) for registration as an Enrolled Nurse. Within this course there are mandatory on- and off-the-job training components. On-the-job training is a clinical placement. This placement is unpaid work experience undertaken at a set time at the end of each semester at a relevant health facility. Off-the-job training is the theoretical component of this course. You may be eligible to access VET FEE-HELP, allowing you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program. Further study opportunities include the Bachelor of Nursing at CQUniversity. You may receive credit within this degree following successful completion of the Diploma of Nursing (Enrolled-Division 2 Nursing).
Occupational Therapy

Occupational therapy is a rewarding career that allows you to work with people experiencing barriers in their everyday lives as the result of impairment, disability or disadvantage. You will work across diverse situations including aged care, disabilities, occupational health and rehabilitation, paediatrics and mental health.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF OCCUPATIONAL THERAPY (HONOURS) (CB84)

The Bachelor of Occupational Therapy equips you with practical skills, enabling you to use specific activities to help patients participate in life roles. The program is designed to ensure you are equipped with underpinning knowledge in professional practice, human body systems, psychology and contemporary health care. You will develop highly desired skills in areas such as assessment, service development, evaluation and critical thinking, enabling you to graduate work ready. The program focuses on practical learning experiences so you benefit from industry placements across a range of practice areas including the purpose-built allied health clinic at CQUniversity Rockhampton North.

Oral Health

Studying an oral health degree will qualify you to work as an oral health therapist dental therapist and dental hygienist. You will work alongside dentists to provide routine dental care for patients and promote oral health within the community.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF ORAL HEALTH (CB29)

Completing the Bachelor of Oral Health at CQUniversity enables you to apply to the Dental Board of Australia for registration as an oral health therapist, dental therapist and dental hygienist. You will develop skills to effectively perform preventive and operative dentistry for patients and provide specialist dental practices. The program has a strong focus on work integrated learning in pre-clinical and clinical settings such as our purpose-fit oral health laboratory and dental clinic at CQUniversity Rockhampton North. This allows you to gain valuable practical experience while also increasing your employability.
**Paramedic Science**

Paramedics provide pre-hospital emergency care, treatment and specialised transport for patients. They are often the first response health care provider to incidents like motor vehicle accidents and medical emergencies. They work closely with members of other emergency services such as firefighters, police and the state emergency services.

Find the latest course and program details online at [www.cqu.edu.au](http://www.cqu.edu.au).

**BACHELOR OF PARAMEDIC SCIENCE (CG95)**

The Bachelor of Paramedic Science at CQUniversity is designed to equip you with the skills to become a paramedic. You will develop foundational knowledge in science and human body systems, as well as study and research skills and paramedic practise. In addition, your training will focus on disease processes and emergency treatment, and include practical placements in paramedic care, enabling you to graduate work ready and highly sought after by employers.

**BACHELOR OF PARAMEDIC SCIENCE (PREHOSPITAL CARE) (CC30)**

Designed for those currently employed in the ambulance service, this program will provide you with an opportunity to advance your clinical knowledge and skills, whilst also updating your current Diploma of Paramedic Science qualification. The Bachelor of Paramedic Science (Prehospital Care) provides a distinct pathway for current ambulance service employees to advance their clinical knowledge and skills by gaining an understanding of disease processes. In addition, your training will also place importance on enhancing clinical skills through the most up-to-date high fidelity simulation equipment.

**GRADUATE DIPLOMA OF PARAMEDIC SCIENCE (CRITICAL CARE) (CC70)**

This program allows you to operate in the increasingly complex environment faced by paramedics on a daily basis. This career development program will suit if you are currently an intensive care paramedic or hold a previous Vocational Education and Training (VET) qualification and wish to deepen your knowledge. Alternatively, if you are an advanced care paramedic wanting to practice as a critical care paramedic (or state equivalent) this qualification provides a pathway for you to do so.

**Physiotherapy**

Physiotherapy is a health care profession concerned with human function and movement. Physiotherapists use a range of methods in their work including exercise, manual techniques, education and advice.

Find the latest course and program details online at [www.cqu.edu.au](http://www.cqu.edu.au).

**BACHELOR OF PHYSIOTHERAPY (HONOURS) (CB85)**

The Bachelor of Physiotherapy at CQUniversity is a four-year program designed to develop your skills and enable you to practice as a physiotherapist. The program includes a large practical component through both university-based courses and clinical education placements in a range of settings. This allows you to put your learning into practice, gain practical work experience and graduate work ready. You will develop the skills to become confident in assessing, treating and managing a range of conditions for people of all ages. Upon completion of this program you will be eligible for registration with the Physiotherapy Board of Australia.
HEALTH

Podiatry

Podiatrists are health professionals who deal with the prevention, diagnosis, treatment and rehabilitation of medical and surgical conditions of the feet and lower limbs. CQUniversity offers two study options for qualifying as a podiatrist. You can study an undergraduate degree or if you already hold a degree in a related discipline you can fast-track with a graduate entry postgraduate qualification.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF PODIATRY PRACTICE (HONOURS) (CB86)

Study the Bachelor of Podiatry Practice at CQUniversity and equip yourself with the knowledge and skills required to practice as a podiatrist. Your education and training will explore a variety of health sciences topics such as anatomy, physiology, microbiology and psychology, plus much more. You will benefit from completing clinical placements at the newly established, purpose-built allied health clinic at CQUniversity, as well as in a variety of external clinical settings. This program is an approved program of study in accordance with the National Board and has received accreditation from the Australian and New Zealand Podiatry Accreditation Council.

MASTER OF PODIATRY PRACTICE (CC75)

This program is a graduate-entry program where you are required to have completed an undergraduate degree from a recognised tertiary education institution prior to entry. Graduates with the appropriate qualifications will be provided a means of entry to the profession of podiatry by undertaking an accelerated course of study. Completed over five subsequent academic terms, starting in term 3 (November) each year, this program emphasises the integration of previous skills and knowledge with the principles and practice of podiatry. The program is demanding and requires you to be focused on intensive study and also be available for associated clinical placement between terms.

Public Health

Public health refers to a collection of disciplines that share a common aim to prevent disease, promote health and improve wellbeing among the population as a whole rather than focusing on individuals. At CQUniversity our public health focus is on environmental health and health promotion.

Find the latest course and program details online at www.cqu.edu.au.

ASSOCIATE DEGREE OF PUBLIC HEALTH (SPECIALISATION) (CC44)

The Associate Degree of Public Health offers you the option to develop a broad understanding of evidence-based strategies to address existing, evolving and re-emerging health risks and achieve higher standards of health and wellbeing. This program represents the first two years of the Bachelor of Public Health and provides a foundation of generalised public policy theory and then the option to specialise in either Environmental Health or Health Promotion. Upon completion of the program you can continue your safety studies by enrolling in the Bachelor of Public Health and receive credit for courses completed.

BACHELOR OF PUBLIC HEALTH (SPECIALISATION) (CC59)

ENVIRONMENTAL HEALTH SPECIALISATION

Develop broad skills and knowledge in public health and specialised expertise in environmental health by completing the three-year Bachelor of Public Health at CQUniversity. Environmental health is concerned with the promotion of good health, hygiene and environmental practices and is critical to the health and wellbeing of the community. Environmental health officers develop, regulate and enforce laws and regulations governing public health, building and environmental management. There is also the option to study electives in health promotion, occupational health and safety, environmental science, Indigenous studies or business to complement your environmental health focus.
BACHELOR OF SPEECH PATHOLOGY (HONOURS) (CB87)

The Bachelor of Speech Pathology (Honours) offers you the opportunity to develop specialist knowledge of communication and swallowing disorders in the varied settings in which speech pathologists practice. To facilitate the high level of independent clinical decision making required of graduates, the program uses a range of contemporary teaching approaches. The program offers an emphasis on interprofessional education to equip you to work effectively with your fellow health professionals in today’s work environment.

BACHELOR OF PUBLIC HEALTH (CC59)
HEALTH PROMOTION SPECIALISATION

Study the three-year Bachelor of Public Health at CQUniversity to develop broad skills and knowledge in public health and develop specialised expertise in health promotions. Health promotion officers work towards improving the health of individuals and the wider community, planning and coordinating health promotion programs and educating other health professionals about community health issues. There is also the option to study electives in environmental health, occupational health and safety, environmental science, Indigenous studies or business to complement your health promotion focus.

COMMUNITY SERVICES

Aged Care

Aged care encompasses the provision of care, support and supervision of aged people in a range of settings such as clinics, hospitals, private residences or residential establishments. Aged care assists and promotes independence and encourages community participation.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE III IN AGED CARE (CHC30212)

The Certificate III in Aged Care is designed to develop your knowledge and skills, enabling you to make a difference in the lives of the elderly. You will develop a wide range of skills, allowing you to become confident in maintaining personal care for elderly people living in residential aged care facilities or in the community. This course has a strong focus on preparing you to provide emotional support and companionship – skills that are highly desired by employers.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN AGED CARE (CHC40108)

Enhance your employability within the aged care sector and equip yourself with valuable skills by studying the Certificate IV in Aged Care. You will develop the skills to become a confident supervisor within complex aged care settings, and learn to plan, implement and monitor programs and services for elderly people living in aged care facilities. You will learn how to perform tasks such as providing residents with support and assistance, and administrative duties. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. Please visit www.cqu.edu.au/fees to determine eligibility.
Health Care

Health care involves promoting, preventing, diagnosing, treating and assisting individuals and communities with their physical and mental health and wellbeing. The study of health care may cover areas such as allied health, nursing, Indigenous health and health support services. You may also explore the health care industry, systems, administration and regulation, support services and health care delivery.

Find the latest course and program details online at www.cqu.edu.au.

**CERTIFICATE II IN HEALTH SUPPORT SERVICES (HLT21212)**

Study the Certificate II in Health Support Services and equip yourself with entry-level skills in supporting the effective functioning of health services. This course is suitable if you are seeking a role in health services that does not provide direct care assistance. Enhance your employability for roles such as hospital assistant, administration support, food service worker, medical orderly, support services worker or ward assistant.

**CERTIFICATE III IN HEALTH SERVICES ASSISTANCE (HLT32512)**

This course will kick start your career as an assistant health professional. While studying this varied program you will gain underpinning knowledge, enabling you to assist professional health workers such as nursing staff and ward clerks to provide care for clients. You will gain knowledge and become confident in performing client activities such as showering, bathing, sponging and shaving, and providing assistance with toileting and mobilisation. Your training will focus on developing skills so you can confidently perform work with patients on a daily basis.

**CERTIFICATE III IN ALLIED HEALTH ASSISTANCE (HLT32412)**

Enhance your employability and equip yourself with entry-level health skills by completing the Certificate III in Allied Health Assistance. You will develop a broad skill set, enabling you to provide therapeutic and program-related support to health professionals. You will graduate work ready and well prepared to work in organisations such as hospitals or clinics. You will develop the skills and knowledge required to confidently work in a variety of areas such as rehabilitation, physiotherapy, occupational therapy, podiatry or speech pathology.

**GRADUATE CERTIFICATE IN DEMENTIA STUDIES (CV73)**

The Graduate Certificate in Dementia Studies focuses on issues surrounding dementia. It provides an introduction to dementia care concepts that can be immediately applied in practical situations when caring for a person with dementia and their significant others. It also provides insights into the impact of dementia nationally and globally, ensuring that you graduate with the knowledge and skills to apply a holistic approach to the care of people with dementia, regardless of the community in which they reside. This program is new in 2016.

**GRADUATE DIPLOMA OF DEMENTIA STUDIES (CV78)**

The Graduate Diploma of Dementia Studies examines complex dementia care concepts that can be immediately applied in practical situations when caring for a person with dementia and their significant others. It builds on the body of work delivered in the Graduate Certificate in Dementia Studies. This program is new in 2016.

**GRADUATE CERTIFICATE IN HEALTHY AGEING (CV75)**

The Graduate Certificate in Healthy Ageing will provide you with the opportunity to obtain a qualification in healthy ageing, enabling you to venture into the rapidly growing market for health services that provide quality care to the ageing population. You will focus on healthy ageing concepts such as preventable diseases, health promotion and active ageing to ensure that you graduate with the knowledge and skills to apply a holistic approach to the care of your clients and community. This program is new in 2016.

**GRADUATE DIPLOMA OF HEALTHY AGEING (CV80)**

The Graduate Diploma of Healthy Ageing focuses on issues surrounding healthy ageing. It examines complex concepts that can be immediately applied in practical situations when caring for anyone who is interested in healthy ageing. It encourages critical investigation into the impact of the rapidly expanding ageing population nationally and globally and ensures that you graduate with advanced knowledge and skills to apply a holistic approach to the care of ageing people, regardless of the community in which they reside. This program is new in 2016.
GRADUATE CERTIFICATE IN DOMESTIC AND FAMILY VIOLENCE PRACTICE (CV74)

The Graduate Certificate in Domestic and Family Violence Practice enables you to develop specialised industry-related knowledge and skills to respond to domestic and family violence. Key practice areas in relation to domestic and family violence are reflected in program electives covering child safety, men’s behaviour change and working with victims and survivors. The knowledge and skills you will gain by completing this program are transferable across a wide range of professions and occupations where workers encounter domestic and family violence. This program is new in 2016.

GRADUATE DIPLOMA OF DOMESTIC AND FAMILY VIOLENCE PRACTICE (CV79)

The Graduate Diploma of Domestic and Family Violence Practice provides the opportunity for you to develop advanced industry-related knowledge, skills and competencies to respond to domestic and family violence. You will be able to enhance your learning in key specialist practice areas in relation to domestic and family violence. Courses related to responding to victims and perpetrators, and leadership and management are available to you in this program. This program is new in 2016.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN INDIGENOUS ENVIRONMENTAL HEALTH (HLT21012)

If you would like to work in Indigenous environmental health, providing basic support in population health work, then this course could be for you. The Certificate II in Indigenous Environmental Health will see you working under routine guidance, implementing the directives of your supervisors. This course will enhance your employability for roles such as environmental health worker or health housing worker.

CERTIFICATE III IN INDIGENOUS ENVIRONMENTAL HEALTH (HLT32312)

The Certificate III in Indigenous Environmental Health will see you contributing to the work of others through teamwork and coordination of a range of population health projects or programs. The course will enhance your employability for roles such as Indigenous environmental health worker, environmental health officer, Indigenous public health officer or environmental health field support officer in Aboriginal and Torres Strait Islander communities.

CERTIFICATE IV IN INDIGENOUS ENVIRONMENTAL HEALTH (HLT42412)

This course will provide you with operational skills and knowledge of population health projects related to Indigenous environmental health. Upon completion you will be prepared to apply your skills to complete tasks allocated by a population health professional.

DIPLOMA OF INDIGENOUS ENVIRONMENTAL HEALTH (HLT51112)

If you currently hold a Certificate IV in Indigenous environmental health and would like to further enhance your skills and knowledge then this course could be for you. You may also be interested in this course if you hold specialist or clinical health qualifications and would like to expand your skill set into Indigenous health. This course will prepare you to carry out plans developed and set by population health professionals. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

CERTIFICATE III IN ABORIGINAL AND/OR TORRES STRAIT ISLANDER PRIMARY HEALTH CARE (HLT30113)

If you want to pursue a career that allows you to care for others and make a difference in your community, the Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care may be for you. The course provides you with the introductory skills and knowledge required to provide health care services to Aboriginal and Torres Strait Islander people.
HEALTH

Accident Investigation

Develop advanced skills that allow you to systematically break down the factors leading to an accident and make the necessary findings and conclusions for prevention. CQU has a suite of study options in accident forensics and investigation that allows you to select a program that meets your learning needs, now and into the future.

Find the latest course and program details online at www.cqu.edu.au.

TRANSPORT AND SAFETY SCIENCE

BACHELOR OF ACCIDENT FORENSICS (CB67)

Complete the Bachelor of Accident Forensics and develop expertise in the investigation and analysis of the factors that lead to accidents and the interventions required to prevent their recurrence. The program provides core studies in accident phenomenology, investigation methods, forensic engineering accident analysis, human factors investigation and occupational health and safety. You also have an opportunity to complete authentic learning tasks in the state-of-the-art, purpose-built Forensic Accident Investigation Crash Laboratory, which is the only one of its kind in Australia.

GRADUATE DIPLOMA OF ACCIDENT INVESTIGATION (CC50)

Enhance your accident investigation career by completing this specially designed program. If you have completed the Graduate Certificate of Accident Phenomenology, a degree in an unrelated field, or have experience as a safety practitioner and want to further develop your career, then this program will be of interest to you. Undertaking core studies in the principles of accident investigation, accident phenomenology, accident forensics, accident analysis and human factors investigation will enhance your skill set. Upon completion of the program you can continue your studies with the Master of Safety Science (Specialisation).

MASTER OF SAFETY SCIENCE (SPECIALISATION) (CC79)

ACCIDENT INVESTIGATION SPECIALISATION

The Master of Safety Science (Accident Investigation) allows you to contextualise your studies to your area of interest in road, rail, air and industrial accident investigation. The preferred pathway into this program is via the Graduate Diploma of Accident Investigation, for which you will receive credit. Gain crucial lifelong and generic skills in critical thinking and problem-solving, and benefit from the opportunity to complete authentic learning tasks in the state-of-the-art, purpose-built Forensic Accident Investigation Crash Laboratory.

GRADUATE CERTIFICATE IN ADVANCED ACCIDENT INVESTIGATION PRACTICE (CC65)

This program will be of interest to you if you have graduated with a Bachelor of Accident Forensics as it offers you the opportunity to broaden your knowledge and skills in accident investigation. Benefit from the opportunity to choose an advanced specialisation to complement your previous studies. Choose to specialise in the areas of Rail Safety Investigation, Air Safety Investigation, Road Safety Investigation or Industrial Accident Investigation. Upon completion of the program you may continue your learning by enrolling in the Master of Advanced Safety Science Practice. You will gain full credit for completed studies.
Occupational Health and Safety

Occupational health and safety is important for all businesses as it involves the health and safety of their staff and those under their employ. Study in this area may explore workplace hazards, management systems, health and safety programs and training, risk assessments, legislation and regulations, roles and responsibilities, and identification of health and safety hazards.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN WORK HEALTH AND SAFETY (BSB41415)

Completing the Certificate IV in Work Health and Safety opens the doors to a career in workplace health and safety, and also provides formal qualifications to those already working in the industry. Your studies will focus on developing a broad knowledge base so you can apply workplace health and safety principles in a wide variety of contexts. The course has a strong focus on problem-solving and you will learn how to analyse and evaluate information.

Find the latest course and program details online at www.cqu.edu.au.

Emergency Service

Emergency service workers include firefighters, paramedics, police and others called to scenes of crisis or crime. Emergency service workers provide assistance to those individuals at the scene and work to reduce risk to property and the community.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF EMERGENCY SERVICE (CC60)

The Bachelor of Emergency Service is relevant if you work in emergency services, have successfully completed a relevant Vocational Education and Training (VET) emergency service qualification and wish to deepen your professional knowledge. Credit will be given for your completion of a diploma or advanced diploma. Your degree studies will include core courses supported by the option of selecting contextual minor study areas in Safety Science, Community Safety or Management, which will prepare you for specialist roles in your emergency service career.

MASTER OF ADVANCED SAFETY SCIENCE PRACTICE (CC76)

This program will be of interest to you if you have completed a Bachelor of Accident Forensics or Graduate Certificate of Advanced Accident Investigation Practice as it offers you the opportunity to develop your knowledge and skills in safety science. Choose two advanced specialisations practice areas from both occupational health and safety or accident investigation disciplines. There are five Occupational Health and Safety specialisations including Risk Engineering, Human Factors Engineering, Accident Forensics, Transport Safety Management or Emergency Services Safety. The accident investigation specialisation options include Rail Safety, Air Safety, Road Safety and Industrial Accident Investigation.

DIPLOMA OF WORK HEALTH AND SAFETY (BSB51315)

Enhance your skills in workplace health and safety and increase your employability by studying the Diploma of Work Health and Safety. You will develop practical skills to effectively coordinate and maintain workplace health and safety programs. The course introduces you to a range of safety topics, measures and initiatives so you can become confident in controlling conditions within the work environment that may be harmful to the health and safety of others. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.
ASSOCIATE DEGREE IN OCCUPATIONAL HEALTH AND SAFETY (CG48)

The Associate Diploma in Occupational Health and Safety is designed to create your credentials as an industry paraprofessional with specifically applied knowledge, attitudes, skills and initiatives in the safety science. This program represents the first two years of the Bachelor of Occupational Health and Safety and has study areas of ergonomics and human factors, accident investigation and occupational health and safety management. Upon completion of the program you can continue your safety studies by enrolling in the Bachelor of Occupational Health and Safety and receive credit for courses completed.

BACHELOR OF OCCUPATIONAL HEALTH AND SAFETY (CG48)

The Bachelor of Occupational Health and Safety is designed to develop your expertise in the identification of occupational health and safety hazards in the workplace. Upon completion you will be prepared to facilitate, educate and promote health and safety in the workplace. Your studies will equip you with knowledge, skills and initiatives in the areas of occupational health and hygiene, ergonomics and human factors, accident investigation and occupational health and safety management.

GRADUATE CERTIFICATE IN FATIGUE RISK MANAGEMENT (CC78)

Develop a comprehensive set of skills and knowledge relating to managing the risks associated with fatigue by completing this program. During the program you will learn about safety and accident phenomenology, human factors and fatigue risk management. Upon completion, you can continue your safety studies by enrolling in the Graduate Diploma of Occupational Health and Safety.

GRADUATE DIPLOMA OF OCCUPATIONAL HEALTH AND SAFETY (CC77)

This program is suitable if you have a degree in an unrelated discipline and are looking to enhance your career by developing occupational health and safety skills, or if you have experience in safety but no degree. You will study safety and accident phenomenology, human factors and fatigue risk management, hazard management, occupational health and safety practice and safety legislation and regulations. On completion, you can continue your studies with the Master of Safety Science (Major).

MASTER OF SAFETY SCIENCE (SPECIALISATION) (CC79)

OCCUPATIONAL HEALTH AND SAFETY SPECIALISATION

The ability to contextualise your occupational health and safety studies to your area of interest in risk engineering, human factors engineering, accident forensics, transport safety management or emergency services safety management is the appeal of the Master of Safety Science (Specialisation). The preferred pathway into this program is via the Graduate Diploma of Occupational Health and Safety for which you will receive credit.

GRADUATE CERTIFICATE IN ADVANCED SAFETY SCIENCE PRACTICE (CC49)

This program will be of interest to you if you have graduated with a Bachelor of Occupational Health and Safety as it offers you the opportunity to further develop your safety science knowledge and skills. You can choose from four specific safety specialisations including in the areas of risk engineering, human factors engineering, transport safety management or emergency services safety. Upon completion, you can continue your studies with the Master of Advanced Safety Science Practice.

MASTER OF ADVANCED SAFETY SCIENCE PRACTICE (CC76)

This program will be of interest to you if you have completed a Bachelor of Accident Forensics or Graduate Certificate of Advanced Accident Investigation Practice as it offers you the opportunity to develop your knowledge and skills in safety science. Choose two advanced specialisations practice areas from both occupational health and safety or accident investigation disciplines. There are five Occupational Health and Safety specialisations including Risk Engineering, Human Factors Engineering, Accident Forensics, Transport Safety Management or Emergency Services Safety. The accident investigation specialisation options include Rail Safety, Air Safety, Road Safety and Industrial Accident Investigation.
INFORMATION TECHNOLOGY AND DIGITAL MEDIA

CQU’s Information Technology (IT) programs recognise the impact of IT on all aspects of our day-to-day lives. We offer a wide range of study options leading to traditional IT and information systems qualifications, as well as specialist areas such as aviation technology and digital media. There are study options from certificate and diploma to bachelor and postgraduate levels, allowing you to select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Aviation

Whether you are currently working in the aviation and aerospace industry or looking to start your career, CQU offers a number of programs to suit your needs. Gain a thorough understanding of the theories and practices in aviation technology and explore the associated ethical, legal and security issues in this field.

Find the latest course and program details online at www.cqu.edu.au.

Diploma of Aviation Theory (CG08)

The Diploma of Aviation Theory provides you with an introductory understanding of the theories and practices involved in aviation technology. The program acts as a pathway into the Associate Degree in Aviation Technology or Bachelor of Aviation (Technology) and will prepare you for employment opportunities with major airline organisations. With additional flight training you may also become a qualified civilian or defence force pilot.

Associate Degree of Aviation (CB83)

If you want to pursue a career in aviation and aerospace the Associate Degree in Aviation will provide you with the skills and confidence to do just that. It also acts as a direct pathway into the Bachelor of Aviation (Technology). Equip yourself with an understanding of theories and practices and explore associated ethical, legal and security issues. On completion, you will have the theoretical knowledge required to undertake the testing for a pilot licence. You will also be introduced to recreational flying and complete 20 hours of flight training, helping you to develop a strong understanding of the practical elements of the aviation theory delivered throughout this program.

Bachelor of Aviation (Technology) (CU51)

The Bachelor of Aviation (Technology) will prepare you for a range of management and operational careers in the aviation, aerospace and Information Technology (IT) industries. During this program you will study aviation topics such as aerodynamics, aircraft systems and meteorology; develop an understanding of engineering such as engines, turbo and supercharging, and propeller systems; and build skills in IT and business management, making you a well-rounded graduate. With additional flight training you may also choose to become a qualified civilian or defence force pilot.
Digital Media

Digital media refers to text, graphics, animation, audio and video content that has been digitally encoded, allowing it to be manipulated and rendered by computers, and transmitted over computer networks. Digital photos, music, movies, web sites, social media, mobile applications and computer games are all examples of digital media. Most digital media production environments are multidisciplinary, requiring collaboration between people with diverse technical and creative skills.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE I IN INFORMATION, DIGITAL MEDIA AND TECHNOLOGY (ICT10115)

The Certificate I in Information, Digital Media and Technology enables you to take your first step towards digital literacy. The course will provide you with the necessary skills and knowledge required to perform basic tasks using a computer and a range of software and devices. On completion of the Certificate I in Information, Digital Media and Technology you will have skills that are useful in many occupations and may provide a pathway for you to progress into further study such as the Certificate II in Information, Digital Media and Technology.

CERTIFICATE II IN INFORMATION, DIGITAL MEDIA AND TECHNOLOGY (ICT20115)

This course will build on the foundation developed in the Certificate I in Information, Digital Media and Technology. You will be equipped with the skills and knowledge required to work effectively in an environment that utilises standard IT systems. During this course you will develop basic IT skills and gain experience in Microsoft Office applications including Word, Excel, Access and PowerPoint. You will also learn skills in multimedia, social media, computer maintenance and security. Upon completion, you may choose to further your study with a certificate III in this area.

CERTIFICATE III IN INFORMATION, DIGITAL MEDIA AND TECHNOLOGY (ICT30115)

If you are pursuing self-sufficiency as an advanced Information and Communications Technology (ICT) user or wanting to progress to higher-level IT qualifications then this course could be for you. This course builds on the Certificate II in Information, Digital Media and Technology and will provide you with the skills required to perform introductory ICT technical functions and support information activities. You will develop a variety of IT skills, including the skills required to be an efficient IT technical support or help desk officer.

CERTIFICATE IV IN DIGITAL MEDIA TECHNOLOGIES (ICT40815)

The Certificate IV in Digital Media Technologies equips you with the knowledge and skills needed to competently design, develop and use digital media technologies, enabling you to kick start your ICT career. During the course you will develop a range of skills that may help you improve your career prospects and gain employment as an assistant ICT specialist.

DIPLOMA OF DIGITAL MEDIA TECHNOLOGIES (ICT50915)

Complete the Diploma of Digital Media Technologies and equip yourself with the skills required to enhance your digital media career. You will develop skills and knowledge, enabling you to become competent in designing, developing and refining digital media technologies, as well as using tools and equipment. As you equip yourself with skills to work in the areas of online and interactive design and development, you will also gain experience working with software, Web 2 tools, technologies and mobile devices. You may be eligible to access VET FEE-HELP, allowing you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

BACHELOR OF DIGITAL MEDIA (CC24)

The Bachelor of Digital Media prepares you for a professional career within the high-demand and highly collaborative digital media industries. At the core of the program you will learn practical skills and relevant theory that can be applied to a variety of fields associated with design, digital production, animation and media. The flexible structure of the program allows you to focus on your interests and pursue minors in Graphic Design, Interactive Media, Video and Animation, Journalism or a combination of these areas.
BACHELOR OF PROFESSIONAL COMMUNICATION (CG04) DIGITAL MEDIA PRODUCTION SPECIALISATION

The Bachelor of Professional Communication, specialising in Digital Media Production, is a multidisciplinary program that allows you to combine the study of public relations and communications with eight introductory and advanced technical courses in digital media production such as web design, video and audio, illustration and visualisation and design perspectives.

BACHELOR OF ARTS (CA10) DIGITAL MEDIA SPECIALISATION

This program provides you with a multidisciplinary education in a combination of humanities and social science disciplines and a professional specialisation in Digital Media. Explore disciplines that study how humans recognise, record and debate human practices, meanings and values. This will aid you in developing an understanding of both the human condition and how society operates. There is a requirement to study two majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology. Professional discipline study options involve eight courses focused on digital media.

Graphic Design

Studying graphic design will introduce you to the production of visual communication such as layouts for print and digital media, and image design that may be used for corporate programs, advertising, publications or exhibitions. Graphic design may also extend to the coordination and management of all production stages such as brief management, layout and design, quoting and printing.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE IV IN DESIGN (CUV40311)

The Certificate IV in Design will provide you with a pathway for a career in design, as well as the opportunity to develop and enhance skills in graphic design, interior design, industrial design and related design studies. You will explore the principles and history of design and gain an understanding of the practical and aesthetic skills required to be a designer.

The course will equip you with intermediate design skills and knowledge and provide a foundation for exploring the diversity of design from both two and three dimensional perspectives.

DIPLOMA OF GRAPHIC DESIGN (CUV50311)

The Diploma of Graphic Design equips you with the skills and knowledge you need for a career in the graphic design, printing or multimedia industries. Develop advanced skills in design, typography, technical and digital illustration, layout design, finished art, reproduction processes and digital media production techniques. You’ll also cover topics such as design methods for brochures, logos, stationery, posters, packaging websites, CD/DVD covers, newsletters and annual reports.

You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.
Information Systems

Information systems focuses on the use of technology and the creation, storage, manipulation and dissemination of information. Information systems are integral to helping organisations improve productivity and achieve performance objectives. CQUniversity has a number of options for studying information systems at an undergraduate or postgraduate level.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF ARTS (CA10)
INFORMATION SYSTEMS SPECIALISATION

The Bachelor of Arts, specialising in Information Systems, provides you with a multidisciplinary education by combining humanities and social science disciplines with a professional specialisation. You will explore the way humans recognise, record and debate human practices, meanings and values. You will study two majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology. This is combined with eight courses from the professional discipline of information systems to provide a tailored and highly transferable skill set in your chosen career.

BACHELOR OF BUSINESS (CA01)
INFORMATION SYSTEMS SPECIALISATION

The Bachelor of Business is designed to develop your business skills and give you the opportunity to pursue a specialisation in Information Systems. You are required to complete a total of 24 courses including eight compulsory core business courses, eight Information Systems major courses and eight elective courses. This program allows you to combine your information systems studies with other business disciplines such as accounting, marketing, human resources management, management, supply chain management, public relations or property.

GRADUATE CERTIFICATE IN INFORMATION SYSTEMS (CC29)

If you are looking to expand your professional knowledge and skills in information systems, then this program may be for you. This program is also suitable if you have experience in information systems but no formal qualification, have a degree in an unrelated discipline, or want to refresh your knowledge and skills. You will cover programming, information systems analysis and project management and professional skills. This four-course program is the first of three postgraduate information systems programs and is the ideal pathway for entry into the Graduate Diploma of Information Systems.

GRADUATE DIPLOMA OF INFORMATION SYSTEMS (CC47)

The Graduate Diploma of Information Systems is an eight-course program that builds on the foundation developed during the graduate certificate. Databases, information and communications technologies management, e-business, networks and web design are some of the additional topics that are available in this program. On completion of the course you may wish to continue your information systems studies by continuing on to the Master of Information Systems and receive credit for courses studied so far.

MASTER OF INFORMATION SYSTEMS (CC53)

If you have a bachelor’s degree in any discipline or have graduated from the CQUniversity Graduate Diploma of Information Systems, then this program may be for you. The 16-course Master of Information Systems allows you to develop your business analysis and project management skills. Credit is given for courses completed within the CQUniversity Graduate Diploma of Information Systems.
Information Technology

Information Technology (IT) is the study of computer-based information systems. IT is a combination of tools, processes and methodologies that are used to collect, process and present information. IT is concerned with computer science, networks, programming and software design, databases and the internet.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF INFORMATION TECHNOLOGY (CQ18)

The Bachelor of Information Technology provides you with the opportunity to become a skilled and work-ready professional in the ICT industry. You have the choice to major in Application Development, Business Analysis or Network Security. The Application Development major will prepare you for a career in application development. Business analysis is the ability to identify, define and design a solution to solve business problems. The Network Security major focuses on the technologies that are used to create and secure the networks that connect us. On completion of the course you may be eligible for personal membership with the Australian Computer Society.

BACHELOR OF INFORMATION TECHNOLOGY (CO-OP) (CG99)

The Bachelor of Information Technology (Co-op) allows you to benefit from real-world experiences through project-based learning and a six-month paid work placement. Tailor your studies through your choice of major in Application Development, Business Analysis or Network Security. The Application Development major prepares you for a career in application development. Business analysis is the ability to identify, define and design a solution to solve business problems. The Network Security major focuses on the technologies that are used to create and secure the networks that connect us. On completion, you will be ready to enter the ICT industry.

GRADUATE CERTIFICATE IN INFORMATION TECHNOLOGY (CC28)

If you are looking to expand your professional knowledge and skills in IT then this program could be for you. You may have a degree in another discipline or it may have been some time since you graduated with your undergraduate IT degree and you want to update your skills. This program will also suit if you have strong experience in IT but no formal qualification. You will study programming, information systems analysis and design, ICT management and project management. This four-course program is the first of three postgraduate IT programs. CQU’s Graduate Certificate in Information Technology is the ideal pathway into the Graduate Diploma of Information Technology.

DIPLOMA OF INFORMATION TECHNOLOGY (ICT50115)

If you are interested in using a wide range of Information and Communication Technologies (ICT) and gaining employment in small to medium enterprises, the Diploma of Information Technology could be for you. During the course you will develop skills in ICT areas such as networking, IT support, database development, programming and web development. You may be eligible to access VET FEE HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

DIPLOMA OF INFORMATION TECHNOLOGY (CG36)

The Diploma of Information Technology combines theoretical and practical approaches, providing you with the confidence to pursue a career in this growth industry. Topics such as programming fundamentals, systems analysis, networked infrastructures and database design are some of the content covered in this program. The eight-course program is the equivalent of one year of the Bachelor of Information Technology and provides an entry pathway into that program should you be interested in further study.

ASSOCIATE DEGREE OF INFORMATION TECHNOLOGY (CA99)

The Associate Degree of Information Technology will provide you with a solid grounding in IT. This program represents the first two years of the Bachelor of Information Technology. You will complete eight core courses and have the ability to select four electives. Upon completion of the program you can continue your IT studies by enrolling in the Bachelor of Information Technology where you will receive credit for courses completed.

DIPLOMA OF INFORMATION TECHNOLOGY (ICT50115)
GRADUATE DIPLOMA OF INFORMATION TECHNOLOGY (CC46)

The Graduate Diploma of Information Technology is an eight-course program that builds on the foundation developed during the graduate certificate. Professional skills, databases, data structure, networks and web design are the additional topics that are available in this program. On completion of the course you may wish to continue your IT studies by continuing on to the Master of Information Technology and receive credit for courses studied so far.

MASTER OF INFORMATION TECHNOLOGY (CC54)

This program is suitable if you have a bachelor degree in any discipline or have graduated from the CQUniversity Graduate Diploma of Information Technology. The 16-course Master of Information Technology allows you to specialise in either Software Design and Development, Network and Information Security or Mobile Application Development. Credit is given for courses completed within the CQUniversity Graduate Diploma of Information Technology.

MASTER OF INFORMATICS (CU36)

The Master of Informatics is a research higher degree program. It involves supervised research and study in either informatics, information systems, information technology or computer science leading to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DOCTOR OF PHILOSOPHY (CD60)

The Doctor of Philosophy (PhD) is a four-year program of supervised research focused on a particular area of interest you have in information technology and related disciplines. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.
At CQUiversity, our psychology, social work and community services courses cover a diverse range of areas including psychology and social work as well as community-related services such as aged care, community services, disability, health care, indigenous health, and more. There are study options from certificate and diploma to bachelor and postgraduate levels, allowing you to select a course that meets your learning needs, now and into the future.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

COMMUNITY SERVICES

Aged Care

Aged care encompasses the provision of care, support and supervision of aged people in a range of settings such as clinics, hospitals, private residences or residential establishments. Aged care assists and promotes independence and encourages community participation.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE III IN AGED CARE (CHC30212)

The Certificate III in Aged Care is designed to develop your knowledge and skills, enabling you to make a difference in the lives of the elderly. You will develop a wide range of skills, allowing you to become confident in maintaining personal care for elderly people living in residential aged care facilities or in the community. This course has a strong focus on preparing you to provide emotional support and companionship – skills that are highly desired by employers.

CERTIFICATE IV IN AGED CARE (CHC40108)

Enhance your employability within the aged care sector and equip yourself with valuable skills by studying the Certificate IV in Aged Care. You will develop the skills to become a confident supervisor within complex care settings, and learn to plan, implement and monitor programs and services for elderly people living in aged care facilities. You will learn how to perform tasks such as providing residents with support and assistance and administrative duties. You may be eligible to access to VET FEE-HELP which allows you to study now and pay later. Please visit www.cqu.edu.au/fees to determine eligibility.
Community Services

The study of community services focuses on the skills and knowledge needed to assist and encourage community groups and individuals to participate in activities and programs. Planning, development, maintenance and evaluation of community resources, programs, activities and networks are key elements to community services.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN COMMUNITY SERVICES (CHC20112)

Kick start your career in community services and study the Certificate II in Community Services. This course provides you with a pathway into community services work or higher-level qualifications in aged care, disability and home and community care. Your training will prepare you to provide support and assistance to clients accessing services or experiencing issues. Enhance your employability in roles that may have direct client contact and develop skills in helping clients identify their needs and providing referrals to appropriate services and support.

CERTIFICATE III IN COMMUNITY SERVICES WORK (CHC30112)

The Certificate III in Community Services Work provides an ideal pathway for you to gain a higher position or start your career in the community services sector. The course is designed to provide you with the skills and confidence to provide support to both individuals and groups, and make a real difference in your community. On completion you will be prepared for direct client contact work in a range of services for individual and group programs.

CERTIFICATE III IN HOME AND COMMUNITY CARE (CHC30312)

Study the Certificate III in Home and Community Care and kick start your career as a community care assistant – a rewarding profession that allows you to work with the elderly and disabled. You will develop a wide range of skills to ensure you graduate work ready and well prepared to support clients in their own homes and other community settings. Your training will enhance your physical, mental and emotional skills so you can work effectively in the industry.

CERTIFICATE IV IN COMMUNITY SERVICES WORK (CHC40708)

If you are seeking a career that allows you to make a difference in the lives of others then the Certificate IV in Community Services Work may be for you. This course equips you with the knowledge and skills required to be an effective support and case worker. You will learn how to design and deliver programs, as well as appropriate intervention processes that can be applied to residential and community settings. You will develop skills in providing a holistic approach that encompasses social, emotional, psychological and practical support to client needs.

CERTIFICATE IV IN HOME AND COMMUNITY CARE (CHC40212)

The Certificate IV in Home and Community Care at CQUniversity is ideal if you are looking to pursue a leadership position in the home and community care sector. You will develop the skills required to work in client homes and other community settings, within defined organisational guidelines and service plans. Upon completion you will be well prepared to make a difference in the lives of people within our community who have complex needs and groups of elderly people.

CERTIFICATE IV IN LEISURE AND HEALTH (CHC40608)

Equip yourself with a broad range of skills and enhance your employability within community care settings by studying the Certificate IV in Leisure and Health. Your studies will focus on developing skills to effectively design, implement and monitor interactive recreational and health-related activities. You will graduate work ready and capable of delivering recreational and leisure activities and therapy in residential facilities, community agencies and day care centres.

DIPLOMA OF COMMUNITY SERVICES WORK (CHC50612)

Completing the Diploma of Community Services Work may be suitable if you work in a community services organisation and would like to take the next step and advance to a higher-level position. During the course you will focus on developing advanced skills in case management, community development, occupational, health and safety processes, advocacy and working with legal issues. On completion you will be well prepared to coordinate programs and projects and supervise staff and volunteers. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.
**Disability**

Disability studies explores the professional disability support services and assistance that may be provided to clients, as well as appropriate levels of care. Study disability and you may cover different types of disabilities including those that may be physical, sensory, intellectual, mental and emotional, developmental or even non-visible. Disability studies may involve the management of disability including policies and regulations.

Find the latest course and program details online at www.cqu.edu.au.

**CERTIFICATE III IN DISABILITY (CHC30408)**

This entry-level course equips you with the skills and knowledge required to effectively provide a professional disability support service to clients and make a positive difference to the lives of others. You will develop a wide range of skills including communication and delivery of services, as well as knowledge of occupational health and safety procedures. Upon completion, you will be qualified to contribute to positive learning, manage personal care, support group activities and provide behaviour support.

**CERTIFICATE IV IN DISABILITY (CHC40312)**

The Certificate IV in Disability equips you with the skills required to support and enable people with disabilities to achieve greater levels of independence, self-reliance and community involvement. This course will develop your communication and leadership skills so that you can provide effective reports to service managers and liaise with health professionals and other service agencies. On completion you will be prepared to pursue employment in roles without direct supervision and supervise and coordinate other workers. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. Please visit www.cqu.edu.au/fees to determine eligibility.

**Health Care**

Health care involves promoting, preventing, diagnosing, treating and assisting individuals and communities with their physical and mental health and wellbeing. The study of health care may cover areas such as allied health, nursing, Indigenous health, and health support services. You may also explore the health care industry, systems, administration and regulation, support services and health care delivery.

Find the latest course and program details online at www.cqu.edu.au.

**CERTIFICATE II IN HEALTH SUPPORT SERVICES (HLT21212)**

Study the Certificate II in Health Support Services and equip yourself with entry-level skills in supporting the effective functioning of health services. This course is suitable if you are seeking a role in health services that does not provide direct care assistance. Enhance your employability for roles such as hospital assistant, administration support, food service worker, medical orderly, support services worker or ward assistant.

**CERTIFICATE III IN HEALTH SERVICES ASSISTANCE (HLT32512)**

This course will kick start your career as an assistant health professional. While studying this varied course you will gain underpinning knowledge enabling you to assist professional health workers such as nursing staff and ward clerks to provide care for clients. You will gain knowledge and become confident in performing client activities such as showering, bathing, sponging, shaving, assistance with toileting and supporting mobilisation. Your training will focus on developing skills so you can confidently perform work with patients on a daily basis.
Indigenous Health

Indigenous health involves the care of individuals, families and communities. Roles in this area work with patients and assist with the coordination and provision of health care in Indigenous communities and clinics.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE III IN ALLIED HEALTH ASSISTANCE (HLT32142)

Enhance your employability and equip yourself with entry-level health skills by completing the Certificate III in Allied Health Assistance. You will develop a broad skill set, enabling you to provide therapeutic and program-related support to health professionals. You will graduate work ready and well prepared to work in organisations such as hospitals or clinics. You will develop the skills and knowledge required to confidently work in a variety of areas such as rehabilitation, physiotherapy, occupational therapy, podiatry or speech pathology.

CERTIFICATE IV IN INDIGENOUS ENVIRONMENTAL HEALTH (HLT42412)

This course will provide you with operational skills and knowledge of population health projects related to Indigenous environmental health. Upon completion you will be prepared to apply your skills and complete tasks allocated by a population health professional.

DIPLOMA OF INDIGENOUS ENVIRONMENTAL HEALTH (HLT51112)

If you currently hold a certificate in Indigenous environmental health and would like to further enhance your skills and knowledge then this course is for you. You may also be interested in this course if you hold specialist or clinical health qualifications and would like to expand your skill set in Indigenous health. This course will prepare you to carry out plans developed and set by population health professionals. You may be eligible to access VET FEE-HELP, which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

CERTIFICATE III IN ABORIGINAL AND/OR TORRES STRAIT ISLANDER PRIMARY HEALTH CARE (HLT30113)

If you want to pursue a career that allows you to care for others and make a difference in your community, the Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care may be for you. The course provides you with the introductory skills and knowledge required to provide health care services to Aboriginal and Torres Strait Islander people.

CERTIFICATE III IN INDIGENOUS ENVIRONMENTAL HEALTH (HLT32312)

The Certificate III in Indigenous Environmental Health will see you contributing to the work of others through teamwork and coordination in a range of population health projects or programs. The course will enhance your employability for roles such as Indigenous environmental health worker, environmental health officer, Indigenous public health officer or environmental health field support officer in Indigenous communities.
PSYCHOLOGY

Psychology

If you have an inquisitive mind, enjoy working with people and want diversity in your job, then a career in psychology could be for you. Psychology is the study of human behaviour and the factors and influences that shape it. Not everyone with a psychology degree goes on to work as a psychologist. People with a psychology degree are employed in a wide and diverse range of areas including management, industry, clinical work, counselling, neuropsychology, child development, education, forensic, health and coaching. In order to use the title psychologist, you must first complete six years of accredited education and training. CQUniversity has the study pathway to achieve this professional qualification, as well as provide generalist knowledge in the discipline of psychology.

Find the latest course and program details online at www.cqu.edu.au.

BACHELOR OF PSYCHOLOGICAL SCIENCE (CC43)

This program provides you with a comprehensive overview of psychology. On completion, you will have a broad knowledge of psychology and its applications including theoretical perspectives within the discipline. After completing this three-year program you can decide to continue your studies by enrolling in the Bachelor of Psychological Science (Honours) program, which will progress you along the study pathway to registration as a psychologist. Alternatively, you can graduate with a qualification that is universally acknowledged as an indication of competence and achievement in understanding human thought and behaviour, and accredited by the Australian Psychology Accreditation Council.

BACHELOR OF SCIENCE (PSYCHOLOGY) (CF59)

Equip yourself with a range of theoretical perspectives and enhance your knowledge in the discipline of psychology by completing this program. If you have completed a degree in another field and wish to pursue a career in psychology this program may be for you. This is a three-year program, however you may be eligible for recognition of prior learning, in which case you will only be required to complete a number of core psychology courses. Completing this program may make you eligible to apply for the Bachelor of Psychological Science (Honours). The Bachelor of Science (Psychology) is nationally accredited by the Australian Psychology Accreditation Council.

BACHELOR OF ARTS (CA10)

PSYCHOLOGY SPECIALISATION

The Bachelor of Arts provides you with an education in a combination of humanities and social science disciplines and a professional specialisation in Psychology. In contrast to the CQUniversity Bachelor of Psychology, this program places less emphasis on statistical and research methods and more emphasis on an understanding of human thought and behaviour from both theoretical and practical perspectives. If you wish to complete the Psychology specialisation you will complete eight psychology courses plus two majors selected from Aboriginal and Torres Strait Islander Studies, Writing, Geography and Environmental Studies, History, Liberal Arts, Literary and Cultural Studies or Sociology.

BACHELOR OF PSYCHOLOGICAL SCIENCE (HONOURS) (CC42)

The Bachelor of Psychological Science (Honours) is suitable if you have completed an accredited three-year program in psychology and wish to complete an accredited fourth year in psychology to become eligible for provisional registration as a psychologist in Australia. The program introduces you to applied and professional uses of psychology. You will learn about professional ethics and develop an appreciation for the social and cultural contexts of psychological research and professional practice. Upon completion, you may wish to continue on to the Master of Clinical Psychology and study the fifth and sixth year of education required for registration as a psychologist.
Social Work

Social work is a profession committed to social justice and respect for human rights. Social workers provide a range of services including counselling, group work, mediation, advocacy, social support, legal reports, crisis intervention and referral advice. They also contribute to policy development and advise governments on specific welfare issues and as such can influence how services are delivered and how society responds to social issues.

Find the latest course and program details online at www.cqu.edu.au.

Bachelor of Social Work (Honours) (CC48)

Complete the Bachelor of Social Work (Honours) and become a professionally qualified social worker that has fulfilled the practice standards of the Australian Association of Social Workers (AASW) and is eligible for membership with the AASW. The Bachelor of Social Work (Honours) is integrated into a four-year program, with the final year of the program focussing on research knowledge and project requirements for social work scholarship and advanced practice skills and knowledge. You will gain knowledge of social work theory, utilise technical skills to design and use research in a project in your final year and develop skills in research design and methods.

Master of Clinical Psychology (CG17)

The Master of Clinical Psychology is a fifth and sixth year psychology program that, upon completion, allows you to apply for registration as a generalist psychologist and enrolment in the relevant registrar programs for endorsement as a clinical psychologist. Completion of this program provides you with the opportunity for membership with the Australian Psychological Society (APS). The Master of Clinical Psychology is an intensive two-year program currently offered on-campus at CQUniversity Rockhampton North. The first year of the program is centred around the University’s psychology clinic. In the second year of the program you extend your clinical practice skills with two external placements.

Find the latest course and program details online at www.cqu.edu.au.
CQUniversity’s science and environment programs and courses cover a diverse range of areas including agriculture and rural operations, food science, analytical science, biotechnology, biological science, environmental health, laboratory skills, sampling and measurement, and the growing fields of medical science including clinical investigation, nutrition and pathology. CQUniversity’s agricultural research achieved a ranking of 5 (well above world standard) in the 2012 Excellence in Research Australia exercise.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Science

Science is a vastly broad field with many different areas of specialisations including environmental science, agricultural science, medical science, biological science, biotechnology, food research and industrial science. Scientists are highly sought after for both their technical skills, such as being able to conduct laboratory tests or field-work assignments, and transferable skills such as problem-solving and critical thinking.

Find the latest course and program details online at www.cqu.edu.au.

Bachelor of Science (CU18)

The first year of the Bachelor of Science will prepare you to major in Agricultural and Food Science, Analytical and Molecular Science or Ecology and Conservation Biology and will provide you with a foundation for a career in the biological, analytical and agricultural sciences. You will benefit from field trips to a variety of destinations including coral reefs, intertidal and terrestrial ecosystems, main land vegetation communities, agricultural enterprises, mine and other land degradation sites and freshwater and estuarine environments. You will also have the option to undertake a work placement as part of your studies, allowing you to network professionally while completing your studies.

Bachelor of Science (Honours) (CG84)

If you have completed a relevant undergraduate degree or equivalent, the Bachelor of Science (Honours) will enable you to enhance your professional skills acquired in your undergraduate degree. Such skills include problem analysis and research, allowing you to study more rigorously the links between theory and practice. Choose from a range of majors, including Applied Biology, Environmental Science, Industrial Chemistry and Medical Science.

Bachelor of Medical Science (Specialisation) (CG93)

The Bachelor of Medical Science is a practical program designed to ensure you graduate with knowledge in sciences, study and research skills, and professional health experience. While studying this program you will have the flexibility to specialise and pursue career opportunities in clinical investigation, nutrition or pathology. Refer to the Health section of this guide for more details.
Studying agriculture involves learning about the practice of farming such as cultivating soil, growing crops and rearing animals to produce foods and fibres. These products help sustain communities and enhance the life we live. Agribusiness includes all the various businesses involved with these practices and extends to the economics that surround primary industries.

Find the latest course and program details online at www.cqu.edu.au.
BACHELOR OF ENVIRONMENTAL SCIENCE (CA42)

If you want to play a key role in environmental monitoring, management and ecologically sustainable development the Bachelor of Environmental Science will equip you with the knowledge and skills to turn your passion into a career. You will benefit from a combination of theoretical and practical work, including hands-on laboratory sessions and field work. You also have the opportunity to tailor your program to an area of interest by choosing a minor in Environmental Geography, Land Management, Occupational Health and Safety or Water Management.

BACHELOR OF ARTS (CA10)
GEOGRAPHY AND ENVIRONMENTAL STUDIES MAJOR

The Bachelor of Arts provides you with a multidisciplinary education by combining an eight course major in Geography and Environmental Studies with two majors of your choice from the humanities and social sciences range of majors. The Geography and Environmental Studies major is broadly based and integrative. Courses may have a humanities, social science or natural science focus, or a combination of these approaches. This major includes environmental geography courses because the geography discipline also deals with environmental issues that are more contemporary in nature and aimed at improving our ability to manage the environment more effectively.
Laboratory Operations

Laboratory operations involves the collection and preparation of samples, coordination of experiments, taking measurements using scientific equipment, and the recording and analysing of results. Roles may be available in laboratories, production lines or in the field.

Find the latest course and program details online at www.cqu.edu.au.

GRADUATE CERTIFICATE IN ENVIRONMENTAL MANAGEMENT (CQ92)

This program is one of three in the environmental management suite. As a professional engineer, scientist or environmental manager or practitioner with an understanding of environmental issues, problems and solutions this program will provide you with the necessary knowledge and tools to integrate environmental considerations into all aspects of your work. In four courses you will cover air quality, water management and land management, and rehabilitation plus an elective from other areas of environmental management. You can also graduate or receive credit towards the graduate diploma and master’s programs in this suite.

CERTIFICATE III IN LABORATORY SKILLS (MSL30109)

The Certificate III in Laboratory Skills is designed to provide you with the essential skills and knowledge to work effectively in a laboratory. The course will provide you with the underpinning knowledge to perform basic laboratory analysis, maintain equipment, calibrate test equipment and process and record data. The course also covers communication and teamwork. This course offers entry-level technical training in laboratory operations across a range of industries.

CERTIFICATE IV IN LABORATORY TECHNIQUES (MSL40109)

Equip yourself with the skills and knowledge required to perform a range of laboratory techniques and conduct tests and sampling across a variety of industries by completing the Certificate IV in Laboratory Techniques. You will learn how to perform a wide range of sampling and testing, as well as apply technical skills and scientific knowledge. You will cover topics such as environmentally sustainable work practices, laboratory and field workplace safety, planning and conducting laboratory and field work, and processing and interpreting data.

CERTIFICATE II IN SAMPLING AND MEASURING (MSL20109)

This course offers entry-level training for sampling and measurement skills applied across a range of industries. You will develop skills and knowledge in sampling and measuring within the construction, manufacturing, resources and environmental industry sectors for laboratory, production or field operations.
CERTIFICATE II IN NAIL TECHNOLOGY (SIB20210)

This course equips you with the skills and knowledge to interact with customers, provide manicure and pedicure services, applying acrylic or gel nail enhancement, and applying nail art. If you are a recent school leaver, mature age student or beauty worker who would like to add nail technology to your skill set then this course may be for you.

CERTIFICATE II IN RETAIL MAKE UP AND SKIN CARE (SIB20110)

This course provides you with the basics of retail operations relevant to skin care products and cosmetics. You will also learn about applying make-up, demonstrating make-up and skin care products, nail science and much more. If you would like to become a retail cosmetic assistant then study the Certificate II in Retail Make Up and Skin Care at CQUniversity.

CERTIFICATE III IN BEAUTY SERVICES (SIB30110)

This course is ideal if you would like to work in the beauty sector. It equips you with all the important skills to provide manicure and pedicure services, lash and brow treatments including eyelash perming, temporary epilation/bleaching treatments, designing and applying make-up, spray tanning and interacting with customers in beauty reception.

TRADERS AND TRAINING

At CQUniversity, our trades and training courses cover a diverse range of areas including beauty, engineering trades, hairdressing, horticulture, hospitality, veterinary nursing and security operations.

We also offer a number of courses that may be of interest to employers as a viable training option for their apprentices or for those in the mining sector. Please visit www.cqu.edu.au/apprenticeships for more information on our apprenticeship courses and www.cqu.edu.au/mining for information on our range of mining courses.

For up-to-date course information including course location, availability, number of units, unit details and instructions on how to apply visit www.cqu.edu.au or call 13 27 86.

Beauty

Beauty involves the provision of advice about skin care and cosmetics and the application of treatments and body care packages. The study of beauty may include performing massages and aromatherapy treatments, analysing skin needs and providing advice about skin care, providing advice to clients about cosmetic and body care needs, and providing beauty services for clients such as manicures, pedicures, eyelash extensions or tinting, brow shaping and nail care.

Find the latest course and program details online at www.cqu.edu.au.
CERTIFICATE IV IN BEAUTY THERAPY UPGRADE (SIB40110)

If you have completed the Certificate III in Beauty, and would like to study further in this field, this course may be for you. You will gain knowledge and skills in Swedish massage, facial treatments, and advanced facials. This course has been designed to provide you with extensive practical skills and theoretical knowledge in the provision of a diverse range of beauty therapy services and treatments, including lash and brow treatments, waxing and facial treatments and body massage.

DIPLOMA OF BEAUTY THERAPY (SIB50110)

This is an ideal course for you if you would like to become a beauty therapists and are interested in gaining the skills and knowledge in a broad range of beauty therapy treatments and services. This includes facial treatments, Swedish body massage, hair removal, hot stone massage, Indian head massage, microdermabrasion, lash and brow treatments, manicures, pedicures, make-up, aromatherapy, providing advice on beauty treatments and services, selling retail skin care and cosmetic products and co-ordinating a work team. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

ENGINEERING TRADERS

There are many study options available to you if you are currently working or intending to work within the engineering trades of construction, electrical, fabrication, instrumentation, mechanical and plumbing. Our pre-apprenticeship career entry courses will provide you with options to enhance your qualifications and employability skills. We also offer school-based engineering trade courses delivered as part of the VET in Schools (VETiS) program. You will also find that there are a number of post trade and skill development courses that offer you the opportunity to develop advanced knowledge in current and emerging technologies.

CERTIFICATE I IN CONSTRUCTION (CPC10111)

This course provides you with an introduction to the construction industry, its culture, occupations, job roles and workplace expectations. The units of competency cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials. The course is built around a basic construction project unit that integrates the skills and embeds the facets of employability skills in context. This course is offered as part of the VETiS program or to learners with no previous connection to the construction industry or relevant employment history.

CERTIFICATE I IN ENGINEERING (MEM10105)

This is a pre-apprenticeship course that offers you an excellent entry-level qualification for the engineering industry. Successful completion of this course will give you direct and indirect skills associated with apprenticeship trades relevant to the engineering industry. Topics covered include basic welding, basic fabrication, heating and cutting and use of basic workshop equipment. This course is designed to give you employability skills including communication, teamwork, problem solving, initiative and enterprise, planning and organising, self-management and hands on skills relevant to the industry.

Find the latest course and program details online at www.cqu.edu.au.
CERTIFICATE II IN ELECTROTECHNOLOGY (CAREER START) (UEE22011)

This course is designed for those who have no previous connection to the electrical industry or relevant employment training. The Certificate II in Electrotechnology (Career Start) provides you with basic skills and knowledge for safe work in an electrotechnology discipline. Some units attained in this qualification credit towards the listed apprenticeship training plan. Successful completion of this course enhances your employment opportunities if you are seeking an apprenticeship in the electrical trades. This course is also offered as part of the Vocational Education and Training (VET) in Schools program (available for Year 11 students only).

CERTIFICATE II IN AUTOMOTIVE AIR CONDITIONING TECHNOLOGY (AUR20212)

This course is designed as an extension to a trade qualification and covers the skills and knowledge required to perform a range of tasks related to servicing and repairing air conditioning components and systems of cars and heavy vehicles within an automotive service and repair business. Upon completion, you will have a range of employability skills including communication, teamwork, problem solving, initiative and enterprise, planning and organising, self-management and hands on skills relevant to the automotive air industry.

CERTIFICATE II IN AUTOMOTIVE SERVICING TECHNOLOGY (AUR20512)

This course covers the skills and knowledge required to perform a range of servicing operations on light vehicles, heavy vehicles and/or motorcycles within an automotive service or repair business. The Certificate II in Automotive Servicing Technology is designed to prepare new employees or recognise and develop existing workers who are performing servicing and maintenance of vehicles in an automotive service or repair business.

CERTIFICATE II IN AUTOMOTIVE VOCATIONAL PREPARATION (AUR20712)

Study the Certificate II in Automotive Vocational Preparation and gain the skills and knowledge required to perform a limited range of tasks related to familiarisation and inspection of mechanical and electrical components and systems of cars, heavy vehicles, outdoor power equipment, bicycles, marine craft and motorcycles. Upon completion, you will be able to perform minor maintenance and repair of an automotive vehicle body. You will develop a range of skills including communication, teamwork, problem solving, initiative and enterprise, planning and organising, self-management to enhance your employability, as well as hands-on skills relevant to the industry. This course is offered as part of the VET in Schools program (available for Year 11 and 12 students) or as a pre-employment course.

CERTIFICATE II IN ENGINEERING PATHWAYS (MEM20413)

This course equips you with the knowledge and skills to enhance your prospects of employment in an engineering or related working environment. Successful completion of this course enhances your employment opportunities if you are seeking an apprenticeship in the engineering trade. You will develop a range of skills including communication, teamwork, problem solving, initiative and enterprise, planning and organising, self-management as well as hands on skills relevant to the industry. This course is suitable for learners with no previous connection to the engineering industry or relevant employment history and is only available as part of the VET in Schools program (available for Year 11 and 12 students).

CERTIFICATE II IN MANUFACTURING TECHNOLOGY (MSA20208)

The Certificate II in Manufacturing Technology offers you a taste of a range of trades including light automotive, construction, manufacturing and fabrication. While undertaking this course you will acquire a Working in Construction White Card and undertake two weeks of vocational placement with local industries. Career opportunities in the manufacturing and engineering industry may include roles such as designer, metal fabrication worker, diesel fitter, fitter and turner, sheet metal worker, technical officer and more.
CERTIFICATE IV IN BUILDING AND CONSTRUCTION (BUILDING) (CPC40110)

The Certificate IV in Building and Construction will prepare you for a career in building and construction management. This course provides you with the skills and knowledge needed for a career as a builder or manager of small to medium-sized building businesses. Please note that builder licensing varies across States and Territories and additional requirements to attainment of this qualification may be required.

DIPLOMA OF INSTRUMENTATION AND CONTROL ENGINEERING (UEE51011)

The Diploma of Instrumentation and Control Engineering provides you with the skills and knowledge to install, set up, test, develop, select, commission, maintain and diagnose faults/malfunctions of equipment and systems for the measurement, recording, monitoring and control of physical/chemical phenomenon and related process control systems. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

DIPLOMA OF ENGINEERING – TECHNICAL (MEM50212)

The Diploma of Engineering qualification will provide you with both theoretical and semi-technical skills and knowledge. It is most relevant to you if you are presently or intending to be employed in mechanical, mechatronic, manufacturing and maintenance fields at a para-professional level. This program emphasises the transfer of theoretical concepts to practical real world applications. You will study engineering safety, mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program.

Hairdressing

Study hairdressing and learn about a range of services provided in the hair industry such as styling, colouring, bleaching, cutting (including style cuts and trims), applying treatments, shampooing, conditioning and rinsing hair. Hairdressing also involves reception duties such as making appointments and the provision of customer service and advising clients on hair care and their requirements.

CERTIFICATE II IN HAIRDRESSING (SIH20111)

This course provides you with the skills to work as a salon assistant. You will be prepared for communicating in the workplace, interacting with and providing service to clients and assistance to colleagues. You will work under direct supervision and as part of a hairdressing team. Upon completion, you may choose to progress to the Certificate III in Hairdressing.

Find the latest course and program details online at www.cqu.edu.au.
Horticulture

The study of horticulture involves the identification of different plants and soil types, site assessments to correct deficiencies in soil, the preparation and maintenance of growing sites, weeds, pests and diseases that may affect plants, plant support and protection and more. You may also learn about paving projects, stone, metal or water structures and features, retaining walls and other elements that you see in private or public gardens, parks, playing fields or even golf courses.

Find the latest course and program details online at www.cqu.edu.au.

Hospitality

The field of hospitality is wide and varied. The study of hospitality may involve aspects from front and back of house in a range of settings such as restaurants, motels, hotels, clubs, pubs, cafes, and coffee shops where food and beverage is prepared and served. Your studies may include a range of kitchen, function, cooking and hospitality operations, planning, preparing and cooking food, development of menus, food safety and hygiene regulations, operating commercial kitchen equipment and more.

Find the latest course and program details online at www.cqu.edu.au.

CERTIFICATE II IN HORTICULTURE (AHC20410)

If you’re a budding horticulturist then the Certificate II in Horticulture may be for you. Throughout this course you’ll learn how to identify plants and soil types. You will also learn about potting and pruning, customer service and communication helping you gain a solid grounding in your career. This course underpins a range of work functions and job roles that can lead to a horticultural trade qualification.

CERTIFICATE III IN HORTICULTURE (AHC30710)

If you have a green thumb and enjoy working outdoors then you may be interested in studying the Certificate III in Horticulture. This course provides you with general knowledge and skills in amenity horticulture. Amenity horticulture generally focuses on the care and growth of plants for recreational or ornamental purposes. This course may lead to roles such as horticulture worker, horticulture assistant or gardener.

CERTIFICATE II IN HOSPITALITY (SIT20213)

Study the Certificate II in Hospitality and learn basic skills and knowledge in a range of activities and functions required in hospitality. Upon completion you may work in various hospitality settings, such as restaurants, hotels, motels, catering operations, clubs, pubs, cafes and coffee shops using your practical and basic industry knowledge. This course may be completed as part of a traineeship.

CERTIFICATE II IN KITCHEN OPERATIONS (SIT20312)

The Certificate II in Kitchen Operations equips you with skills and knowledge in a range of kitchen functions and activities. Employment opportunities are present in a range of settings such as restaurants, hotels, catering operations, clubs, pubs and cafeterias where food is prepared and served. Study this course and gain basic cookery skills to work as a cook’s assistant, kitchen hand or an apprentice chef. If you would like to undertake an apprenticeship in the trade of cookery, and you are seeking a pathway to be a commercial cook, then this pre-apprenticeship course could provide you with a pathway to the Certificate III in Commercial Cookery. The Certificate II in Kitchen Operations can also be completed as part of a traineeship.
**CERTIFICATE III IN COMMERCIAL COOKERY (SIT30813)**

This course provides you with the practical skills and knowledge needed to work as a qualified commercial cook in a commercial kitchen. Upon completion you will be equipped to work as a commercial cook in restaurants, hotels, clubs, pubs, cafés, cafeterias event catering organisations, airlines, hospitals, student accommodation areas, industry cafeterias and corporate organisations. The knowledge and skills you gain through completion of this course are highly regarded within the hospitality and tourism industry nationally and internationally. If you undertake the Certificate III in Commercial Cookery and wish to qualify for a Trade Certification the process of qualifying with trade equivalence may take up to three years. If you are employed throughout this time in the industry you may be able to fast track this process.

**CERTIFICATE III IN HOSPITALITY (SIT30713)**

The Certificate III in Hospitality equips you for a role as a skilled operator that possesses a range of well-developed skills in hospitality. Throughout this course you will develop the ability to use discretion and judgement and upon completion will possess sound knowledge of industry operations. This course leads to roles in the hospitality industry that may provide operational advice and support to team members while working under limited supervision. Potential job opportunities include roles such as function attendant, restaurant host, food and beverage attendant, espresso coffee machine operator and more.

**DIPLOMA OF HOSPITALITY (SIT50313)**

If you would like to join one of the fastest growing industries in Australia then the Diploma of Hospitality is for you. You will learn valuable skills and knowledge in food and beverage operations, housekeeping, front office and management and finance through work-based sessions. Studying this course provides you with sound knowledge of industry operations and a broad range of managerial skills to coordinate hospitality operations. You may be eligible to access VET FEE-HELP which allows you to study now and pay later. There is also the option to participate in the Diploma with Distinction internship program. Upon completion of this course, you may choose to progress into an Advanced Diploma of Hospitality, which will be available soon at CQUniversity.

**Important note**

- CQUniversity expects to offer an Advanced Diploma of Hospitality which will provide an entry into our new Bachelor of Hotel and Resort Management (available in 2016).

**BACHELOR OF HOTEL AND RESORT MANAGEMENT**

This exciting new course complements the existing study options in business and tourism and creates a learning pathway to provide you with industry-relevant skills and knowledge.

**Important note**

- This course is new in 2016 and subject to final approval. Please visit www.cqu.edu.au for the latest information.
Veterinary Nursing

Veterinary nursing involves the provision of support to veterinarians to assist with managing and caring for animals that receive medical or surgical treatment. In most cases you will work as part of a team in a range of settings including consultation rooms or surgical rooms at a veterinary clinic or hospital. Studying veterinary nursing will prepare you to provide animal care information and advice on matters such as nutrition, behaviour and the general care of hospitalised animals. Your studies may include the technical skills to assist with preparing for and supporting surgeries and handling surgical equipment.

Find the latest course and program details online at www.cqu.edu.au.

Security Operations

Security operations focuses on security issues for organisations and businesses. This may include monitoring access to buildings and facilities, lighting control, alarms and alarm systems, surveillance, barriers and managing security risks and breaches.

Find the latest course and program details online at www.cqu.edu.au.

Certificate IV in Veterinary Nursing (ACM40412)

This course provides you with the skills and knowledge to work as veterinary nurses within veterinary clinics. You will be required to have access to a veterinary clinic whilst undertaking study for this qualification and this is essential for meeting assessment requirements. Access may be through paid employment or substantial periods of work placement or work experience blocks. If you choose to undertake elective units in equine studies you will be required to have access to work experience and/or employment within an equine veterinary clinic or hospital.

Diploma of Veterinary Nursing (General Practice) (ACM50512)

This course equips you for a career as a veterinary nurse and the ability to apply advanced skills and knowledge in patient assessment, care and management within a veterinary workplace. Undertaking this course requires extensive vocational expertise and access through paid employment within a veterinary practice will be essential for meeting assessment requirements of some units. To be successful in this course you will be required to have access and regular exposure to patients, clients, consults, medical and surgical cases, veterinary staff, nursing, reception and administrative duties, practice policies, procedures, retail and customer service experiences so will most likely be working in the industry. This course is new in 2016.
